

Friends of Brookvale Park Trustees report

During our 2017/18 year we held Open meetings and Trustee meetings simply to inform all that we could not proceed with the building because of the bureaucracy that has to be negotiated.

The frustrations of 2017 continued into 2018 with the realisation that the planning permission would run out in March 2018. More expense and this time with additional conditions with even more expense for a contamination report. Those hurdles negotiated we were delighted to learn that our application for funding from HS2 had been granted.

In August, we learned that the cost of utility installation had escalated, this despite both water and electricity having previously been installed at the site.

Two of the Trustees, Samantha and Mike Godfrey, moved away and stepped down in August and Kingstanding Regeneration Trust came alongside the Friends Group and several of their group became Trustees for the Friends of Brookvale.
