- trustees' consideration of major risks and the system and procedures to manage them.

The Charity spent 2019 building relationships with numerous local schools. One in particular (Harris Academy in Peckham and East Dulwich) where very receptive to our course and we successfully delivered our course and committed to numerous assembly's where students where pre-selected and where given the support they needed to help them advance to the next stage of their education.

Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

Streets Ahead was created with the sole purpose to advance in life and help young people between the ages of 14 to 18 who live within the Inner-London Boroughs who have experienced poverty and social deprivation by

- Providing support and activities which develop their skills, capacities and capabilities to enable them to participate in society as mature and responsible individuals
- Advancing education

A six modular 'life skills' course taught to pre-selected students between the ages of 14-18 years old.

Module 1 – Mindset
Module 2 – Communicating with Influence
Module 3 – Divergent Thinking
Module 4 – Resilience
Module 5 – Drive
Module 6 – Fulfilment

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

The course is delivered by us, within a partnering school and requires each child to undertake a short application process in order to participate. The applications provide the Streets Ahead team valuable insight into each child's individual aspirations and fears and, as a result, we'll have a better idea of where the group is as a whole, before we begin delivering the course.

The course itself has been carefully designed (in conjunction with industry experts) to have a lasting impact on all participants who commit to it with an open and optimistic mindset.

Throughout the module we aim to challenge one major idea about success that is commonly held by young people from economically disadvantaged backgrounds: that success is something that happens to other people.

The rest of the course is then ultimately about showing and teaching each participant that, if they want to, they can take control of their future and achieve their own version of success.

Additional details of objectives and activities (Optional information)

N/A – we are self funded.

The Trustees (predominantly Matt and Tom) deliver the course on a voluntary basis.

You may choose to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

Summary of the main achievements of the charity during the year

We successfully delivered our 'life skills' course to 50 pre-selected students within the area of East Dulwich and Peckham in 2019. We had positive feedback from the students that the course gave them a sense of self-confidence and ambition required to move ahead with the next stage of their lives once they had finished sixth form.

The Charity has no requirement for funds. We do not take or spend money. We just give our time on a voluntary basis.

Section F**Other optional information**

This year was the first year we delivered on our course. It was very successful having managed to teach 50 students. Our partnering schools were happy with the quality of the content and the time we spent helping and supporting the students help them advance to the next stages of their lives.
