The relevant officer  
Annual return receiving/ monitoring / approval Department  
Charity commission ,  
UK

Subject: Submission of Annual return

Dear Sir/ madam ,

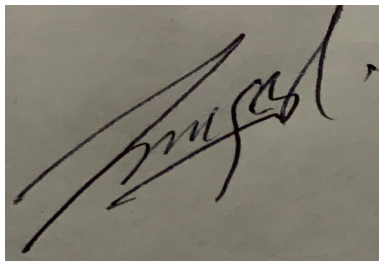

Greater Reading Nepalese Community Association ( GRNCA ) previously registered in the charity commission ( registration number 1123500 ) has been converted into CIO and registered ( registration number 1181709 ) in the charity commission last year ( 2019 ) . Although the old account was supposed to close after the new registration , GRNCA couldn't close the old account because it took a long time to open a new bank account in the name of new CIO account due to a lengthy banking process . Now the new bank account is open and ready to use. Also we have added and updated this account to the charity commission recently. We are in the process of transferring all the bank balance from existing bank account ( sort code 20-71-06 , account number 13360148 ) to the new bank account ( Sort code 20-65-20 , account number 53802132 ) which is opened in the name of GRNCA (CIO ) . Once we conclude this process we will close the old account and operate all the financial and other activities from the new Charity Account number and charity registration number 1181709 . Then only we can submit our financial activities from new account.

This is the reason that we do not have any financial and other activities from the new account and we have submitted Annual return and Trustee's annual report with accounts from the old GRNCA account ( registration number 1123500 ) already.

Thank you very much

Yours sincerely

Omkar Adhikari  
General Secretary / Trustee
