

Kittle School Uganda

End of year report. 1st January - 31st December 2019.

2019 saw further capital expenditure and expansion of the nursery years at school thanks to the new nursery building.

The school management and teaching and ancillary staff completed the year on a positive note with strong exam results.

There continues to be strong demand for places especially for boarders.

In the UK further challenges were faced in retail making conditions tough for the charity shop although changes put into place have started to reverse the decline in income.
