Annual Report 01/04/2019 – 31/03/20

Virtual meeting of Trustees 01/02/2021

This has been a very difficult year with greatly reduced income for the charity due to the COVID pandemic. We have generated some income by our training sessions for doctors in the correct management of acne and rosacea.

We have had considerable communication with patients and carers over the MHRA review of Roaccutane and have provided support and advice to these individuals

We plan to open our website more to patients and their relatives providing updates and advice.

Anthony C Chu

Chairman of Acne and Rosacea Association UK
