## **TRUSTEES ANNUAL REPORT**

### **FOR THE PERIOD ENDED 1 APRIL 2021**

The Trustees have pleasure in presenting their report and the accounts of the Charity for the period ended 1 April 2021 as set out on pages 5 to 8. The financial statements have been prepared in accordance with the accounting policies set out on page 8 and comply with applicable law.

#### **STRUCTURE, GOVERNANCE AND MANAGEMENT**

The Curry Woods Conservation Trust was registered as a charitable incorporated organisation on 22 June 2020 and is governed by its document dated 27 May 2020. The registered company number is CE022249. It is also a registered charity with the registered charity number of 1190031.

Reference and administrative details including the principle office address and details of trustees who served the charity during the period and up to the date of signing are shown on page 1 of the accounts.

Trustees are appointed in accordance with the Governing document. Formal trustee training is provided on an ad hoc basis as required. All strategic decisions are taken by the trustees.

The Trustees continue to review the major risks to which the charity is exposed, covering all identified, relevant areas including financial risk and risks associated with personnel. Risks have been identified, assessed and safeguards have been put in place to eliminate or mitigate such risks as far as is reasonably possible.

#### **OBJECTIVES AND ACTIVITIES**

The main charitable objects of the CIO are:

- To conserve, protect and improve for the public benefit the physical and natural environment of the existing ancient woodland known as Curry Woods and its associated, fauna and flora, pasture and grassland.
- To reinstate and maintain through careful and appropriate management practices a public right of way providing open access to Curry Woods for the general public.
- To engage and inform the general public in the conservation of Curry Woods and all its associated fauna and flora. The general public will be encouraged to visit and volunteer to help with tree planting, maintenance and conservation activities. Information relating to Curry Woods, its history and fauna and flora will be made widely available.
- To increase the diversity of species present and ensure the sustainability of the woods. Through the use of appropriate and expert forest and land management practices young native trees will be planted along with some exotics and conifers. This approach will provide long term viability for the flora and fauna which constitute Curry Woods, while providing the benefits of additional carbon capture and also green space.
- The Trust aims to engage the general public as widely as possible in the sustainable use and preservation of Curry Woods. A community approach to sustainable management under expert guidance is for the benefit of current and future generations of the general public.
- The Trust will look for expert advice guidance where and when appropriate from the Somerset Wildlife Trust, The RSPB and independent ecologists. The main thrust of the work will be to plan and organise the management of the heritage woodland, the planting of new woodland and the cultivation of associated land supporting bird and mammal populations.

When planning the activities for the period, the Trustees have considered the Charity Commission's general guidance on public benefit and, in particular, the specific guidance for charities for promoting the environment. The Trustees believe the activities set out above and further described below under 'achievements and performance' clearly demonstrate the charity's commitment to providing an identifiable public benefit and that access to this benefit is not restricted in any way

## TRUSTEES ANNUAL REPORT

FOR THE PERIOD ENDED 1 APRIL 2021

### ACHIEVEMENTS AND PERFORMANCE

In June 2020 the Charity Commission approved the trust and registered it as a new charity.

In the autumn we worked with the 'Reimagining the Levels' group and The Woodland Trust to obtain a mixture of 400 trees and shrubs for us to plant. The Somerset Rivers Authority awarded the Trust a grant to cover the planting and protection of these plants under the 'Hills to Levels' flood protection scheme. A group of volunteers started planting in December and this was continued in the New Year, maintaining social distancing throughout. Another 100 trees and shrubs were donated by 'One Planet Matters' and these were also planted. The Trust bought the stakes and guards for these.

In December 2020 the trust successfully purchased 3.1 hectares of field and woodland at Hellards Hill Lane, Curry Rivel.

In March 2021 a highly successful day was spent with the 32 children of years 5 and 6 from the Curry Rivel Primary School (about  $\frac{3}{4}$  of a mile to the south) planting the last fifty trees. They were very enthusiastic and we stressed that this was planting for the future and explained what benefits they could hope to see for themselves.

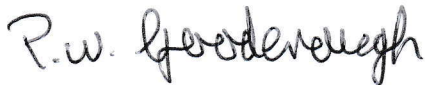

The boundaries of the Trust land within the existing woodland have been identified and marked with temporary markers; we continue to seek funds to work on permanent marking, fencing, footpath improvement and educational activities on site. We will plant another 400 trees, which will again be donated by the same organisations as before, in the autumn. For now the next priority is providing enough water for the newly planted trees. We have discovered a well on the site and have six storage tanks, each one metre cubed, which we hope to fill for the summer watering.

### FINANCIAL REVIEW

Total receipts during the period were £62,120 with the majority arising from donations and grants. Total payments were £61,549, the main payment being for the purchase of fields and woodland.

### RESERVES POLICY

The trustees closely monitor the charity's financial position and seek to ensure that reserves are sufficient to meet its ongoing liabilities. The charity does not aim to hold substantial unrestricted reserves.
