REPORT AND ACCOUNTS FOR THE YEAR ENDED 31 MARCH 2021

REPORT OF THE MANAGEMENT COMMITTEE FOR THE YEAR ENDED 31 MARCH 2021

STRUCTURE AND OBJECTS

The Association is a Charitable Incorporated Organisation (CIO). The registration of the CIO is charity number 1176277. The registered address of the association is 2 Dignum Street London N1 0FJ.

The objects of the Association are to maintain and manage an open space in the borough of Islington for the benefits of its members and local residents.

In planning our activities for the year we kept in mind the Charity Commission's guidance on public benefit at our Management Committee meetings.

ACHIEVEMENTS AND PERFORMANCE

Seen as a model of good practice for many years, Culpeper Community Garden, established in 1982, continues to be a source of inspiration, pleasure and relaxation for members, volunteers and visitors alike. Our relatively small open space in inner London is run by members and volunteers on sustainable, organic principles. It includes 46 plots cared for by local people without their own gardens, plots for supported community groups, and communal areas, including a pond, a wildlife area, lawns, Dry Garden, and rose pergola, a greenhouse; and a 'tea hut' for members. We have a small community building used regularly as a classroom, a meeting room for community groups, and available for rent to our members for birthday parties and weddings.

The day-to-day management of the Garden is in the hands of 2 part-time members of staff, Mandy Graham and Paul Formosa.

2020/2021: We Never Closed

These have been an extraordinary and challenging 12 months here at Culpeper. We have never been busier. Our public gates were firmly closed by Government decree in March 2020; however, our truly remarkable Garden Workers and volunteers worked hard to ensure our most vulnerable members were able to access the Garden in a Covid-safe and secure way, following government guidelines.

We introduced an online booking system so members could access their plots; and provided them with keys to the yard gate. We contacted more than 70 of our more vulnerable members and group participants by phone to check that they were OK, and followed up with those who were not.

Our staff supported those self-isolating and those who had lost their support workers with shopping, picking up medicines and trips to the doctors for urgent treatment. We even helped one vulnerable person move house under difficult circumstances. The lack of choices and opportunities for face to face contact amongst our client groups was a key driver in us instigating this work: the people we care about faced a truly dire situation.

There were a number of people we contacted whose already challenging mental health circumstances were exacerbated by the pandemic. We provided the opportunity for those most in need to get exercise and be outdoors away from the often stressful setting of the few parks that were open (having to deal with joggers, covered benches and the police). Throughout the month of April, we facilitated over 30 people experiencing high levels of distress to spend time in the garden, for a total of at least 150 hours.

We provided an enclosed outdoor space for young people from specialist school providers: this included a weekly session for young people from New River College.

By the beginning of August, we were able to re-establish limited, supervised public access to the Garden, which was to continue until the end of lockdown in the following year.

By September we had secured funding from the Covid Response funds administered by DCMS, Comic Relief and the National Lottery, had generous adjustments made to our existing funding by City Bridge Trust and Cripplegate Foundation; and also received some substantial donations, not least from Macquarie Bank, in order to provide therapeutic activities and ensure our viability through the pandemic.

The project activities were organised into three areas of operation: Arts, Wellbeing and Supported Gardening. Arts included a specific project for women in partnership with Islington Mind, and our popular choir became a weekly outdoor percussion group. Wellbeing saw Chi Kung on the lawn every Monday, regular mindfulness sessions with our partner Claire from Nature as Nurture, and a weekly guided walking group.

Our supported gardening project enabled shared supported housing residents with high and complex needs to enjoy some gentle gardening and respite whilst remaining safe in their household bubbles. Also, we ran a weekly maintenance session aimed at men who were living alone. We had regular visits from New River College students, a class group who were in alternative provision because of their medical conditions.

We continued to welcome volunteer gardeners by appointment to help maintain the Garden and Culpeper Park. We also formed partnerships with local Mutual Aid groups, who started to bring prepared meals and lunches for the people being supported at the garden.

In January 2021 we were given additional funding from Wave 3 of the London Community Response Fund (administered by City Bridge Trust) in order to continue our Covid response work. Each activity was programmed to be between 6 and 12 weeks long; and was organised to finish at the end of June 2021, by which time we anticipated restrictions would ease and alternative service providers would be reinstating activities.

Unfortunately, this has not been the case, and we have seen increasing demand from individuals, statutory service providers and local community groups for a Covid-secure outdoor space in which to attend activities & socialise. The thing we are most proud of, sadly, is that we have been called 'lifesavers' more than once.

GOVERNANCE

During a year of unparalleled challenges a committed Management Committee directed the work of the Garden and staff, to ensure that the vital resource the Garden provides to the local community remained accessible as far as possible within government guidelines.

The Committee is elected by the members and is responsible for the governance and management of the Garden. The site is held on a 50 year lease at a peppercorn rent from the London Borough of Islington; and registered as a Field in Trust - an open space in perpetuity

FINANCE

Our main funding for our core activities, including environmental education, came from the Cripplegate Foundation, Groundwork UK, the Macquarie Group, the Newby Trust Islington Borough Council, the National Lottery, and the City Bridge Trust. Funding for specific projects came from the National Lottery, Awards for All, the Arsenal Foundation, Islington Borough Council and the D'Oyly Carte Charitable Trust. Other income came from members' subscriptions and donations.

We suffered a considerable loss of income from restricted access to the Garden, which meant that we could not use the Garden and Resource Centre for private events and plant sales. However, our main funders were able to channel us additional funding through the Covid Community Fund. We are indebted to them for their help during this crisis, without which we would have had to deplete our reserves to a dangerous level.

We therefore continue to hold reserves equivalent to approximately six months of our running costs. In the event of reduced income in the future, this would enable us to run a basic service in the garden, while we sought future funding. It would also mean that we could meet our responsibilities to our staff if we needed to terminate their contracts.
