- Providing resources for early intervention in the form of care and treatment of people with such conditions;
- Promoting appropriate research on the potential of early intervention in such conditions.

The trustees have had regard to the guidance issued by the Charity Commission on public benefit

Charity Structure and Management

- A nominally paid CEO oversees the charity
- A volunteer leadership team is responsible for running the various areas of the charity
- Approximately 15 further volunteers also carry out work on a volunteer basis

Activities and Objectives for the year

- To expand the online resources available to parents of autistic children
- To lay the foundations for the launch of our Family Services in the 2021-22 financial year (following a delay to this as a result of COVID)

2 Achievements and Performance as well as public benefit

- We continued to develop and expand our online resources for parents of autistic children.
- We began a partnership with Norland College, who began to create a therapeutic framework for our Family Services to enhance their credibility and effectiveness, and so that families who take them up have the reassurance they need that they are professional, research-based services.
- The actual delivery of these services was delayed until next year due to the COVID pandemic and lockdown restrictions.
