Having satisfied myself that the accounts of the Company are not required to be audited for this year under Part 16 of the 2006 Act and are eligible for independent examination, I report in respect of my examination of your charity's accounts as carried out under section 145 of the Charities Act 2011 ("the 2011 Act"). **12.3 Please complete this section where the charity participates in a multi-employer defined benefit pension plan that is accounted for as a defined contribution plan.**

Describe the extent to which the charity can be liable to the plan for other entities' obligations under the terms and conditions of the multi-employer plan. If this is different for last year, provide details

Provide an explanation of how any liability arising from an agreement with a multi-employer plan to fund a deficit has been determined. If this is different for last year, provide details

**SCHEME: TPT Retirement Solutions - The Growth Plan**

The company participates in the scheme, a multi-employer scheme which provides benefits to some 950 non-associated participating employers. The scheme is a defined benefit scheme in the UK. It is not possible for the company to obtain sufficient information to enable it to account for the scheme as a defined benefit scheme. Therefore it accounts for the scheme as a defined contribution scheme. The scheme is subject to the funding legislation outlined in the Pensions Act 2004 which came into force on 30 December 2005. This, together with documents issued by the Pensions Regulator and Technical Actuarial Standards issued by the Financial Reporting Council, set out the framework for funding defined benefit occupational pension schemes in the UK.

The scheme is classified as a 'last-man standing arrangement'. Therefore the company is potentially liable for other participating employers' obligations if those employers are unable to meet their share of the scheme deficit following withdrawal from the scheme. Participating employers are legally

required to meet their share of the scheme deficit on an annuity purchase basis on withdrawal from the scheme.

A full actuarial valuation for the scheme was carried out at 30 September 2017. This valuation showed assets of £795m, liabilities of £926m and a deficit of £132m. To eliminate this funding shortfall, the Trustee has asked the participating employers to pay additional contributions to the scheme as follows:

**Deficit contributions**

From 1 April 2019 to 31 January 2025: £11,243,000 per annum (payable monthly and increasing by 3% each year on 1st April)

Unless a concession has been agreed with the Trustee the term to 31 January 2025 applies.

Note that the scheme's previous valuation was carried out with an effective date of 30 September 2014. This valuation showed assets of £793m, liabilities of £969 million and a deficit of £177m. To eliminate this funding shortfall, the Trustee asked the participating employers to pay additional contributions to the scheme as follows:

**Deficit contributions (Sep 2014)**

From 1 April 2015 to 30 September 2025: £12,945,440 per annum (payable monthly and increasing by 3% each on 1st April)

From 1 April 2016 to 30 September 2018: £5,560 per annum (payable monthly and increasing by 3% each on 1st April)

The recovery plan contributions are allocated to each participating employer in line with their estimated share of the Series 1 and Series 2 scheme liabilities. Where the scheme is in deficit and where the company has agreed to a deficit funding arrangement the company recognizes a liability for this obligation. The amount recognised is the net present value of the deficit reduction contributions payable under the agreement that relates to the deficit. The present value is calculated using the discount rate detailed in these disclosures. The unwinding of the discount rate is recognised as a finance cost
