FOR THE YEAR ENDED 31 MARCH 2022

### Objectives and activities

### **Purposes and Activities of MEC**

MEC's charitable objects are to:

- a. advance the education of the public and promote public involvement in all matters concerning environmental sustainability in the borough of Middlesbrough and the wider Tees Valley area;
- b. preserve protect and enhance the environment within the borough of Middlesbrough and the wider Tees Valley area;
- c. protect and enhance the health and well-being of people in the borough of Middlesbrough and the wider Tees Valley area in particular but not exclusively by providing information, advice and services regarding physical activity, dietary health and mental well-being.

MEC uses the One Planet Living approach to sustainable living. Middlesbrough Council has adopted a Green Strategy based on the One Planet Living model, developed by international charity BioRegional, as a simple means of describing sustainable living in ten easy to understand principles. If everyone on Earth consumed resources at the same rate as people in the UK, three planets would be needed to sustain everyone. There is a need to reduce the consumption of resources to a level that can be sustained by one planet, whilst also improving Quality of Life. The model demonstrates the economic and social benefits of sustainable living.

MEC oversees the implementation of One Planet Living in Middlesbrough amongst local communities, adding significant value to the approach within Middlesbrough Council and its public services.

MEC's work is divided into five themes:

Theme 1 - Engaging Communities in Climate Change and Encouraging More Prudent Use of Resources
The climate and ecological emergencies are still the greatest challenges facing us locally, nationally and
globally, including risks to public health, social cohesion and the economy. The climate emergency still
commands a high public profile, even at a time when the more immediate concern of the Covid-19 pandemic
remains at the forefront of public consciousness. MEC continues to engage and enable communities to both
adapt to climate change and help reduce further impacts.

Reducing the use of the planet's resources is at the heart of tackling climate change and achieving One Planet Living. MEC delivers projects aimed at reducing energy consumption, deriving energy from sustainable sources, supporting recycling and composting. These activities provide excellent opportunities for residents to save money and improve well-being through energy efficiency measures.

### Theme 2 - Promoting Healthier Lifestyles

MEC is proactive in tackling health inequalities in Middlesbrough to improve Quality of Life and encourage sustainable living, working closely with Public Health South Tees and the Live Well Centre. There is a strong link between this theme and Theme 3 below, through encouraging walking and cycling activity. MEC is involved in projects that improve access to healthy exercise for all, encourage food growing and promote healthy eating. Activities link sustainable living to addressing long term conditions such as Type 2 Diabetes and Cardiovascular Disease.

### Theme 3 - Encouraging Greater Use of Sustainable Transport

The delivery of Bikeability cycle training in schools and workplaces throughout the Tees Valley is at the heart of the safe cycling training programme, which is complemented with cycle maintenance training with young people's groups, unemployed people, community organisations and people with special needs. All MEC Cycle Trainers have the new 1st4sport qualification and are some of the first in the Northeast area.

### Theme 4 - Contributing to Physical Environmental Improvements

MEC focuses on supporting other partners to deliver environmental improvements. The Charity has, in recent years, also delivered a range of small community-led improvement schemes, biodiversity and heritage projects. Through the "Green Shoots" project improvements were made to many of the becks in Middlesbrough and Middle Marsh nature reserve in North Ormesby.

FOR THE YEAR ENDED 31 MARCH 2022

Theme 5 - Education and Awareness-raising

The final theme supports the others and underpins community engagement in the One Planet Living programme. Activities include coordinating Middlesbrough's Fairtrade programme, delivery of Forest Schools and participating in major cultural events.

The new "Green Hub" based in Middlesbrough bus station actively encourages residents to visit for information on stainability, healthy living, eco shops, affordable warmth and includes the delivery of the Shopmobility service.

The Charity's base on the Nature's World site with a longer-term lease and an area of land attached to the premises is greatly increasing the opportunities for the organization and its partners to deliver land-based educational activities that promote sustainable living.

FOR THE YEAR ENDED 31 MARCH 2022

### Achievements During the Year - Bringing Public Benefit

Theme 1 - Engaging Communities in Climate Change and Encouraging More Prudent Use of Resources

MEC has been a key partner supporting the development of Middlesbrough's Green Strategy, participating in the core strategic group and the Health & Happiness theme-based working group. A partnership of local organisations led by MEC and including Tees Valley Wildlife Trust, The Linx Project, Actes, The Other Perspective, Thirteen and Middlesbrough Council, has been supported through the first round of the National Lottery Community Fund Climate Action Programme. This invaluable support has enabled the partnership to take a whole system approach to community engagement in tackling climate change, maximizing community leadership in both decision-making and action on climate change locally.

MEC continued to chair and support the South Tees Affordable Warmth Partnership as well as delivering a wide range of initiatives to alleviate the injustice fuel poverty. The South Tees Affordable Warmth Partnership works across both Middlesbrough and Redcar & Cleveland, implementing the Affordable Warmth Action Plan. This includes improving the energy efficiency of homes, increasing household income and helping residents to reduce their energy bills through behavior change.

The role of the Partnership and the work of MEC in tackling fuel poverty took on additional relevance this year as the cost of energy rose and will significantly increase in future years.

MEC provided advice to households on home energy efficiency, including through a dedicated affordable warmth freephone number. This has created a single point of access hub for affordable warmth support as recommended by the National Institute for Health and Care Excellence.

Warm Homes Tees Valley, a consortium led by Stockton-on-Tees Council, began delivering a two-year project funded through the Warm Homes Fund. The scheme ran to 2022 and enabled fuel poor households not currently on the gas network to access either full gas central heating systems or air source heat pumps at no cost to the householder. A targeted approach to engaging communities, focusing on clusters of properties that are not on the gas network and working closely with trusted local partners, including ward councilors to promote the scheme. New heating systems and air source heat pumps are now in the process of being installed. In addition, the project gave energy efficiency advice to 275 households and trained 403 staff from 70 organisations, we also reached 5302 community members through events, targeted door knocking and group sessions.

Cosy Homes, funded by the Energy Redress scheme, is providing energy advice in Redcar and Cleveland, levelling-up support across the South tees area. The project has now come to end but the scheme had supported 1575 households (exceeding our target of 1200), trained 158 front-line staff and distributed £9,900 in fuel vouchers to vulnerable households.

Other emergency support in response to Covid from both Energy redress and Middlesbrough Council delivered a further 963 fuel vouchers, valued at over £46,000 to support vulnerable households through the pandemic. We also received funding from Redcar and Cleveland council for £30,000 (MEC received a £3000 fee) to deliver fuel vouchers across Redcar and East Cleveland. We issued another 550 vouchers across 386 households.

The Warm Welcome scheme, in partnership with Ageing Better Middlesbrough, provided energy efficiency advice and signposting for people over 50, with a particular focus on those facing isolation. Over the two years of the initiative, support was given to 140 people, with 92 front-line staff trained in identifying people in fuel poverty and making referrals for support.

The BESN Big Energy Saving Network supported the provision of advice to vulnerable residents on energy efficiency and tariff switching. Tariff switching and energy efficiency advice was provided to 303 people, with three events undertaken for Big Energy Saving Week including a sustained social media campaign around different energy queries. Due to past success with the BESN projects, we were allocated another £14,000 to deliver the provision again this year without having to apply.

FOR THE YEAR ENDED 31 MARCH 2022

Further work was undertaken to maintain and update the UNO database held by MEC. This provides valuable data on the energy efficiency of properties in Middlesbrough, helping to target support to the most vulnerable people and the homes with the greatest need. We work closely with Middlesbrough Council and their housing stock departments to keep this information up to date and to ensure the best approach when engaging different households in the Middlesbrough area.

We are also in the process of securing another £10,000 in partnership with Redcar and Cleveland Council for Northern Gas Networks funding to work in the Redcar and East Cleveland community. The bid has been successful and gone to the next round. This will further support our Affordable Warmth activity in Redcar and East Cleveland.

Theme 2 - Promoting Healthier Lifestyles

The promotion of healthy living is a significant area of MEC's work, with a close association with cycling and walking under Theme 3 and affordable warmth under Theme 1. This work has received significant support through Public Health South Tees, which has enabled a substantial programme to continue, supporting our most disadvantaged communities and tackling health inequalities.

MEC continued to coordinate the Middlesbrough Food Action Plan delivered through the Food Partnership and with financial support from Sustainable Food Places. The Sustainable Food Places Silver Award was achieved and Middlesbrough is now working towards Gold, with an action plan now in place. MEC also supported the Food Power Alliance in Middlesbrough, implementing an action plan to address food insecurity. The plan covers the main areas of redistribution of surplus food, holiday hunger, maximising income and linking with affordable warmth.

The work of the Food Power Alliance remains significantly important in supporting Middlesbrough's residents' access affordable and healthy food as they recover from the pandemic. MEC and its partners continue to develop the Eco Shop model with Fareshare Northeast (who collect and distribute food from the supply chain). Eco Shops are volunteer run facilities in schools and community venues that help tackle food waste through making surplus food available at an affordable price to communities that would otherwise have gone to landfill. There are now twenty-four Eco Shops across the town, with four community Eco Shops and four school Eco Shops established within the year. The establishment of more Eco Shops, particularly those in community venues, allowed MEC to scale back and cease the Virtual Eco Shop (deliveries of surplus food to people who were self-isolating or unable to leave their homes for other reasons).

A focus of the year has been to try and establish a Tees Food Hub – a surplus redistribution centre in Middlesbrough, in partnership with FareShare NE. This will greatly increase the capacity for food deliveries locally, allowing the expansion of Eco Shops, as well as supporting other emergency food provision. Unfortunately, due to a variety of issues with the building, this has been delayed, with a planned opening in 2022.

The year ended with two successful funding applications to Sustainable Food Places. MEC received a grant for a Food for the Planet campaign – working with anchor institutions to reduce the amount of carbon in their menus through serve less (and better quality) meat and increasing plant-based meals. A partnership between the Middlesbrough, Newcastle and Durham food partnerships also received a grant for a pilot campaign on how to stimulate a good food economy.

The You've Got This programme continued throughout the year, funded by Sport England and with Redcar & Cleveland Council as lead organisation. This innovative initiative, part of the national Local Delivery Pilot programme, is testing ways of engaging with inactive people, supporting them to become more active in both Middlesbrough and Redcar & Cleveland. The project works with target groups within the population including people living with Type 2 Diabetes, people awaiting surgery and users of commercial weight management services. Boro Active Explorers is funded through this Programme discussed under Theme 5.

MEC continued to support health improvements amongst its own staff through the Northeast Better Health at Work Award, which started in October 2009. With the commitment of its Health Champions, MEC reaffirmed Continuing Excellence, acting as an exemplar to other businesses in the region.

# MIDDLESBROUGH ENVIRONMENT CITY TRUST LIMITED A COMPANY LIMITED BY GUARANTEE

TRUSTEES' REPORT (INCLUDING DIRECTORS' REPORT) (CONTINUED)

### FOR THE YEAR ENDED 31 MARCH 2022

Theme 3 - Encouraging Greater Use of Sustainable Transport

MEC has been involved in cycling activities in the Tees Valley and especially Middlesbrough for around 20 years. MEC's cycling and walking projects form part of the Let's Go Tees Valley programme, managed by Darlington Borough Council on behalf of Tees Valley Combined Authority with funding from the Department for Transport Access Fund.

Cycle maintenance and safe cycling training funded through the DfT Access Fund supported cyclists at a reduced level throughout the year, with cycle maintenance workshops taking place across Middlesbrough and Redcar and Cleveland. These were complemented by one-to-one Dr Bike sessions and on-line courses which assisted cyclists in keeping their bikes on the road for daily exercise and other essential purposes.

MEC deliver Bikeability to primary schools in Middlesbrough & Hartlepool and are looking to expand in the Tees Valley area. Bikeability encourages safe cycling and is a skill for life. The trainers also provide pedestrian training encouraging safe walking to school.

Theme 4 - Contributing to Physical Environmental Improvements

MEC was successful in obtaining a grant through the government's Green Recovery Challenge Fund to work with under-represented groups including young people and ethnic minority communities on improving and maintaining Middlesbrough's natural places and local nature reserves. The project, which commenced in February 2021 for twelve months, provide placements for young people through the government's Kickstart programme, providing valuable training and employment opportunities for young people.

Significant progress was also made during the year on the development of MEC's own grounds at the nature's World site to benefit the activities of the Charity. A Forest School delivery area has been developed that provides a safe, secure venue for outdoor activities. Thanks to the in-kind support of BAM Nuttall, who provided staff and machinery, the allotment area was cleared of scrub and is now being prepared to become a farm share area in partnership with Barefoot Kitchen.

### Theme 5 - Education and Awareness-raising

Middlesbrough became a Fairtrade Town in March 2007, with MEC taking a lead role in developing the bid to the Fairtrade Foundation, working through a Fairtrade Partnership. MEC continued to support the initiative through providing coordination for the Steering Group, organising a series of awareness-raising events linked particularly to Fairtrade Fortnight and maintaining the database of Fairtrade outlets. The Partnership's ongoing efforts to highlighting this global aspect to sustainable living was recognized by reaccreditation of Fairtrade Town status in March 2021.

One Planet Pioneers, a five-year National Lottery Community Fund Our Bright Future project came to an end. The initiative improved the life chances of young people by broadening and enhancing their skills and experience through engagement in designing, developing and implementing environmental sustainability initiatives. The project was being delivered by a partnership that also includes Tees Valley Wildlife Trust (TVWT), Actes and Teesside University. MEC and TVWT both provided practical volunteering and apprenticeships for young people, with TVWT also running the John Muir Award, developing young people's understanding of the natural world. Actes supported the programme through coordinating a Youth Panel and guiding programme delivery. Actes also ran a peer mentoring programme, training young people to support other participants on One Planet Pioneers.

Kickstart trainees were employed for the remainder of the programme, providing young people with valuable work experience. A legacy tree planting project designed by the young people was be implemented across the town.

Funding through the You've Got this Sport England Local Delivery Pilot delivery commenced on Boro Active Explorers, a collaborative project to develop and sustain the Forest School model on site, in schools and communities.

FOR THE YEAR ENDED 31 MARCH 2022

### Financial review

### Overall Performance

MEC continued to maintain a sound financial position during the year, with funding received from a variety of sources including grants and contracts. The charity continued to benefit from the close working relationship with Middlesbrough Council, especially through the in-kind support provided by the seconded staff.

### Results

The net surplus of funds for the year was £64,352 which constitutes £56,722 unspent but committed restricted funds and £7,630 of unrestricted funds. The Trustees propose that the balance of the net surplus be transferred to the reserves.

### Investment Powers and Policy

The Trustees, noting the nature of the charity's project programme, which includes significant sums of grant paid in arrears, and the Financial Reserves Policy, have operated a policy of maintaining available funds in an interest-bearing deposit account with competitive levels of interest. In addition, some unrestricted funds were placed, during the year, in short term investments funds yielding a higher return, with the interest reinvested into the charitable activities of the organisation.

### Reserves Policy

MEC has in place a Reserves Policy, which forms part of its Financial Regulations. The Trustees review both the policy and the level of reserves annually. MEC will maintain sufficient unrestricted reserves to ensure the Charity can address the following potential outgoings:

- Sufficient funds to cover the running costs of the charity for a period of six months, assuming that all
  external sources of funding cease. This is considered sufficient time to access other external funding
  if this is available.
- Funds to cover all redundancy costs and notice periods either incurred as projects end or at the end
  of the six-month period.
- · Funds to cover all other winding up costs of the charity at the end of the six-month period.
- A contingency against project overspends and short-term cash flow difficulties resulting, for example, from the payment of grants or other earned income in arrears.

The actual amount of free reserves required to meet these potential outgoings is calculated at the start of each financial year. In their most recent review, the Trustees concluded that the level of free reserve needed by MEC is £408,506. The current level of free reserves is £436,762.

### **Plans for Future Periods**

MEC must still focus its attention on the longer term, and the more significant threat from the climate and ecological crises along with rising energy costs.

The Trustees are very aware of the challenges resulting from cuts in public expenditure, impacting directly on the operation of the Charity as well as significantly increasing demand on its services. They recognise the need for the expedient use of resources to be combined with an imaginative vision that seeks to find innovative ways to address the challenges of sustainable living in Middlesbrough and improving Quality of Life for the town's communities. They will remain vigilant in the management of resources in such challenging times.

MEC is already delivering cycling, walking and affordable warmth initiatives in the adjoining borough of Stockton-on-Tees, Redcar & Cleveland and Hartlepool. Further opportunities will be investigated for partnership working across the wider Tees Valley area.

The work of the Charity has been boosted through the inclusion of a partnership of local organisations, led by MEC, in the first tranche of projects supported by the National Lottery Community Fund Climate Action Programme. This initiative will support the engagement of communities, especially young people, in tackling climate change at a local level, linking closely with Middlesbrough's new Green Strategy.

### Structure, governance and management

### FOR THE YEAR ENDED 31 MARCH 2022

### Governing Document

MEC is a company limited by guarantee governed by its Memorandum and Articles of Association incorporated 13th May 1997.

Cllr J Rostron

A L Rigg

B Cooper

**B** T Araia

(Resigned 21 May 2021)

(Appointed 18 June 2021)

(Appointed 17 January 2022)

### FOR THE YEAR ENDED 31 MARCH 2022

Appointment of Trustees

MEC is managed by a Board of Management made up of the directors of the charitable company and who are also its trustees for the purposes of charity law.

As set out in the Articles of Association, the Board of Management must consist of not less than three. There is no maximum number of members on the Board of Management. Trustees of the Board of Management are drawn from the public, private, academic, voluntary and community sectors.

Nominations for new members are made to the Board of Management for approval. There is an active recruitment process by the Trustees to encourage new members onto the Board of Management as vacancies arise.

Members of the Board of Management are subject to rotation. At the Annual General Meeting, one third of the Board members retire, these being the longest serving members. Retiring members are eligible for reappointment. The Board of Management has undertaken a skills audit to assess the strengths of the Board and identify skills needs. This will be used in the recruitment process for new members as well as informing future training for trustees.

Trustee Induction and Training

New Trustees undertake an induction to brief them on their legal obligations under charity and company law and the management and operation of MEC. A thorough induction pack is provided and includes items such as the governing document, key policies and procedures, Board of Management meeting minutes and audited accounts. New Trustees undertake their induction at MEC's premises, providing an opportunity to meet employees and discuss projects and activities.

MEC encourages further training for Trustees, either internally or through external providers, where this helps them to undertake their role. In addition, relevant updates on matters such as charity law are provided at quarterly Trustees' meetings and through circulation of the Charity Commission's newsletter "Charity Commission News".

Organisation

The Trustees administer MEC. The Board of Management meets four times each year. In addition, the Honorary Officers meet on a further four occasions during the year to discuss the work of the organisation. Sub-groups are convened to deal with specific issues arising in the work of the organisation.

A Director is appointed to manage the day-to-day operations of MEC. A management team comprising the Director, Senior Projects Officer, Partnership Liaison Officer and Finance Officer report to the Board of Management.

Related Parties

MEC delivers most of its objectives through partnership working with other voluntary organisations, government agencies, statutory bodies and Local Authorities. Of these, Middlesbrough Council nominates four representatives to the Board of Management. No other organisation currently appoints representatives to the Board of Management.

Middlesbrough Council seconds three core members of staff to MEC, namely the Director, Senior Projects Officer and Partnership Liaison Officer. The relationship between the Council and MEC is documented in a Memorandum of Understanding, which is negotiated each year between the two parties. When seconded, the staff act only in the interest of the charity.

FOR THE YEAR ENDED 31 MARCH 2022

### Risk Management Strategy

The Trustees undertake a risk review on an annual basis as part of the business planning process. The information is used to develop a risk register which records the procedures and systems that MEC will implement to mitigate the risks that have been identified and to minimise the impact on the charity should the risks materialise.

Other significant areas of risk are identified in the Business Plan, continuing to deliver the aims and objectives of the Charity in the current period of austerity and at a time of increasing demand for the services of the charity; maintaining a diversity of income sources; increasing regulation; and dealing with the loss of key staff. MEC has developed a wide funding base which is not over dependent on one source of income; the Trustees see maintaining this broad base as a priority. Staff have a wide base of skills and extensive experience. Systems are in place to aid the retention of staff, including staff supervision and appraisal systems. The Trustees are also aware of those government policy areas that impact on the work of the organisation and monitor these.

### Financial Risks and Fraud

Each year the Trustees undertake an assessment of financial risks as part of the overall Risk Management Strategy, which forms part of the annual business planning process. Particular attention is drawn to the risk of fraud. From the assessment, the principal risks are identified and appropriate measures introduced to reduce these risks.

### Serious Incidents

In line with Charity Commission guidance, the Trustees will report any serious incidents both to the Charity Commission and in the Annual Report. There have been no serious incidents to report in the year 2021/22.

### Disclosure of information to auditor

Each of the management committee has confirmed that there is no information of which they are aware which is relevant to the audit, but of which the auditor is unaware. They have further confirmed that they have taken appropriate steps to identify such relevant information and to establish that the auditor is aware of such information.

The trustees' report was approved by the Board of Management committee.

# MIDDLESBROUGH ENVIRONMENT CITY TRUST LIMITED A COMPANY LIMITED BY GUARANTEE STATEMENT OF TRUSTEES' RESPONSIBILITIES

### FOR THE YEAR ENDED 31 MARCH 2022

The management committee, who are also the directors of Middlesbrough Environment City Trust Limited for the purpose of company law, are responsible for preparing the Trustees' Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company Law requires the management committee to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charity and of the incoming resources and application of resources, including the income and expenditure, of the charitable company for that year.

In preparing these financial statements, the management committee are required to:

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charities SORP;
- make judgements and estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue in operation.

The management committee are responsible for keeping adequate accounting records that disclose with reasonable accuracy at any time the financial position of the charity and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the charity and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

### MIDDLESBROUGH ENVIRONMENT CITY TRUST LIMITED A COMPANY LIMITED BY GUARANTEE INDEPENDENT AUDITOR'S REPORT

### TO THE MANAGEMENT COMMITTEE OF MIDDLESBROUGH ENVIRONMENT CITY TRUST LIMITED

### Opinion

We have audited the financial statements of Middlesbrough Environment City Trust Limited (the 'charity') for the year ended 31 March 2022 which comprise the statement of financial activities, the balance sheet, the statement of cash flows and the notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the state of the charitable company's affairs as at 31 March 2022 and of its incoming resources and application of resources, for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice;
   and
- have been prepared in accordance with the requirements of the Companies Act 2006.

### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report. We are independent of the charity in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Conclusions relating to going concern

In auditing the financial statements, we have concluded that the trustees' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the charity's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the management committee with respect to going concern are described in the relevant sections of this report.

### Other information

The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. The management committee are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

# MIDDLESBROUGH ENVIRONMENT CITY TRUST LIMITED A COMPANY LIMITED BY GUARANTEE INDEPENDENT AUDITOR'S REPORT (CONTINUED)

### TO THE MANAGEMENT COMMITTEE OF MIDDLESBROUGH ENVIRONMENT CITY TRUST LIMITED

### Matters on which we are required to report by exception

We have nothing to report in respect of the following matters in relation to which the Charities (Accounts and Reports) Regulations 2008 require us to report to you if, in our opinion:

- the information given in the financial statements is inconsistent in any material respect with the trustees' report; or
- sufficient accounting records have not been kept; or
- the financial statements are not in agreement with the accounting records; or
- we have not received all the information and explanations we require for our audit.

### Responsibilities of management committee

As explained more fully in the statement of trustees' responsibilities, the management committee, who are also the directors of the charity for the purpose of company law, are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the management committee determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, the management committee are responsible for assessing the charity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management committee either intend to liquidate the charitable company or to cease operations, or have no realistic alternative but to do so.

### Auditor's responsibilities for the audit of the financial statements

We have been appointed as auditor under section 144 of the Charities Act 2011 and report in accordance with the Act and relevant regulations made or having effect thereunder.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities is available on the Financial Reporting Council's website at: https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

# MIDDLESBROUGH ENVIRONMENT CITY TRUST LIMITED A COMPANY LIMITED BY GUARANTEE INDEPENDENT AUDITOR'S REPORT (CONTINUED)

### TO THE MANAGEMENT COMMITTEE OF MIDDLESBROUGH ENVIRONMENT CITY TRUST LIMITED

Extent to which the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above and on the Financial Reporting Council's website, to detect material misstatements in respect of irregularities, including fraud.

We obtain and update our understanding of the entity, its activities, its control environment, and likely future developments, including in relation to the legal and regulatory framework applicable and how the entity is complying with that framework. Based on this understanding, we identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. This includes consideration of the risk of acts by the entity that were contrary to applicable laws and regulations, including fraud.

In response to the risk of irregularities and non-compliance with laws and regulations, including fraud, we designed procedures which included:

- Enquiry of management and those charged with governance around actual and potential litigation and claims as well as actual, suspected and alleged fraud;
- · Reviewing minutes of meetings of those charged with governance;
- Assessing the extent of compliance with the laws and regulations considered to have a direct material
  effect on the financial statements or the operations of the entity through enquiry and inspection;
- Reviewing financial statement disclosures and testing to supporting documentation to assess compliance with applicable laws and regulations;
- Performing audit work over the risk of management bias and override of controls, including testing of
  journal entries and other adjustments for appropriateness, evaluating the business rationale of
  significant transactions outside the normal course of business and reviewing accounting estimates for
  indicators of potential bias.

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the financial statements or non-compliance with regulation. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the financial statements, as we will be less likely to become aware of instances of non-compliance. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

### Use of our report

This report is made solely to the charity's trustees, as a body, in accordance with part 4 of the Charities (Accounts and Reports) Regulations 2008. Our audit work has been undertaken so that we might state to the charity's trustees those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charity and the charity's trustees as a body, for our audit work, for this report, or for the opinions we have formed.

### FOR THE YEAR ENDED 31 MARCH 2022

### 1 Accounting policies

### **Charity Information**

Middlesbrough Environment City Trust Limited is a private company limited by guarantee incorporated in England and Wales. The registered office is Sandy Flatts Lane, Acklam, Middlesbrough, TS5 7YN, United Kingdom.

### 1.1 Accounting convention

The financial statements have been prepared in accordance with the charity's governing document, the Companies Act 2006 and "Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102)" (as amended for accounting periods commencing from 1 January 2019). The charity is a Public Benefit Entity as defined by FRS 102.

The financial statements are prepared in sterling, which is the functional currency of the charity. Monetary amounts in these financial statements are rounded to the nearest £.

The financial statements have been prepared under the historical cost convention. The principal accounting policies adopted are set out below.

### 1.2 Going concern

At the time of approving the financial statements, the management committee have a reasonable expectation that the charity has adequate resources to continue in operational existence for the foreseeable future. Thus the management committee continue to adopt the going concern basis of accounting in preparing the financial statements.

### 1.3 Charitable funds

Unrestricted funds are available for use at the discretion of the management committee in furtherance of their charitable objectives.

Restricted funds are subject to specific conditions by donors as to how they may be used. The purposes and uses of the restricted funds are set out in the notes to the financial statements.

Endowment funds are subject to specific conditions by donors that the capital must be maintained by the charity.

### 1.4 Income

Income is recognised when the charity is legally entitled to it after any performance conditions have been met, the amounts can be measured reliably, and it is probable that income will be received.

Cash donations are recognised on receipt. Other donations are recognised once the charity has been notified of the donation, unless performance conditions require deferral of the amount. Income tax recoverable in relation to donations received under Gift Aid or deeds of covenant is recognised at the time of the donation.

Legacies are recognised on receipt or otherwise if the charity has been notified of an impending distribution, the amount is known, and receipt is expected. If the amount is not known, the legacy is treated as a contingent asset.

## MIDDLESBROUGH ENVIRONMENT CITY TRUST LIMITED A COMPANY LIMITED BY GUARANTEE

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

### FOR THE YEAR ENDED 31 MARCH 2022

### 1 Accounting policies

(Continued)

### 1.5 Expenditure

All expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all costs related to the category. Expenditure is recognised where there is a legal or constructive obligation to make payments to third parties, it is probable that the settlement will be required and the amount of the obligation can be measured reliably. Irrecoverable VAT is charged as an expense against the activity for which expenditure arose.

Direct charitable expenditure includes the direct costs of the activities and depreciation on related assets. Where such costs relate to more than one functional cost category, they have been split on an appropriate basis.

### 1.6 Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Plant and equipment

25% straight line

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is recognised in net income/(expenditure) for the year.

### 1.7 Impairment of fixed assets

At each reporting end date, the charity reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

### 1.8 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts.

### 1.9 Financial instruments

The charity has elected to apply the provisions of Section 11 'Basic Financial Instruments' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the charity's balance sheet when the charity becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

### Basic financial assets

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

### FOR THE YEAR ENDED 31 MARCH 2022

### 1 Accounting policies

(Continued)

### Impairment of financial assets

Financial assets, other than those held at fair value through income and expenditure, are assessed for indicators of impairment at each reporting date. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows have been affected.

If an asset is impaired, the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in net income/(expenditure) for the year.

If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been, had the impairment not previously been recognised. The impairment reversal is recognised in net income/(expenditure) for the year.

### Derecognition of financial assets

Financial assets are derecognised only when the contractual rights to the cash flows from the asset expire or are settled, or when the charity transfers the financial asset and substantially all the risks and rewards of ownership to another entity, or if some significant risks and rewards of ownership are retained but control of the asset has transferred to another party that is able to sell the asset in its entirety to an unrelated third party.

### Basic financial liabilities

Basic financial liabilities, including creditors and bank loans are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of operations from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

### Derecognition of financial liabilities

Financial liabilities are derecognised when the charity's contractual obligations expire or are discharged or cancelled.

### 1.10 Employee benefits

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the charity is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

FOR THE YEAR ENDED 31 MARCH 2022

### 2 Critical accounting estimates and judgements

In the application of the charity's accounting policies, the management committee are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.
