Trustees Report (Including Directors' Report)

For the Year ended 31 March 2022

The Trustees present their report together with the financial statements for the year ended 31 March 2022.

Objectives and Principal Activities

To further such charitable purposes (charitable under english law) as the trustees see fit from time to time in particular but not limited to the advancement of education and relief of sickness for the public benefit by sponsoring orphans and making grants to organisations and to registered, excepted and exempt charities.

Alfityanu Humanitaire United Kingdom is registered as a Charitable Incorporated Organisation (CIO) under the Charities Act 2011 on the 12th February 2020.

Going Concern

Given that most of the CIO's funding comes from members subscriptions and donations from individuals, the Trustees believe that, while uncertainty exists, this does not pose a material uncertainty that would cast doubt on the Charity's ability to continue as a going concern. The Trustees therefore, consider it appropriate for the financial statements to be prepared on a going concern basis.

Statement of the responsibilities of the Board

The Board of Trustees are responsible for preparing the Report of the Trustees and the financial statements in accordance with applicable law and regulations. Charity Commission legislation requires the Trustees to prepare financial statements for each financial year. Under that law the trustees have adopted the provision of the Statement of Recommended Practice (SORP), Accounting and Reporting by Charities in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland"). In preparing these financial statements, the trustees are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The Trustees are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the CIO and enable it to ensure that the financial statements comply with the Charities Act 2011. It is also responsible for safeguarding the assets of the CIO and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Risk Management

Trustees need to be aware of all risks facing charities. To overcome any potential risks, at Alfityanu, we are always devising ways of improving risk management through better education and training, improving and adopting new processes.

Due diligence are carried out on trustees and projects. Regular risk management appraisals are carried data management, cash handling if any and banking.

We always work with professional organisations and individuals to keep ahead of any regulations relating to our CIO.

Report of the Trustees

For the year ended 31 March 2022 (continued)

Activities During the Year

Despite the current unprecedented economic climate, the CIO was able to continue with two major activities started last year and added another to support the needy families in Senegal during Eid-ul-adha (the Islamic feast of sacrifice) as part of our objectives.

1. School Renovation in Senegal

This project is in its second year in running. As part our education advancement programmes, the CIO was able to support and sponsor the renovation of the African American Islamic Institute (AAII) in Kaolak, Senegal. AAII is an international humanitarian institute in Senegal whose mission is to develop sustainable human and natural resources that promote education, health care, women empowerment, child protection, hunger and poverty alleviation and promotion of peace. The renovation project is being funded from the CIO's general membership donations and subscriptions in collaboration with the parent teachers association of the institution and the locals.

2. Orphanage Sponsor

Losing both parents at a young age is no doubt one of the most daunting and challenging experience a child can go through. This is why Alfityanu Humanitaire UK deemed it fitting to include as part of its objectives to support this vunerable group in society. During the year, the CIO was able to support 10 orphans (2021: 8) (7 in Senegal and 3 in Gambia) with their education requirements (school fees, books, uniform etc) and general welfare such as food, medical bills and clothing amongst other things.

3. Eid-ul-Adha (Islamic Feast of Sacrifice)

During the celebration of the feast of sacrifice in June 2021, The CIO was able to provide funding of £1,500 for the purchase of 20 Rams for sacrifice and distributed the meat to the poor and needy families in Senegal.

Financial Review and Summary

Alfityanu Humanitaire's main source of funding is from members subscriptions and donations from individuals. During the year, a total of £11,522 (2021: £10,100) was raised of which £8,285 (2021: £7,228) was spent on the charity's activities. This leaves a surplus of £3,237 (2021: £2,872) which is credited to the reserves account.

Future Plans

Given that this is the second year of operation following registration and the economy still recovering from the aftermath of the COVID-19 pandemic, the CIO has not engaged in any fund raising or applied for funding anywhere. We have not also engaged in any public relations activity to put the CIO's name out there for public support.

As the pandemic eases off and the economy is open again, trustees aimed to tap for external funding and engaged in public awareness for support in achieving the CIO's objectives. We also have plans to have a community base Islamic education in UK in the form of evening and/or weekend classes where both children and adults are taught how to read the Quran and have better understanding of the Islamic religion.

The CIO is also looking to expand its board of trustees to include members with the right expertise to become trustees

The trustees report was approved by the Board of Trustees and signed on its behalf by:

S Jagne

Notes to the Financial Statements

For the Year ended 31 March 2022

1. Principal Accounting Policies

Basis of Accounting

The financial statements have been prepared under the historical cost convention and in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", Accounting and Reporting by Charities" the Statement of Recommended Practice (SORP) for charities applying FRS 102.

Going concern

At the time of approving the accounts, the trustees have a reasonable expectation that the CIO has adequate resources to continue in operational existence for the foreseeable future. Thus, the trustees' continue to adopt the going concern basis of accounting in preparing the accounts.

Incoming resources

All incoming resources are included in the Statement of Financial Activities when the charity is legally entitled to the income and the amount can be quantified with reasonable accuracy

Resources expended

Expenditure is accounted for on an accrual basis and has been classified under headings that aggreate all cost related to he category. Where costs cannot be directly attributed to particular headings they have ben allocated to activities on the basis consistent with the use of resources.

Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Land	Not depreciated		
Buildings	2% Straight lin		
Computer equipment	20%	Straight line	
Office equipment	20%	Straight line	

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is recognised in net income/(expenditure) for the year

Fund accounting

Unrestricted funds can be used in accordance with the charitable objectives at the discretion of the trustees. Restricted funds can only be used for particular restricted purposes within the objects of the charity. Restrictions arise when specified by the donor or when funds are raised for particular restricted purposes. Further explanation of the nature and purpose of each fund is included in the notes to the financial statements.

Notes to the Financial Statements

For the year ended 31 March 2022 (continued)

Impairment of fixed assets

At each reporting end date, the CIO reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised immediately in income/ (expenditure for the year, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Recognised impairment losses are reversed if, and only if, the reasons for the impairment loss have ceased to apply. Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset

Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

Basic financial assets

Basic financial assets which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets

Basic financial liabilities

Basic financial liabilities, including creditors and bank loans are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of operations from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method

Notes to the Financial Statements

For the year ended 31 March 2022 (continued)

Derecognition of financial liabilities

Financial liabilities are derecognised when the charity's contractual obligations expire or are discharged or cancelled

Critical accounting estimates and judgements

In the application of the CIO's accounting policies, the trustees are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods
