The trustees (who are also directors of the charity for the purposes of the Companies Act) present their annual report together with the audited consolidated financial statements of The Tank Museum Limited and its trading subsidiary, the Tank Museum Trading Company Limited for the year ended 31 December 2022. The trustees confirm that the Annual Report and financial statements of the charity and the group comply with the current statutory requirements, the requirements of the charity's governing document and the provisions of the Statement of Recommended Practice (SORP) "Accounting and Reporting by Charities" issued in March 2005.

Group Strategic Report

Policies and objectives

Purposes and aims: The charity's purposes are set out in the objects contained in the company's Memorandum of Association:

- To educate the public in the history of armoured warfare;
- To hold together the traditions of the Royal Armoured Corps and the Royal Tank Regiment and to perpetuate their deeds by the provision and maintenance of a museum;
- To preserve, for the benefit of the public, vehicles, documents and other exhibits and artefacts which are of historical importance in the study of armoured warfare.

We summarise our purpose with the phrase 'we tell the story of tanks and the people who serve with them'. The vision of The Tank Museum is to be the world's leader in the heritage of armoured warfare. Our mission is to conserve, develop and interpret the national collection of tanks and armoured fighting vehicles to educate and inspire people with the story of tanks and the people who serve with them; past, present and future.

Activities for achieving objectives

- Collecting- We hold the world's most important collection of armoured fighting vehicles and associated objects. We continue to enhance our collection to maintain this position;
- Conservation- We conserve our collections to ensure their availability for future generations;
- Communication- We use our collections to tell the story of tanks and the people who serve with them. We tell these stories at the Museum to the Army, the general public and to a global online audience.

In delivering our activities we seek to:

- Have a sound financial base and business culture to ensure the museum is sustainable and thrives;
- Control risk to ensure the longevity of the organisation;
- Maximise access, intellectual and physical, for all;
- Interpret the story of armoured warfare to meet audience needs in an enjoyable and engaging way;
- Be a leading authority on the history of armoured warfare;
- Consult and encourage involvement of the wider community in the life of the museum;
- Provide a safe and secure working environment and to promote the professional development of staff and volunteers

Ensuring our work delivers our aims

Every twelve months, the board of trustees reviews our aims, objectives and activities in a forward plan. This plan looks in detail at the year ahead and in summary to a minimum of five years ahead. Progress against this plan is assessed every quarter during the Board meetings. We have referred to the guidance contained in the Charity Commission's general guidance on public benefit when reviewing our aims and objectives and in planning our future activities. In particular the trustees consider how planned activities will contribute to the aims and objectives that they have set.

How our activities deliver public benefit

Our activities focus on engaging with the general public to educate them in the history of armoured warfare, in particular to try to ensure that the achievements of the Royal Armoured Corps and the Royal Tank Regiment are preserved for posterity. To do this, we hold and interpret the national collection of armoured vehicles.

Achievements and performance

Who used and benefited from our services?

Between January and December 2022, 207,888 people visited the Museum (2021: 149,244). While the visitor numbers at the beginning of the year continued to be impacted by the pandemic, the recovery through the year proved very strong, with numbers by the end of December being within 2% of pre-pandemic levels.

The admissions policy allows for serving members of the armed forces and for members of the regimental associations of the Royal Armoured Corps to enter the Museum free of charge. We also encourage families of MoD staff in Bovington to use the Museum at no charge. Despite the pandemic 3,460 (2021: 3,887) people took advantage of this service, with an additional 2,051 receiving a tour with an expert guide.

While everyone has access to the Museum, there is a charge for entry which extends to an annual membership. During winter months, up to 15% of our audience comes from people taking advantage of the unlimited return visits from their annual membership.

Review of activities

Despite the impact of the Omicron variant at the start of the year, the Museum delivered a full programme of activities in 2022. This programme built on many of the opportunities provided by the pandemic particularly in online activities which continued to flourish. The Museum had taken advantage of the pandemic closures to accelerate the installation of new Second World War exhibitions which proved extremely popular and played a significant part in our performance at the top of industry benchmarking carried out by ALVA (Association of Leading Visitor Attractions). In 2022, we implemented some of the learnings from the pandemic in introducing more play activities into our galleries to improve the quality of a family visit.

Our major events were reintroduced in full during 2022, with Tankfest returning to over 20,000 visitors in an event which has become a genuine hybrid between online and onsite activities. The online stream reached a concurrent audience of over 50,000 people and included material presented by armour museums across the world in addition to the highlights of events in Bovington.

Online Growth

The most significant development since the beginning of the pandemic has been the rapid expansion of the Museum's digital activity. This work extended further in 2022, with support of a £100k grant from the National Lottery Heritage Fund. As well as maintaining the rate of online retail sales from the previous year, the Museum's main YouTube channel once again passed 20 million views for the year. In addition the organisation launched a new TikTok short form channel which recorded over 40 million views by the end of December. The Museum also began a second YouTube channel which will form the basis of a more popular history offering for the future as well as putting online video material onto Instagram Reels and Facebook. In total online videos received approximately 65 million views in 2022, making the Museum a clear industry leader in this area. The online engagement is particularly strong with groups that are hard to reach for the Museum sector. The main YouTube channel primarily reaches 24-25 year old men, with the TikTok channel being effective at reaching a younger audience for which the largest group is 18-24 year olds. This provides a long-term future audience for the Museum's other activities and is playing a key role in building a long-term supporter base.

Collections and Collections Management

The Museum's programme of collection management restarted in full during 2022, with the team seeking to catch up on a backlog of work following two years of disruption. A full vehicle programme was carried out with vehicle availability throughout the display season being a testimony to the hard work of staff and volunteers. The Museum continues to work at the leading edge of best practice in caring for its collections, with a project completed to move our archive storage to a passive system giving improved climate conditions for our collections while reducing utility usage and carbon footprint. In November 2022 a grant was given by the DCMS Wolfson Museum and Galleries Improvement fund to implement similar changes to our main collections stores to transition from active to passive storage conditions.

Telling our stories and Educating the Public

The Museum invested heavily in improving exhibitions during the lockdowns of 2020 and 2021 and continued to improve the visitor experience in 2022. The addition of a large number of play based activities has had a significant impact on the quality of engagement in our signature Tank Story exhibition during 2022. The Trustees assess our impact as an educational institution via a range of measurements including qualitative and quantitative assessments using in house and external surveys. 2022 saw the highest dwell times for visitors at the Museum that we have recorded, with the average visit now lasting over four hours.

The Museum sees live displays of moving vehicles as a key part of its activity, both in preserving skills, sounds and the wider cultural biography of the collections and as a way of bringing them to life for the public. The Museum is a leader in managing the complex balance of operation against conservation, working in partnership with a number of universities in understanding the ethical and physical challenges involved. The hybrid Tankfest in 2022 brought 20,000 visitors to the site with an intersecting online event using live and recorded footage from the site combined with a set of material from partner tank museums in around the world. The event was in the top five such livestreams in the world on Twitch that day, enabled by our longstanding partner Wargaming.net.

Our success in engaging our audience is demonstrated by the reach we extend and the range of people who visit us. As well as drawing an unusually large proportion of our visitors from C2, D and E social groupings, our research from the 80% of visitors who filled in their gift aid forms showed the average drive time from their homes was over two hours, vital in order to overcome the challenges we face from our location in rural Dorset.

The Tank Museum Limited
(A company limited by guarantee)

Trustees' Report (continued)
For the year ended 31 December 2022

Our volunteers continue to provide invaluable support to the Museum. 84 people devoted 19,831 hours (2021: 5,925) of their time during the course of 2022. The commitment and enthusiasm of our volunteers is greatly appreciated by the Board of Trustees.

After two years of significant disruption, the Museum's formal education programmes were restarted in full during 2022. The Museum is "Artsmark" accredited for its schools work and in 2022 catered for 6,281 children (2021: 4,116), which was a return to prepandemic levels. The Museum also operates a flourishing STEM club for children from local schools to inspire young people to learn about science and technology. A successful partnership has been formed with the Jon Egging Trust, who have introduced 60 children with barriers to learning to the Museum and its work.

The Museum has developed partnerships with universities to deepen our understanding of our collections. We continue to work with Bournemouth University, University College London and Cardiff University on issues of collection care, and are collaborating with the Arts University Bournemouth to improve the way we project our collections.

Commercial operations

When open to the public the Museum continues to be successful in generating funds. The philosophy of The Tank Museum is that the Museum's ability to generate income dictates the level of ambition that it can hold in regard to the delivery of its charitable objects. The operations team continue to work hard to generate funds which are used to the benefit of our visitor experience and the continued preservation of the collection. Most of the Museum's trading activities are consolidated into The Tank Museum Trading Company Limited.

The Museum trading activities continued to be strengthened by revenue from the online shop this helped to generate a gross profit before administration expenses of £1,471,662 (2021: £1,278,003). Activities in this area continue to be our shop both online and onsite, restaurant and extensive corporate offering.

Our ability to generate income through our online activities was transformed during the course of the pandemic and this growth was retained in 2022 despite the wider online sales environment having a post-pandemic downturn. The Museum is now able to use its substantial online presence to generate a over a million pounds of online shop sales as well as attracting significant incomes through Patraeon and Adsense.

The Tank Museum Trading Company

This is the Museum's trading company whose accounts and gift aided donation of £467,229 (2021: £169,492) to the Museum are incorporated into the consolidated accounts.

Investment policy and performance

The investment policy of the Museum is to protect the capital invested and we have adopted a range of risk for our investments depending on the purpose of the funds.

The Museum's investment portfolio is managed by Investec with full discretionary powers. They manage three funds. The Resource Fund holds funds which are allocated to capital projects in the short term. The 2054 Fund is a designated fund which seeks to cover long term fixed costs and the HLF Catalyst Designated Fund seeks to support the ongoing exhibition development of the Museum.

Our investments performed less well in 2022, affected by adverse macro economic factors, with an unrealised loss of £659,400, (2021: Gain of £653,910). However, all funds exceeded the set benchmarks for the financial year, and the trustees remain content that the strategy applied for the funds is the correct one in terms of risk profile and required expected returns, comforted by the fact that over the long term our investment strategy has over an extended period produced a substantial return.

Remuneration and key management personnel

The trustees consider the board of trustees, the Museum Director, the Company Secretary, (who is also the Head of Finance), the Head of Collections, the Curator, the Head of Marketing and Engagement, the Head of Commercial Operations and the HR Business Partner to comprise the key management personnel of the charity. All members of the board of trustees give their time voluntarily and receive no financial benefits from the charity. The remuneration of key management personnel other than the trustees is set out in note 10 to the financial statements.

Financial review

2022 was the first year since 2019 without been affected to a large extent by the impact of the Coronavirus (COVID-19), declared by the World Health Organisation as a "Global Pandemic".

Thanks to our ongoing investment in our exhibition programme, our media profile and hard working loyal staff we have recovered our visitor numbers back to the last non Covid affected year of 191,063 (2019: 192,817).

This recovery in visitor numbers has resulted in a surplus of unrestricted funds for the year of £614,479 before investments (2019: £788,129).

Total funds generated in 2022 were a loss of £102,471 (2021 gain of £1,754,832). The main reason for the downturn is unrealised investment losses of £659,400 (2021 gains of £653,910).

The Museum's liquidity position continues to remain strong, with funds invested in a combination of cash, low risk corporate bonds and equities which have exceeded the benchmarked performance criteria. These investments are currently valued at £6,501,140 (2021: £7,233,730). The intention of these investments is to use the funds towards costs related to major exhibitions planned for 2023 and beyond, site improvements and the Museum's ongoing resilience.

The Museum also has cash totalling £3,166,180 (2021: £2,349,283), which is used to finance the day to day running, and the current building projects of the museum and working capital.

The Ministry of Defence continues to fund the running costs of The Tank Museum's buildings in line with ECAB policy. The board is extremely grateful to the MoD both for their financial support and ongoing technical assistance on all operational matters. The support from the MoD takes the form of paying for services to support the upkeep and operations of buildings, and a number of non-cash items such as depreciation and cost of capital. By combining the MoD's buying power on services and utilities with the private sector management of the operation, The Tank Museum provides an excellent model for public/ private sector partnership. This income and expenditure is recognised in the Statement of Financial Activities.

Reserves policy

The trustees continue to monitor the reserves of the Museum closely and any funds given for specific projects are held as restricted funds which total £12,540,814 (2021: £12,794,214) including endowment funds of £1,300,238 (2021: £1,475,617).

Unrestricted funds are expendable at the discretion of the trustees in the furtherance of the Museum's objectives in a way that provides inclusive benefit for all. With the lessons of the pandemic, Trustees have evolved the reserves policy to be more flexible to take account of known risks at the time. The reserve policy is to maintain a minimum of 8 weeks operating turnover (approx. £700k), a figure based on being unable to operate the Museum during the peak months due to unforeseen circumstances. The lesson from the pandemic are that there are circumstances that may lead to longer periods of closure, of several months. A six month closure would require funds of up to £2.1m. The policy will vary annually according to the level of risk identified. The Trustees feel that with the continued uncertainty of the economic outlook, a reserve level for 2023 has been set at a mid-risk position of £1.4m.

Free reserves are calculated as total unrestricted funds of £15,078,209 (2021: £14,927,280) after deducting designated reserves of £10,163,646 (2021: £10,496,528) and functional assets of the charity which represent a commitment of £2,060,574 (2021: £2,173,319) resulting in a balance of £2,853,989 (2021: £2,257,433). Following the impact of Covid-19 it is considered prudent to be retaining free reserves at this level.

Plans for the future

The Tank Museum seeks to continuously improve its visitor experience and its collection management in order to further our charitable objects. The Trustees agree annually a rolling five year strategic plan to give direction to the charity. The summary of the plan is:

1) We will improve collection care

Following the completion of our redevelopment programme in 2018, we now have the facilities to ensure we have a collection that is fit for display for future generations. The organisation will now deliver a long term programme of display, conservation and restoration. The aim of this work is both to ensure the preservation of our collection and to enable it to be interpreted by an ongoing programme of live vehicle displays, based around a plan to operate a representative selection of vehicles for the Second World War Centenaries from 2039-45. This will involve a bid to the National Lottery Heritage Fund to underpin the facilities and programmes that we will need to deliver to be a thriving 21st Century Museum.

2) We will develop our collections

The Museum has been successful in building its collection over recent years, with significant long term loans and acquisitions. We maintain a list of vehicles for both active and passive collecting as well as a programme of collecting supporting artefacts and documents.

3) We will continue to develop our visitor experience and exhibitions

Delivering a high quality visitor experience is both the ends and the means of achieving our charitable objects. The quality of a visitor's experience is a key measure of our success in educating the public and also the main driver of encouraging repeat visits and advocating visits by others. Through subscribing to a range of visitor

experience benchmarking services the Museum is now able to measure and manage the visitor experience more closely.

We will deliver a series of thematic displays in the existing buildings to bring to life a variety of aspects of the people and vehicles involved in armoured warfare. The next major programme is to redisplay the British Steel Hall with a new display about tanks and their role in popular culture over the last 100 years. The display strategy is to have regular cycle of substantial upgrades to the visitor experience, each of which would be expected to have a life-span of 5-10 years and that can be funded primarily from ongoing revenues.

4) We will develop our online experience to engage more people and improve sustainability

The Museum is a leader in the use of social media in this field, with an audience greater than that which can physically come to the site. We will continue to invest in building this audience and will work to generate income from our on-line activities which will enable us to reach this audience sustainably into the future.

Employee involvement and employment of the disabled

The charity has implemented a number of detailed policies in relation to all aspects of personnel matters including:

- Equal Opportunities Policy
- Volunteers' Policy
- Health & Safety Policy

Health & Safety Policy

In accordance with the charity's Equal Opportunities Policy, the charity has long established fair employment practices in the recruitment, selection, retention and training of disabled staff. Full details of these policies are available from the charity's offices.

Structure, governance and management

Constitution

The charity was incorporated on 13 November 2003. Previously it existed as an unincorporated association set up by a Declaration of Trust dated 28 July 1977 derived from the Royal Armoured Corps and The Royal Tank Regiment. The registered charity number is 01102661. As of 1 April 2005, the charity commenced trading as a charitable company limited by guarantee registered company number 04962619.

Method of appointment or election of trustees

The board of trustees is shown on page 1. The composition and size of the board is reviewed regularly to assess the skills requirement of the board for it to meet the needs of the museum. The board is responsible for appointing trustees who are recruited from as broad a base as possible by personal contact, and usually serve for three years with a maximum of nine years.

Normally the full board meets four times a year to provide strategic leadership, set the budget and monitor accounts. An Executive Committee meets for a further four meetings to review the business of the museum, the

development strategy and plans. In addition, a collections committee meets quarterly to review and assess collections policy.

Policies adopted for the induction and training of trustees

All new trustees are required to undertake an induction programme to give them a structured introduction to the operation of the museum and to give them an opportunity to meet key members of staff.

Organisational structure and decision making

The trustees decide the long-term strategy for the Museum; they set budgets, review quarterly performance of the charity and instigate change.

The Director manages the day to day operations. The Director is assisted by the senior management team, the functional areas being: curatorial, finance, human resources, collections, operations and marketing.

Risk management

The trustees have examined the major strategic, business and operational risks which the charity faces and confirm that systems have been established to enable regular reports to be produced so that the necessary steps can be taken to lessen these risks. The executive committee of trustees has conducted its own review of the major risks to which the charity is exposed and systems have been established to mitigate these risks. No specific external risks have been identified. Internal risks are minimised by the implementation of procedures for authorisation of all transactions and projects and to ensure consistent quality of delivery for all operational aspects of the charity. These procedures are periodically reviewed to ensure they still meet the needs of the charity. The trustees review all these policies annually, as they do the risk register and policies intended to mitigate risk to the Museum.

Fundraising

All fundraising efforts of the Museum are led by the director and the senior management team and are carried out in line with the Code of Fundraising Practice. Approaches to the public are made only on the site or online to people who have actively chosen to engage with the Museum. The board of trustees are updated on activities quarterly. The Museum is now a subscriber to the Fundraising Regulator.

Trustees' responsibilities statement

The trustees (who are also directors of The Tank Museum Limited for the purposes of company law) are responsible for preparing the trustees' report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the trustees to prepare financial statements for each financial year. Under company law the trustees must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the charitable company and the group and of the incoming resources and application of resources, including the income and expenditure, of the charitable group for that period. In preparing these financial statements, the trustees are required to:

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charities SORP;

Trustees' Report (continued)
For the year ended 31 December 2022

- make judgements and accounting estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charitable group will continue in operation.

The trustees are responsible for keeping adequate accounting records that are sufficient to show and explain the charitable company and the group's transactions and disclose with reasonable accuracy at any time the financial position of the charitable group and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the charitable company and the group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Disclosure of information to auditor

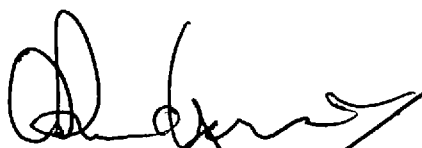

Each of the persons who are trustees at the time when this Trustees' Report is approved has confirmed that:

- so far as that trustee is aware, there is no relevant audit information of which the charity's auditors are unaware, and
- that trustee has taken all the steps that ought to have been taken as a trustee in order to be aware of any information needed by the charity's auditors in connection with preparing their report and to establish that the charity's auditors are aware of that information.

Auditor

Saffery Champness LLP were re-appointed as auditor to the charity and in accordance with Section 485 of the Companies Act 2006, the trustees will propose a motion re-appointing the auditors at a meeting of the trustees.

This report was approved by the trustees on ^{7 June 2023} ~~#####~~ and signed on their behalf by:

.....
Lieutenant General Sir Andrew Ridgway KBE CB DL

The Tank Museum Limited
(A company limited by guarantee)

Auditor's Report
For the year ended 31 December 2022

Opinion

We have audited the financial statements of The Tank Museum Limited (the 'parent charitable company') and its subsidiary (the 'group') for the year ended 31 December 2022 which comprise Consolidated Statement of Financial Activities, the Consolidated Balance sheet, the Charity Balance Sheet, the Consolidated Statement of Cash Flows and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the affairs of the group and the parent charitable company as at 31 December 2022 and of the group's incoming resources and application of resources, including its income and expenditure, for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the group and parent charitable company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the trustees' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the group or the parent charitable company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the trustees with respect to going concern are described in the relevant sections of this report.

Other information

The trustees are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Auditor's Report
For the year ended 31 December 2022

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact.

We have nothing to report in this regard.

Other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Trustees' Annual Report which includes the Directors' Report and the Strategic Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Trustees' Annual Report which includes the Directors' Report and the Strategic Report has been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the group and the parent charitable company and their environment obtained in the course of the audit, we have not identified material misstatements in the Trustees' Annual Report and Strategic Report.

We have nothing to report in respect of the following matters where the Companies Act 2006 require us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent charitable company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent charitable company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of trustees' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit; or
- the trustees were not entitled to prepare the financial statements in accordance with the small companies regime and take advantage of the small companies exemption in preparing the Trustees' Annual Report.

Responsibilities of trustees

As explained more fully in the Statement of Trustees' Responsibilities set out on page 9-10, the trustees (who are also the directors of the parent charitable company for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the group and the parent charitable company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using

the going concern basis of accounting unless the trustees either intend to liquidate the group or the parent charitable company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

We have been appointed as auditors under the Companies Act 2006 and report in accordance with regulations made under that Act.

Our objectives are to obtain reasonable assurance about whether the group and parent financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The specific procedures for this engagement and the extent to which these are capable of detecting irregularities, including fraud are detailed below.

Identifying and assessing risks related to irregularities:

We assessed the susceptibility of the group and parent charitable company's financial statements to material misstatement and how fraud might occur, including through discussions with the trustees, discussions within our audit team planning meeting, updating our record of internal controls and ensuring these controls operated as intended. We evaluated possible incentives and opportunities for fraudulent manipulation of the financial statements. We identified laws and regulations that are of significance in the context of the group and parent charitable company by discussions with trustees and updating our understanding of the sector in which the group and parent charitable company operate.

Laws and regulations of direct significance in the context of the group and parent charitable company include The Companies Act 2006 and guidance issued by the Charity Commission for England and Wales.

Further, the group and parent charitable company are subject to other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements; through a significant fine, litigation or restrictions on the group's operations. We identified the most significant of such laws and regulations to be those relating to The Health and Safety Executive, particularly in relation to health and safety measures in response to Covid-19.

Audit response to risks identified:

We considered the extent of compliance with these laws and regulations as part of our audit procedures on the related financial statement items including a review of financial statement disclosures. We reviewed the parent charitable company's records of breaches of laws and regulations, minutes of meetings and correspondence with relevant authorities to identify potential material misstatements arising. We discussed the parent charitable company's policies and procedures for compliance with laws and regulations with members of management responsible for compliance.

Auditor's Report
For the year ended 31 December 2022

During the planning meeting with the audit team, the engagement partner drew attention to the key areas which might involve non-compliance with laws and regulations or fraud. We enquired of management whether they were aware of any instances of non-compliance with laws and regulations or knowledge of any actual, suspected or alleged fraud. We addressed the risk of fraud through management override of controls by testing the appropriateness of journal entries and identifying any significant transactions that were unusual or outside the normal course of business. We assessed whether judgements made in making accounting estimates gave rise to a possible indication of management bias. At the completion stage of the audit, the engagement partner's review included ensuring that the team had approached their work with appropriate professional scepticism and thus the capacity to identify non-compliance with laws and regulations and fraud.

There are inherent limitations in the audit procedures described above and the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely we would become aware of it. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities is available on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the parent charitable company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the parent charitable company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the parent charitable company and the parent charitable company's members as a body, for our audit work, for this report, or for the opinions we have formed.

1 Accounting policies

The Tank Museum Limited is a company limited by guarantee incorporated in England and Wales. The registered office is Bovington Camp, Wareham, Dorset BH20 6JG.

1.1 Basis of preparation of financial statements

The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019) – (Charities SORP (FRS 102)), the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) and the Companies Act 2006.

The Tank Museum Limited meets the definition of a public benefit entity under FRS 102. Assets and liabilities are initially recognised at historical cost or transaction value unless otherwise stated in the relevant accounting policy.

The Statement of Financial Activities (SOFA) and Balance Sheet consolidate the financial statements of the Charity and its subsidiary undertaking. The results of the subsidiary are consolidated on a line by line basis.

1.2 Company status

The Charity is a company limited by guarantee. The members of the company are the trustees named on page 1. In the event of the Charity being wound up, the liability in respect of the guarantee is limited to £1 per member of the Charity.

1.3 Incoming resources

All income is recognised once the Charity has entitlement to the income, it is probable that the income will be received and the amount of the income receivable can be measured reliably.

For legacies, entitlement is taken as the earlier of the date on which either: the Charity is aware that probate has been granted, the estate has been finalised and notification has been made by the executor(s) to the Trust that a distribution will be made, or when a distribution is received from the estate. Receipt of a legacy, in whole or in part, is only considered probable when the amount can be measured reliably and the Charity has been notified of the executor's intention to make a distribution. Where legacies have been notified to the Charity, or the Charity is aware of the granting of probate, and the criteria for income recognition have not been met, then the legacy is treated as a contingent asset and disclosed if material.

Donated services or facilities are recognised when; the Charity has control over the item, any conditions associated with the donated item have been met, the receipt of economic benefit from the use of the Charity of the item is probable and that economic benefit can be measured reliably. In accordance with the Charities SORP (FRS 102), the general volunteer time of the Friends is not recognised. Refer to the Trustees' Report for more information about their contribution.

The Trustees have decided to recognise the financial contribution of the Ministry of Defence as a gift in kind to the Charity as a realistic estimate can be obtained.

1 Accounting policies (continued)

On receipt, the donated professional services and donated facilities are recognised on the basis of the value of the gift to the charity which is the amount the charity would have been willing to pay to obtain services or facilities of equivalent economic benefit on the open market; a corresponding amount is then recognised in the expenditure in the period of receipt.

Government grants are recognised at the fair value of the asset received or receivable when there is reasonable assurance that the grant conditions will be met and the grants will be received.

1.4 Resources expended

Expenditure is accounted for on an accruals basis and has been included under expense categories that aggregate all costs for allocation to activities. Where costs cannot be directly attributed to particular activities they have been allocated on a basis consistent with the use of the resources.

Cost of generating funds are costs associated with attracting voluntary income.

Charitable expenditure and basis of allocation of costs comprises those costs incurred by the Charity in the delivery of its activities and services to enable the Charity to meet its charitable aims and objectives. It includes both costs that can be allocated directly to such activities and those costs of an indirect nature necessary to support them. Staff costs and overhead expenses are allocated to activities on the basis of employee numbers.

Governance costs include those costs associated with meeting the constitutional and statutory requirements of the Charity and include audit fees and costs linked to the strategic management of the Charity.

Grants payable are charged in the year when the offer is made except in those cases where the offer is conditional, such grants being recognised as expenditure when the conditions attached are fulfilled. Grants offered subject to conditions which have not been met at the year-end are noted as a commitment, but not accrued as expenditure.

1.5 Going concern

The financial statements have been prepared on the basis that the Charity is a going concern. The Trustees consider that there are no material uncertainties on the charity's ability to continue its activities for the foreseeable future. They have approved a detailed income and expenditure budget for 2023 and it will be able to meet its obligations and have sufficient time to mitigate against any unforeseen circumstances.

1.6 Tangible fixed assets and depreciation

The museum operates a £500 de minimus value on fixed asset additions, amounts lower than this limit are fully expensed in the year of purchase.

1 Accounting policies (continued)

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Displays	10 – 33% straight line
Furniture, fittings and equipment	10 – 20% straight line
Buildings	Over the remaining term of the lease & 10 – 33% straight line

Heritage assets

The majority of the tank collection has been received by donation to the museum. These are considered to be heritage assets under the terms of the Statement of Recommended Practice and consequently no value is placed on either the asset or the donation. The management policy in respect of heritage assets is summarised in note 11.

1.7 Investments

Investments are stated at market value at the balance sheet date. The Statement of Financial Activities includes the net gains and losses arising on revaluations and disposals throughout the year.

Investments in subsidiaries are valued at cost less provision for impairment.

1.8 Stocks

Stocks are valued at the lower of cost and net realisable value after making due allowance for obsolete and slow-moving stock.

1.9 Pensions

The group operates a defined contribution pension scheme and the pension charge represents the amounts payable by the group to the fund in respect of the year.

The group also operated a defined benefit pension scheme in the year. Contributions are charged in the Statement of Financial Activities as they become payable in accordance with the rules of the scheme. The scheme is a multi-employer scheme.

1 Accounting policies (continued)

1.10 Debtors

Trade and other debtors are recognised at the settlement amount after any trade discount offered. Prepayments are valued at the amount paid net of any trade discounts due.

1.11 Cash at bank and in hand

Cash at bank and in hand includes cash and short term highly liquid investments with a short maturity of three months or less from the date of acquisition or opening of the deposit or similar account.

1.12 Creditors and provisions

Creditors and provisions are recognised where the company has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors and provisions are normally recognised at their settlement amount after allowing for any trade discounts due.

1.13 Financial Instruments

The Charity only has financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction price and are subsequently measured at amortised cost using the effective interest method. Financial assets and financial liabilities classified as receivable or payable within one year are not amortised.

1.14 Fund accounting

Funds held by the Charity are:

Unrestricted general funds – these are funds which can be used in accordance with the charitable projects at the discretion of the trustees.

Designated funds – these are funds set aside by the Trustees out of the unrestricted general funds for specific purposes or projects.

Restricted funds – these are funds that can only be used for particular restricted purposes within the objects of the Charity. Restrictions arise when specified by the donor or when funds are raised for particular restricted purposes.

Further explanation of the nature and purpose of each fund is included in the notes to the accounts.

1.15 Taxation

As a charity, The Tank Museum benefits from various exemptions from taxation afforded by tax legislation and is therefore not liable for corporation tax on income or gains falling within those exemptions.

Notes to the financial statements (continued)
For the year ended 31 December 2022

2 Donations, legacies and grants

Included in furniture, fittings and equipment are assets held by the trading subsidiary at a cost of £4,075. The assets have been fully written down.

The museum occupies land and buildings owned by the MOD. As noted in the accounting policies, the Ministry of Defence also provides support in the form of utilities and maintenance of the buildings.

Heritage assets

Heritage assets have not been capitalised in the current or previous period. The heritage assets consist of the Museum's collections both on and off display. They include some three hundred tanks and armoured fighting vehicles, fifty-seven thousand documents, ten thousand books, five thousand images and thirty-two thousand other artefacts. The whole of the collection has been "Designated" as of national importance by the Museums, Libraries and Archives Council.

Notes to the financial statements (continued)
For the year ended 31 December 2022

11 Tangible fixed assets (continued)

The table below details the heritage assets in the course of being catalogued and the progress to date.

	Total 2022 Number	Total 2021 Number

Total	39,955	54	39,901	37,237	36,898	35,272

The heritage assets have been excluded from the balance sheet due to the significant costs that would be involved in the valuation, which are onerous compared with the additional benefit that would be derived by users of the accounts in assessing the trustees' stewardship of the accounts.

The standards of museum ethics regarding disposal to which The Tank Museum have subscribed as part of being an Accredited Museum do not allow the organisation to dispose of collection items primarily for financial reasons, and objects for disposal must first be offered to other accredited museums free of charge.

During the prior year a Duke vehicle was sold as it did not fit cohesively with the collection for sales proceeds of £37,250. This sale was made in line with the museum code of ethics as outlined above.

Fund descriptions

Designated fund

Fixed Assets-The fixed asset designated fund was set up to reflect those assets held by the Charity vital to its continuing objects. At the year-end assets with a net book value of £4,601,910 (2021: £4,740,771) relating to completed capital projects have been derestricted and have been transferred into this reserve.

Vehicle restoration – The Vehicle Restoration designated fund income relates to the sales proceeds from the sale of a heritage asset. In line with Museum regulations the funds will only be used to fund further exhibitions.

2054 fund is a long-term fund to support the ongoing running of the Museum if the lease with the MOD is not renewed by 2054.

General resource fund is a fund to support future building improvements and vehicle restoration.

Restricted Funds

Buildings represent our "At Close Quarters" Phase 2 Main Museum redevelopment and our Conservation Workshop building.

Exhibition funds are funds to fund our ongoing exhibitions.

Revenue funds are the Vehicle Restoration fund and the Charles Burnett III Fund for the restoration of British and Foreign vehicles.

Endowment Funds relate to the HLF Catalyst Endowment Fund. This constitutes an endowment fund which will become expendable in 2037. The income derived from the fund can be used to fund exhibitions.
