Section B

Structure, governance and management

Description of the charity's trusts

Type of governing document	Constitution
(eg. trust deed, constitution)	
How the charity is constituted	CIO - Charitable Incorporated Organisation
(eg. trust, association, company)	
Trustee selection methods	Elected by ballot at the AGM, with interim options to co-opt, as per
(eg. appointed by, elected by)	the Constitution
Additional governance issues (Optional information)
You may choose to include ad- ditional information, where rel- evant, about:	Organisational Structure. Trustees are elected from the membership. The Society is managed by a General Committee all of whom are elec-
 policies and procedures ad- opted for the induction and training of trustees; 	ted from the membership. Five of the Trustees are also members of the General Committee. Specialist groups/committees reporting to the Trustees are formed as necessary
 the charity's organisational structure and any wider net- work with which the charity works; 	
 relationship with any related parties; 	
 trustees' consideration of major risks and the system and procedures to manage them. 	

Section C

Objectives and activities

Summary of the objects of the charity set out in its governing document	To promote for the public benefit the study of archaeology in all its branches.
	The society achieves these aims by organizing public lectures given by leading archaeological professionals and excursions to study ar- chaeological and historic sites. Members participate in fieldwork pro- jects using the society's own archaeological equipment. Projects in- clude geophysical studies as well as excavations under the direction of the society's director of archaeology. The society provides training and experience of a broad range of archaeological and historical in- vestigative techniques which may be applied to the study of the local heritage and from time to time organizes specific training sessions in contemporary archaeological techniques.
Summary of the main activit- ies undertaken for the public benefit in relation to these ob- jects (include within this sec- tion the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)	Reports of all projects undertaken are published on the society's web- site or in the society's journal of record Camertonia. Access to society records is possible via the society's website. The society also pub- lishes a regular newsletter which informs readers of current society activities and other activities organized by local groups to provide a good resource for those interested in archaeological events. The so- ciety answers general enquiries from members of the public and works with the local authority to enhance the Historical Environment Record (HER).
	The Trustees can confirm that they have complied with their duty to have due regard to the Charity Commission's public benefit guidance when exercising any powers or duties to which the guidance is relev- ant.

Additional details of objectives and activities (Optional information)

You **may choose** to include further statements, where relevant, about:

• policy on grantmaking;

Section D

- policy programme related investment;
- contribution made by volunteers.

Achievements and performance

Section D	Achievements and performance
Summary of the main achievements of the charity during the year	Activities There was an extensive geophysics survey of High Common in Bath, with sessions in March, June, July, October, and November. A report is now being compiled. Excavations continued at Marston Mill, near Frome, with the uncovering of medieval remains. In July and August, excavation was carried out at Prior Park in Bath, in association with National Trust volunteers. In July, we contributed to the Festival of Archaeology, by having a stall at 'Bristol's Brilliant Archaeology' day at Blaise Castle, and running two open days at High Common in Bath, where members of the public could come along and try their hand at using geophysics equipment. In September, we hosted two guided walks round Bathampton Down as part of the Bathscape Walking Festival. In November, we carried out a geophysical survey of the Workhouse Burial Ground, Odd Down, Bath. A geophysical study in the grounds of National Trust property Dyrham Park was initiated but further work was deferred until 2023.
	External representation We contributed to the Bathscape project and attended meetings of the Bath World Heritage Site Advisory Group.
	Excursions The society was able to organise a full programme of visits: Bradford on Avon (April); Shoscombe Valley (May); Banwell Bone Cave (June); Goodrich Castle (July); Bath Abbey "Footprint Project" (August); and Monmouth and Trellech excavation (September).
	Lectures The BACAS 2022 Spring series of public lectures was again cut back as a result of the pandemic, but we did hold one in March on "Why Villages Disappeared" (James Bond). The Autumn series was back to its normal size with talks on the Hinton St Mary Mosaic (Dr Peter Guest) in Octo- ber, Saxon Bath (Steve Pratt) in November, and Treasure Hoards (Kurt Adams) in December. Archaeology Online, the partnership developed with Bristol Museums, Bristol and Avon Archaeological Society and Bris- tol and Gloucestershire Archaeological Society, continued to present lectures by Zoom, which were well received. Five were held in the year.
	Publications Regular Newsletters were sent to members. New project reports were published on the website and together with the Facebook site both were updated on a frequent basis to maintain communication with members. A number of mailshots on specific subjects were also made to mem- bers.
	Committee The Committee held six meetings to plan the society's business and to review the financial situation of the Society to ensure that such de- cisions were taken as necessary to support the organisation and, as in 2020 and 2021, to consider prospects for activities in the light of the changing regulations. The first four meetings were virtual, but we re- turned to face-to-face meetings in September.
	AGM In 2022, we were able to return to having an AGM 'in real life', and this

In 2022, we were able to return to having an AGM 'in real life', and this was done on 7 April.

4:2

Financial review

Brief statement of the char- ity's policy on reserves	Trustees maintain under review the financial risks to which the charity is exposed. In a typical year society costs would include insurance, room and other hire fees, subscriptions to other organizations, social media and website fees, repairs to and replacement of equipment, and other potential costs that may arise as a consequence of the work that BACAS undertakes. The Trustees have reached the view that it would be prudent for BACAS to aim to retain a level of reserves of some £5000. Cash over and above the reserves may be used to fund ongoing activities. This policy is reviewed annually. No change to this policy was required in 2022.
Details of any funds materi- ally in deficit	
Further financial review details	(Optional information)

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.

The accounts for the financial year ending 31st December 2022 have been prepared on a Receipts and Payments basis.

Restricted Funds

A donation of £5,000 is carried in the Society's accounts designated for the exploration of the Roman site at Durley Hill under the direction of Robin Holley.

Section F

Other optional information
