Trustees Report for the year ended 31st March 2023

The accounts have been prepared in accordance with the accounting policies set out in note 1 to the accounts and comply with the charity's Memorandum and Articles of Association, and "Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102)" (as amended for accounting periods commencing from 1 January 2016).

Charitable Objectives and activities

The objects of the charity are the promotion and development of medical research to be carried out by the Department of Pathology of the North Bristol NHS Trust (NBT).

The Trustees confirm that as required by the Charity (Accounts and Reports) Regulations 2008, they 'have due regard' to the Charity Commission's public benefit guidance when exercising any relevant power or duty. The guidance is taken into account when reviewing the Trust's aims and objectives and in planning future activities and approving grants.

Using income derived from investments, the Trustees make grants to researchers employed within NBT to undertake worthwhile pathology research projects with a view to benefiting patients.

The charity seeks to heighten the profile of the Department of Pathology, and also to educate and inform its staff, by organising an annual lecture by a guest speaker on a current pathology research theme.

Unfortunately, it was not possible to hold lectures during 2020 and 2021 due to the ongoing situation with the global pandemic.

All Trustees gave their time to the Charity voluntarily and received no honorarium, emoluments, expenses or other benefits, other than meeting related refreshments.

Funding is allocated to projects by the Application Sub-committee following internal peer review (and external review in certain cases, especially for grants over £10,000), and where appropriate approval by a Research Ethics Committee. All projects supported by the Charity must meet the strategic Research and Development objectives of the North Bristol NHS Trust.

Achievements and performance

GRANTS AWARDED IN 2022/23

SF133 – Clinical impact of Biofire Pneumonia Plus in the management of suspected lower respiratory tract infection (in ITU) – Peter Muir, £12,624

SF134 – Clinical utility of Whole Genome Sequencing (WGS) to detect unidentified *PAH* variants in Phenylketonuria patients – Rebecca Whittington, £14,600

SF135 – Developing a laboratory methodology for Favipiravir concentration measurement and pharmacokinetic evaluation in a range of viral infections – Alan Noel, £14,700

GRANTS CLOSED IN 2022/23

SF122 – Stromal cells in health and disease - Joya Pawade, £9,625 (withdrawn, no spend)

SF126 – Prognostic transcriptomic markers of COVID - Philip Bright, £10,000 (withdrawn, no spend)

The remaining balances on closed grants are returned to funds available for future grant spending.

Structure, governance, and management

Trust Deed of 14th March 1961 as extended and varied by the Deed of Variation which took effect from 1st April 2008.

The Trustee body is made up of one Consultant Pathologist nominated from each of the six Pathology Department sub-specialties, the Chair of the Trustees (normally, but not always, the most senior Consultant Pathologist) and two survivors of Mr Francis Edwin Showering, CBE.

The appointment of new Trustees only occurs on the departure of one of the specialty representatives when the relevant Pathology Department is asked to nominate a new Consultant representative. The department represented by the Chair may have a separate member to provide the input that the Chair would have provided in that role.

Periodically the Trustees are sent electronic copies of information appertaining to their responsibilities.

As well as the Trustee body there are two standing sub-committees :

- The Applications Sub-Committee for grants which consists of the seven Pathology Trustees.
- The Investments Sub-Committee consisting of the two Showering family Trustees, the Chair and Dr Philip Bright, Consultant Pathologist.

The Pathology Trustees are also employees of the North Bristol NHS Trust (NBT) and are aware of the need to separate the financial interest of the Showering Fund from that of NBT.

A register of interests is maintained and each Trustee is asked to provide an annual update.

A table of potential risks to the Charity is presented at the AGM for review and systems are established/maintained to mitigate those risks.

There is an insurance policy in place to cover the activities of the committee.

Financial Review

We received a lower number of applications for funding over the period from March 2020 related to redeployment of clinical and research staff to support patient care and national trials of COVID. This has also resulted in some of the funding not being utilised. This will be made available for future research.

All of the funds available to the Charity originate from the endowment of £50,000 received from the Showering family in 1961. This sum, which has since appreciated, is held in trust and has to be invested unless otherwise used in accordance with the Trust Deed. The Trustees must use the income to meet

the objects of the Charity. The income received by the Investment Advisor is transferred to the Charity's Lloyd's current account on a quarterly basis. This account is used to fund project costs on an ongoing basis. Funds in the current account which are not required in the short term are transferred to an income earning COIF deposit account, if there is a significant interest rate. The objective, whenever possible, is to restrict the maximum sum held in the current account to less than £20,000 so as to maximise the interest earned on the income received by the Charity. When necessary, funds are transferred back from the COIF account to the current account to fund current project expenditure.

Within 2022/23, dividends and interest of £30,252 were received. There were payments of £2,798 made up of grants of £198, and £2,600 on administration, insurance and accountancy.

The investments are managed on a discretionary basis for balanced growth with moderate risk. An ethical policy places restrictions on investing in tobacco, firearms and defence. Investment management fees of £8,113 were incurred by the Endowment Fund.

Statement of trustees' responsibilities

Law applicable to charities in England & Wales requires the trustees to prepare a financial statement for each financial period which give a true and fair view of the charity's financial activities during the period and of its financial position at the end of the period. In preparing financial statements giving a true and fair view, the Trustees should follow best practice and:

- select suitable accounting policies and then apply them consistently.
- observe the methods and principals in the Charities SORP.
- make judgements and estimates that are reasonable and prudent.
- state whether applicable UK Accounting Standards and statements of recommended practice have been followed, subject to any material departures disclosed and explained in the financial statements.
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue in business.

The Trustees are responsible for keeping adequate accounting records that disclose with reasonable accuracy at any time the financial position of the charity and enable them to ensure that the financial statements comply with the Charities Act 2011. They are also responsible for safeguarding the assets of the charity and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Trustees are responsible for the maintenance and integrity of the charity and financial information included on the charity's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Approved by the Board of Trustees and signed on its behalf by:

Mark Gompels

Independent Examiner's Report to the Trustees of The Showering Fund

I report to the charity trustees on my examination of the accounts of the charity for the period ended 31 March 2023 which are set out on pages 8 to 15.

Responsibilities and basis of report

As the charity's trustees you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ('the Act').

I report in respect of my examination of the charity's accounts carried out under section 145 of the Act and in carrying out my examination I have followed all the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

Independent examiner's statement

I have completed my examination. I confirm that no material matters have come to my attention in connection with the examination giving me cause to believe that in any material respect:

1. accounting records were not kept in respect of the charity as required by section 130 of the Act; or
2. the accounts do not accord with those records; or
3. the accounts do not comply with the applicable requirements concerning the form and content of accounts set out in the Charities (Accounts and Reports) Regulations 2008 other than any requirement that the accounts give a 'true and fair view' which is not a matter considered as part of an independent examination.

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31st March 2023

1. Accounting policies

Charity information

The Showering Fund is a charitable incorporated organisation registered with the England and Wales Charity Commission. The registered office is Pathology Sciences Phase 2 Level 2, North Bristol NHS Trust, Southmead Hospital, Southmead Road, Westbury-on-Trym, Bristol, BS10 5NB.

1.1 Accounting convention

The accounts have been prepared in accordance with the charity's Articles of Association and "Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102)" issued in October 2019 and the Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland (FRS 102) and the Charities Act 2011 and UK Generally Accepted Practice as it applies from 1 January 2019.

The financial statements are prepared in sterling, which is the functional currency of the charity. Monetary amounts in these financial statements are rounded to the nearest £.

The financial statements have been prepared under the historical cost convention, modified to include the revaluation of freehold properties and to include investment properties and certain financial instruments at fair value. The principal accounting policies adopted are set out below.

1.2 Going concern

At the time of approving the financial statements, the trustees have a reasonable expectation that the charity has adequate resources to continue in operational existence for the foreseeable future. Thus, the trustees continue to adopt the going concern basis of accounting in preparing the financial statements. Funding in the current climate of Covid-19 and beyond has been carefully considered and will be raised for discussion at all trustee meetings but is not currently considered to cause significant difficulties for the charity in this regard.

1.3 Fund accounting

Unrestricted funds are available for use at the discretion of the trustees in furtherance of their charitable objectives unless the funds have been designated for other purposes.

Endowment funds are investments made by the charity in which the earnings are used to fund its operations.

1.4 Incoming resources

Income is recognised when the charity is legally entitled to it after any performance conditions have been met, the amounts can be measured reliably, and it is probable that income will be received.

Turnover is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods and services provided in the normal course of business, net of discounts, VAT, and other sales related taxes.

1.5 Resources expended

Income and expenses are included in the financial statements as they become receivable or due. Expenses include VAT where applicable as the charity cannot reclaim it.

1.6 Investments

Fixed asset investments are measured at market value.

1.7 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts.

1.8 Financial instruments

The charity has applied the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the charity's balance sheet when the charity becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Basic financial assets

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

Basic financial liabilities

Basic financial liabilities, including creditors and bank loans are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of operations from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

Derecognition of financial liabilities

Financial liabilities are derecognised when the charity's contractual obligations expire or are discharged or cancelled.

1.9 Allocation of support costs

Support costs are these functions that assist the work of the charity, but do not directly undertake charitable activities. Support costs include back-office costs, finance, personnel, and governance costs, which support the charity's projects and activities.

2. Critical accounting estimates and judgements

In the application of the charity's accounting policies, the trustees are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.
