#### **TRUSTEES' REPORT**

The directors and trustees of the University of Bristol Students' Union ('Bristol SU') are pleased to present their annual report and the financial statements for the year ended 31 July 2016.

#### Structure, governance and management

Bristol SU is a company limited by guarantee registered with Companies House in England and Wales, and a charity registered with the Charity Commission in England and Wales.

Bristol SU is constituted by its Articles of Association dated 26 November 2015 and is governed by a Board of Trustees; the Trustees are also Directors of the charitable company. Two-thirds of the Board are current students of University of Bristol who are elected by the members of Bristol SU (students of the University of Bristol) annually. Officer Trustees may be elected for up to two terms of one year each and Student Trustees may be elected for a two year office and may serve two terms. There are also four non-student Trustees on the Board who are appointed for their particular professional knowledge and skills and one University of Bristol nominated trustee; Appointed Trustees may serve for an initial term of three years, renewable for two further terms of three years. Decisions are taken by simple majority vote.

All Trustees, and especially incoming Trustees, undertake an induction programme and are given briefings on the organisation's operations and goals. The induction programme covers the role of Trustee, Bristol SU's vision, mission and values, regulatory requirements and the relationship between Trustees and the Chief Executive.

The Trustees are responsible for the overall performance and strategic direction of Bristol SU on behalf of its members, the 23,000 students of University of Bristol. In this respect the Board undertakes self-assessment and further development initiatives as required ensuring that they work to high standards.

### How governance works at Bristol SU

The role of the Trustees at Bristol SU is threefold:

- To provide leadership through governance
- To be the strategic partner for senior management
- To fulfil their fiduciary responsibilities under the Articles of Association, charity law, the Education Act, and company law

The Board meets at least four times per year. In addition, there are four sub-committees on which Trustees may work in order to develop closer working relationships with staff and to advise the board, as follows:

- Finance and Operational Scrutiny Committee Interrogates the monthly and annual accounts in detail. Scrutinise key projects, monitors performance against plans and monitors operational risk.
- Governance Committee Reviews, monitors and supervises all legal, constitutional and governance matters affecting Bristol SU
- Nominations and Appointments Committee Responsible for the appointment of Lay Trustees, Advisers to the Board, the Chief Executive, Associate, Temporary Associate, Life and Honorary Members of Bristol SU
- Remuneration Committee Determine the remuneration of the Sabbatical Officers and Chief Executive to the Board

Students are represented by the Full-time Elected Officer team, who focus on policy and campaigning. They work closely with part-time officers with specific responsibilities and an elected, but non-governing, Student Council to ensure that the voice of Bristol SU students is heard.

Minutes are kept of sub-committee meetings and made available to all trustees whether or not they are sub-committee members.

#### **TRUSTEES' REPORT**

### How management works at Bristol SU

Day to day operational and staff management is delegated to the Chief Executive who is responsible to the Trustees for strategy; development, implementation and operational performance.

Chief Executive, Samantha Budd

The Chief Executive is supported by a Management Team, which during the year 2015-16 comprised:

- Chief Operating Officer, Ben Pilling
- Head of Communication and Engagement, Tom Berry,
- · Head of Student Engagement, Ryan Bird
- Head of Enterprise, Clare Prosser
- Finance Manager, Jayne Hufford (started September 2015)

Bristol SU employs 50 full time equivalent salaried staff (86 employees) and 4 full time equivalent hourly paid staff (81 employees). It has adopted a job evaluation and grading scheme, overseen by the Chief Executive, to ensure that pay for staff roles are fair and related to the level of responsibilities undertaken.

The pay for the Chief Executive and the Sabbatical Trustees are set by a sub-committee of the Board, the Remuneration Committee, which meets annually and take account of benchmarks within other large students' unions and charities, the higher education (HE) sector and regional salaries.

#### Risk management

The Trustees are responsible for Bristol SU's risk management and the effectiveness of internal controls. On behalf of the Trustees, the senior management team perform a review of major risks and mitigating measures. This is reviewed by the Finance and Operational Scrutiny Committee at every meeting and by the Trustee Board annually.

In 2015-16 the Trustee Board managed and responded to a wide range of risks, but paid particular attention throughout the year to:

- Changes to HE policy, including the government's Green and White papers, which at one stage
  included questions about Students' Unions. Bristol SU submitted responses to consultations and
  engaged through NUS.
- Ensuring effective governance continues to drive organisational improvement by targeting recruitment to the Trustee Board and initiating a Governance Review which will continue into 2016-17.
- Ensuring Bristol SU achieves its ambitious strategic direction by establishing an evaluation framework for Strategic Performance Indicators and an annual survey of members.
- Clarifying the relationship between the student groups and Bristol SU, specifically in relation to the clarification of the VAT status of the student groups.

#### Relationship with the University of Bristol

Under the Education Act 1994, the University of Bristol has a statutory duty to take such steps as are reasonably practical to ensure that Bristol SU operates in a fair and democratic manner and is held to proper account for its finances. The governance mechanisms for this are established in Ordinance 24 of the University's governing documents. The day to day working relationship with the University is set out in a Memorandum of Understanding between the two organisations.

The University provides Bristol SU with a block grant, which is agreed annually. One member of the Trustee board is University nominated and the University also provides Financial and Legal contacts for the Trustee Board.

#### **TRUSTEES' REPORT**

#### Objects and activities

The objects of Bristol SU are the advancement of education of students at the University of Bristol for the public benefit by:

- Promoting the interests and welfare of students at the University of Bristol during their course of study and representing, supporting and advising members;
- Being the representative channel between students and the University of Bristol and other external bodies; and
- Providing social, cultural, sporting and recreational activities and forums for discussion and debate for the development of its members.

The Trustees confirm that they have had regard to the Charity Commission's guidance on public benefit when setting objectives and planning activities.

Bristol SU seeks to further its objects by providing a range of services and activities for its members:

- We represent students' views to the University through a network of student representatives including full time and part time officers, and faculty, school and course representatives. We campaign on behalf of students on a range of issues at the local and national level. We also support and advise individual students experiencing academic challenges.
- We encourage students' personal and community development by supporting over 300 sports clubs and societies (covering everything from international relations to Pokémon). We also provide volunteering, fundraising, health, fitness and sustainability activity programmes.
- We are a welcoming social hub for students in the Richmond Building and beyond with a diverse events programme including theatre, live music, lectures, food, beverage and more.
- We provide quality services that make a real difference to the lives of students such as a 'fees free' lettings agency, an advice service and a ow cost bicycle hire scheme.

#### Reference and administrative details

Legal and administrative details of Bristol SU, including the charity registration number, the company number, the names of all the directors and trustees holding office at any time during the financial year and at the date of this report, the name of the Chief Executive, the registered office, and the names and addresses of principal advisors are shown in the company information on page 1.

#### **Financial Review**

The Statement of financial Activities on page 13 details the income and expenditure for Bristol SU during 2015-16 and the resulting effect on the reserves held at the year end. It also provides a split of these figures between restricted funds (i.e. funds which can only lawfully be used for a specific charitable purpose), and the general fund (i.e. funds that can be spent on any charitable purpose which satisfy the charitable objects of the charity).

Total Bristol SU income for 2015-16 was £4,170k (2014-15 £4,293k), and total expenditure was £4,195k (2014-15 £4,004k). The net effect is a deficit for the charity as a whole of £25k compared to a surplus in 2014-15 of £289k. However, this deficit is made up of a surplus on the general fund of £30k and a deficit on the restricted funds of £55k. The general fund was budgeted to break even during 2015-16.

As a result of the deficit in year, total reserves at 31 July 2016 have decreased to £768k. The general reserve has, however, increased to £216k (2014-15 £186k). Restricted reserves have decreased to £552k (2014-15 £607k).

#### **TRUSTEES' REPORT**

#### **Restricted Reserves**

There is a full analysis of the movements on individual restricted reserves in the 'Analysis of Funds' note 15 on page 24. The main reason for the decrease in restricted reserves is the reduction in the Richmond Building Refurbishment and Anson Room Refurbishment Funds. These funds were set up to reflect gifts of fixed assets and are reduced annually by the amount of depreciation being charged on the associated assets. Jointly, these funds have reduced during 2015-16 by £59k to £148k. Student Group (i.e. sports clubs and societies) reserves also come under the classification of restricted reserves and these have increased during the year by £21k to a total of £291k. The Bike Project reserve decreased by £7k to £34k. This reserve will continue to be used to support the Balloon Bike project, which promotes bike use amongst the student population.

#### **Unrestricted / General Reserves**

The table below shows the movement in unrestricted reserves over the past six years:

	2016	2015	2014	2013	2012	2011
	2000	£000	£000	£000	0003	€000
Total unrestricted income	2,673	2,769	2,471	2,517	2,260	2,339
% change	-3.5%	+12.1%	-1.8%	+11.4%	-3.4%	
Total unrestricted expenditure	(2,643)	(2,674)	(2,466)	(2,479)	(2,259)	(2,299)
% change	-1.1%	+8.4%	-0.5%	+9.8%	-1.7%	
Total unrestricted reserves	216	186	91	78	36	35
Fund balances carried forward	768	793	504	467	240	171

The increase in unrestricted reserves in 2015-16 is due to surplus income over expenditure.

Unrestricted Income £2,673k is classified into

- Donations & Legacies £1,951k
- Charitable Activities £210k
- Other Trading Activities £511k
- Investments £1k

The main element within Donation & Legacies income is the University of Bristol block grant £1,526k, our main source of funding. The University grant is used to support all aspects of Bristol SU's operations: welfare, representation, activities and forums, and subsidising trading that support student activities. The other main element of Donations & Legacies is an amount that reflects the provision of accommodation (and utilities) by the University to Bristol SU in the Richmond Building. In accordance with professional advice obtained by the Trustees, this benefit is valued at £287k in 2015-16, and has been recognised in Bristol SU's statement of financial activities as both income and a cost.

Income from Charitable Activities includes volunteering income and primary purpose trading activities. Primary purchase trading income has fallen from £227k in 2014-15 to £138k in 2015-16. The decrease of 39% is due to a change in the provision of bar and catering facilities following the refurbishment of the Balloon Bar in 2014-15. Under the new partnership arrangement the University is responsible for the day to day management of the bar/café and all the related income and expenditure, but any profit that results is subject to a profit share arrangement between the University and Bristol SU. In line with budget, there were no profits to distribute for 2015-16.

Income from Other Trading Activities has increased from £441k in 2014-15 to £511k. This increase of £70k includes increased room hire (£35k), growth of the lettings agency (£35k) and an increase in merchandise income (£10k).

Unrestricted expenditure £2,643k relates to the cost of raising income (£1,145k) and expenditure on our key activities of representation, welfare and student activity (£1,499k).

#### TRUSTEES' REPORT

#### **Bristol SU Reserves Policy**

Bristol SU reserves policy is that 'free reserves' should be maintained at a minimum of three months' operating costs after deducting the University of Bristol block grant. Free reserves are defined as 'unrestricted reserves less unrestricted tangible fixed assets'.

At this level we believe we would be able to continue the student facing activities of the organisation in the event of a significant decline in non-University of Bristol funding whilst allowing time to re-establish or re-focus income generating activities.

At 31 July 2016 free reserves represent 1.6 months cover. This compares to 1.4 months at the end of 2014-15. These figures have been calculated as follows:

Unrestricted expenditure Less block grant	2016 £ 2,642,734 (1,525,764)	2015 £ 2,674,645 (1,440,224)
	1,116,970	1,234,421
Implied one months' expenditure	93,081	102,868
Free reserves (general reserves less unrestricted fixed assets)	151,226	147,744
Months' cover	1.6	1.4

The increase in cover has been achieved despite a breakeven budget for 2015-16. Although it is still significantly below the recommended level in the current reserves policy, it is important to appreciate that the level of cover fluctuates throughout the academic year and is at its lowest at the year end. The level of cover, particularly in the autumn term, will be significantly higher than the year end figure.

A further breakeven budget has been agreed for 2016-17. The Trustees will review the Reserves Policy annually and will work towards achieving the policy.

#### **Fixed assets**

Fixed assets are assets that provide an economic benefit to the charity on an on-going basis. There have been fixed assets additions in the year of £44k, which relate to the capitalised cost of the new finance system £20k, the purchase of the Balloon Bikes £14k and other furniture and equipment £10k. However, overall the Net Book Value (i.e. the cost less depreciation to date) of fixed assets has decreased by £34k due to the annual depreciation charge of £70k.

## Other Assets and Liabilities

It is important to recognise that the cash position includes both restricted and unrestricted funds. It is very difficult to differentiate the two elements as we do not operate separate ledgers for restricted and unrestricted activity. At £551k including cash on short-term deposit, the cash position was £151k higher than in 2014-15. This increase reflects a decrease in debtors of £58k and an increase in creditors of £91k. Stock levels have increased marginally from £44k in 2014-15 to £51k in 2015-16.

#### **Investment Policy and Performance**

Bristol SU surpluses are held in a 95 day extended notice bank account, which is low risk and therefore relatively low return. Interest rates remained low during the year and interest received was therefore, immaterial. Bristol SU does not have any other investments. However, should this change there is active Student Council policy (passed in 2014) requiring Bristol SU to ensure any investments made are ethical and socially responsible.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 JULY 2016

#### 1. ACCOUNTING POLICIES

#### 1.1 Basis of preparation of financial statements

The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard for Smaller Entities (the FRSSE) (effective January 2015), the Financial Reporting Standard for Smaller Entities (effective January 2015) and the Companies Act 2006. Assets and liabilities are initially recognised at historical cost or transaction value unless otherwise stated in the relevant accounting policy note(s).

Charity regulations require financial statements to be prepared under SORP 2005. However, the financial statements have been prepared under Charities SORP 2015 under the principle of true and fair override.

Contributions by members of sports clubs and societies that are not deposited with the Union and the related expenditure is not included in these financial statements as the trustees do not have any control over these funds.

#### 1.2 Income

The Union receives a block grant and other miscellaneous grants from the University of Bristol each financial year. These are recognised as donations on a receivable basis.

Donated services and facilities donated by the University of Bristol are included as donations and legacies at their estimated value to the Union when received, and under the appropriate expenditure heading depending on the nature of service or facility provided. Time donated by the Union's members is not recognised in the financial statements as this cannot be reliably valued.

The Union acts as a 'banker' for certain sports clubs and societies, including the Raise and Give (RAG) society. Although these student groups operate with a high degree of autonomy, their constitutions make them subservient to the Union, giving the trustees ultimate control over their activities. Consequently, contributions from sports club and society members deposited with the Union are recognised as restricted income in the statement of financial activities on a receivable basis. Funds raised for charity by student groups that are deposited with the Union are not recognised as income, as the Union is acting only as an agent; these funds are held within other creditors until paid over to the recipient charities.

The Union operates bar, catering and entertainment facilities for the benefit of its members. All income from these trades is recognised on an accruals basis, exclusive of value added tax, with any money received for events after the year end deferred.

All income from other trading activities is recognised on an accruals basis, exclusive of value added tax, with any money received for services provided after the year end deferred.

Other income is credited to the statement of financial activities in the year in which it is receivable.

#### 1.3 Expenditure

Expenditure is recognised on an accruals basis as a liability is incurred. Expenditure includes any irrecoverable value added tax.

Direct costs of raising funds consist of the cost of goods sold and other costs incurred in conducting fundraising trading. This includes commission payable to third party providers, such as marketing agencies.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 JULY 2016

#### 1. ACCOUNTING POLICIES (continued)

#### 1.3 Expenditure (continued)

Direct charitable expenditure comprises the staff and other costs directly attributable to activities that contribute to the achievement of the Union's charitable objects.

Items of expenditure which contribute directly to the output of more than one activity or cost category are apportioned according to the trustees' best estimate of how much utility each area receives. For example, applicable staff costs are allocated on the basis of staff time spent on different activities and rental costs are allocated on the basis on space occupied.

Support costs are general overheads that are not directly attributable to any cost category. These are apportioned according to the trustees' best estimate of how much utility each area receives. For example, applicable staff costs are allocated on the basis of staff time spent on different activities.

Support costs include governance costs, which are those costs associated with strategic management and compliance with constitutional and statutory requirements. These governance costs include trustee training, the cost of trustee meetings, preparation of the statutory accounts, and the external audit.

#### 1.4 Tangible assets and depreciation

Tangible fixed assets costing less than £500 per individual item are written off in the year of acquisition.

Tangible fixed assets are stated at cost less depreciation. Deprecation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their estimated useful economic lives as follows:

Property improvements

5 years straight line

Equipment

3 - 5 years straight line

Computer equipment

4 years straight line

Fixed assets are reviewed for impairment where there are indications their service potential may be reduced. For example, an asset related to a specific activity will be reviewed for impairment when there are indications the activity may cease or be reduced.

## 1.5 Stocks

Stocks are valued at the lower of cost and net realisable value. All stocks held are goods for resale.

# 1.6 Fund accounting

Restricted funds comprise income received to be used in accordance with specific instructions imposed by donors, less associated costs. The aim and use of each restricted fund is set out in the notes to the accounts where material. There are over 50 sports clubs and over 200 societies, so the balances on their accounts are aggregated on the grounds that none are material individually and to list them all would be excessively lengthy.

Unrestricted funds are funds available for use at the discretion of the trustees in furtherance of the general objectives of the charity.

Designated funds are set aside at the discretion of the trustees for specific purposes. They would otherwise form part of the general reserves.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 JULY 2016

### 1. ACCOUNTING POLICIES (continued)

#### 1.7 Pensions

The Union contributes to the personal pension plans of certain staff members.

#### 1.8 Cash flow

The financial statements do not include a cash flow statement because the company, as a small reporting entity, is exempt from the requirement to prepare such a statement under the Financial Reporting Standard for Smaller Entities (effective January 2015).

### 1.9 Taxation

The University of Bristol Students' Union is considered to pass the tests set out in Paragraph 1 Schedule 6 Finance Act 2010 and therefore it meets the definition of a charitable company for UK corporation tax purposes. Accordingly, the charity is potentially exempt from taxation in respect of income or capital gains received within categories covered by Chapter 3 Part 11 Corporation Tax Act 2010 or Section 256 of the Taxation of Chargeable Gains Act 1992, to the extent that such income or gains are applied exclusively to charitable purposes.

#### 9. TRUSTEE REMUNERATION AND RELATED PARTY TRANSACTIONS

In accordance with the University of Bristol Students' Union articles of association, salaries of £112,974 (2015: £110,760) were paid to the elected officers in respect of qualifying services. £103,560 (2015: £101,530) of these salaries were split equally between the six elected officers that held office for the majority of 2015/16. The remaining £9,415 (2015: £9,230) of salaries were split equally between the six elected officers for 2016/17, being the two returned elected officer and the four incoming elected officers that became trustees in the final month of the year (2015 – one returned and five incoming elected officers).

Trustees were also reimbursed out-of-pocket expenses in connection with their duties. During the year, four (2015: six) trustees were paid total expenses of £139 (2015: £875).

The Union paid £2,290 (2015: £2,290) in respect of professional indemnity insurance on behalf of its officers, including the trustees.

The University of Bristol is considered to be a related party as it has the power to appoint a trustee of the Union and the approval of the University Council is sought on certain issues, such as the Union's budget and the appointment of the chief executive.

A block grant from the University of Bristol of £1,525,764 (2015: £1,440,224) was receivable by the Union in the year. Further grants of £130,000 (2015: £180,000) were also receivable from the University for specific projects.

In addition, the Union occupies a building owned by the University on which no rent or utilities costs are charged. This donation of serviced accommodation is valued by the Union at £287,000 (2015: £237,000).

The occupation of a University building, as well as the associated nature of the Union and University's operations, means there have been numerous supplier-customer transactions between the parties: during the year, the Union incurred charges from the University for IT support services, payroll services and other miscellaneous services and recharged the University for equipment and room rental, catering and other miscellaneous costs. At the year end, £113,408 (2015: £142,363) was due from the University to the Union.
