Chairman's statement

Overview of the year

Once again the charity has performed strongly and, for the second year, we have been able to make grants totalling over £1,000,000 towards urology research, training and education.

Urology is a wide discipline, covering cancers and diseases of the kidneys and urinary tract in both sexes and the reproductive system and genitalia in the male. Urological disease can affect all ages and can be extremely distressing, is often life-threatening and is now one of the commonest causes of ill-health in the community, affecting more and more people every year.

The work we do is urgently needed. Hundreds of thousands of people are diagnosed with urological cancers and conditions in the UK each year. Many millions more are affected worldwide. The growing impact of The Urology Foundation can be measured by the diversity and spread of our programmes and the increase in applications we receive to fund this important work.

Our funding net has been cast wide, with applications - particularly for small research projects that are intended to improve services, treatments and outcomes for patients - doubling since the stream was first introduced in 2014. At the other end of the spectrum, thanks to significant donations from the John Black Charitable Foundation, we have been able to support exciting research into the prostate cancer marker NAALADL2 which could itself become a drug target to combat the disease.

Similarly, generous funding from the Champniss Foundation means that TUF is funding a globally significant and important study into the benefits of robotic surgery in treating bladder cancer. From TUF's ground-breaking Robotic Centres of Training to cutting edge lab research and the numerous medical apps currently in development, success is due to our generous donors who support our work; they have helped us fund innovation in all areas of urology treatment and care.

2016 has also been a year of change to our trustee board as three of our longest serving trustees came to the end of their terms of office. I would like to take this opportunity to thank Professor Roger Kirby, Mrs Kate Holmes and Mr Scott Cormack for all their sterling work and service to the charity. They have been strong voices on behalf of patients and the profession and we are grateful for their work over the years. In typical 'TUF family' fashion I'm pleased to say they will continue to be involved in our work in various volunteer and fundraising capacities. In recognition of Roger's unique role in the creation and development of TUF, he assumes the title of President and will continue to retain a strong interest in the charity.

At the same time we were delighted to be inundated with extremely high quality trustee applications following our open recruitment process, demonstrating the growing recognition in which our charity and the importance of our work is held. Our new trustees will be a tremendous addition to the board.

Everyone at The Urology Foundation is passionate about improving the lives of people with a urology condition. They can be some of the most serious and debilitating diseases to have, and it is crucial that we invest as much time, effort and resources as we can to tackling their consequences.

We are grateful to our donors and supporters for the part they play in helping us in our fight against urology disease.

John Tiner CBE

Chairman

Structure, Governance and Management

The Trustees of The Urology Foundation ('the charity'), who are also Directors of the charity for the purposes of the Companies Act, submit their annual report and the audited financial statements for the year ended 31 December 2016.

Within the Trustees' report is the strategic report, required under s414C(11) of the Companies Act 2006, which contains the following headings:

- i. Structure, governance and management
- ii. Objectives and activities
- iii. Achievements and performance
- iv. Financial review
- v. Reserves policy
- vi. Investment policy
- vii. Remuneration policy
- viii. Grants policy
- ix. Plans for the future
- x. Public benefit
- xi. Principal risks and uncertainties

Structure

The charity is also a company limited by guarantee and was established on 12 February 2009 to incorporate the charitable activities of the British Urological Foundation (BUF), an unincorporated charitable trust established in 1994 by the British Association of Urological Surgeons and BJU International, and a registered charity since 17 March 1995. The Urology Foundation itself became a registered charity on 19 March 2009.

This report provides information on the charity's activity and financial performance from January to December 2016.

The trustees and directors who served the charity during the period 1 January to 31 December 2016 are, as follows:

Mr J I Tiner CBE	Chairman
Prof R S Kirby	Secretary (<i>Retired 20 October 2016, assumed role as TUF President</i>)
Mr C Smith	Treasurer
Prof J D Kelly	Chairman of Scientific and Education Committee
Mr S Cormack	(<i>Retired 20 October 2016</i>)
Mrs K Holmes	(<i>Retired 20 October 2016</i>)
Mr K O'Flynn	BAUS Representative Trustee (<i>Appointed June 2016</i>)
Mr A Moss	(<i>Appointed Secretary 20 October 2016</i>)
Mr R Plail	
Ms S Sayer CBE	
Mr K Sethia	BJUI Representative Trustee
Mr M Speakman	BAUS Representative Trustee (<i>Retired June 2016</i>)

In addition, following open recruitment, the following trustee appointments were made in November 2016, with terms of office commencing in January 2017:

Mr Mark Becker	Mr David Nicol
Mr Ben Challacombe	Mr Roland Morley
Ms Giovanna Forte	Ms Laura Wyld
Mr Adrian Joyce	

The charity is also fortunate to number as its patrons: Professor Roger Kirby (TUF President), Mr Handel Evans, Sir Ranulph Fiennes OBE, Mrs Rosemary Macaire, Ms Jane MacQuitty, Mr Steven Norris, Mr Bruno Schroder and Dr Thomas Stuttford OBE.

The principal address of the charity and the registered office of the company is 1-2 St Andrew's Hill, London EC4V 5BY. The company is incorporated under company number 06817868, and the charity is registered under the charity number 1128683.

The trustees have made the following professional appointments:

Bankers:	National Westminster Bank plc, PO Box 2021, 10 Marylebone High Street, London W1A 1FH
	Royal Bank of Scotland plc, St. Helier Jersey Branch, PO Box 64, St. Helier, Jersey, Channel Islands, JE4 8PJ
	CCLA Investment Management Limited, St. Alphage House, 2 Fore Street, London EC2Y 5AQ
Investment Manager:	Rothschild Bank (CI) Limited, St. Julian's Court, St. Julian's Avenue, St. Peter Port, Guernsey GY1 3UA
Auditor:	Mr Russel Byrd, FCA FCCA, Randall & Payne LLP, Chargrove House, Shurdington Road, Cheltenham Gloucester GL51 4GA.
Chief Executive:	Louise de Winter

Governance & Management

The overall strategic direction of the charity is determined by the trustees, who meet four times each year.

Trustee Recruitment

The Foundation seeks to achieve a balance of lay and medical trustees. Appointed trustees are recruited (generally by open advertisement) on the basis of fulfilling the criteria determined as being required to provide a balance of experience and knowledge. Members of the charity's Scientific and Education Committee (see below) are recruited through calls in industry publications.

All new trustees are provided with a face-to-face induction meeting and an induction pack. They are provided with relevant Charity Commission publications and regularly briefed on developments within the charity sector.

Appointment & Election

The Trustees and Chairman are appointed for an initial period of three years that can be extended for a further three-year term. A further extension may be made if it is deemed to be in the best interests of the Charity. The governing document requires that there should be a minimum of seven trustees.

Two of the trustees are required to be representative trustees, one nominated by The British Association of Urological Surgeons ("BAUS") and one nominated by BJU International ("BJUI"). All other trustees, known as appointed trustees, are appointed by unanimous written resolution of all the trustees present and/or voting at a special meeting of trustees called to take place immediately before or after an ordinary meeting of trustees.

Currently the representative trustee nominated by BAUS is the President of BAUS and his appointment to the board is concurrent with his post at BAUS, which is for a period of two years.

The Executive Team

Louise de Winter, the Chief Executive, is responsible for the day-to-day management of the charity. She is assisted by a Grants & Administration Officer, a Fundraising Manager, a Campaigns Manager and part-time Events and Communications managers.

The Chief Executive deals with the implementation of policy and strategic decisions taken by the board of trustees. She and the appropriate staff members attend all the meetings of the board of trustees and of all sub-committees, and report on the day-to-day operations of the charity. The Foundation currently operates the following sub-committees:

The Scientific and Education Committee (SEC)

The SEC is responsible for the development and assessment of The Foundation's research, education and training programmes and the review and administration of The Foundation's grant making policy. The Chairman of the SEC, Professor John Kelly, is a member of the board of trustees, and reports back to the board on the work of the Committee. The SEC is made up of clinical trustees and academic urologists and scientists with an interest in urology. In January 2016 it was agreed that the SEC would also incorporate at least one lay representative and Ms Su Sayer was nominated to the committee.

Research Scholarship Review Panel

The Research Scholarship Review Panel is responsible for assessing applications for research scholarships and marking these according to the requisite criteria being met. In this task it assists the SEC in its final decision on who should receive research scholarship grants. The Research Scholarship Review Panel is made up of clinical trustees and academic urologists and scientists with an interest in urology.

Membership of the SEC and Review Panel can be viewed on the charity's website: <http://theurologyfoundation.org/about-us/who-we-are/committees>

The charity does not operate a separate committee for finance. Instead all major decisions on the charity's finances and investments are discussed at board meetings with day-to-day operational issues handled by the Treasurer and the Chief Executive, with the Chairman and other officers of the Board as appropriate. The Treasurer has oversight of the charity's bank accounts.

Relationships with Related Parties

The Foundation continues to maintain close links with its two founding charities, The British Association of Urological Surgeons and the BJU International.

Representation on Other Bodies

The Foundation is a member of the Association of Medical Research Charities and is also an active member of Urology UK, whose membership also comprises: the British Association of Urological Surgeons (BAUS), British Association of Urological Nurses (BAUN) and the Specialist Urological Registrars Group (SURG).

Objectives and Activities

Our Aims

Our vision is a world where people will not die early from, or their quality of life will not be adversely affected by, urological diseases.

Our urology health is vital to our quality of life. But diseases and cancers of the kidneys, bladder, prostate and the male reproductive system are becoming more prevalent and devastating the lives of millions of men, women and children in the UK.

The Urology Foundation is committed to transforming the lives of people with a urology condition. We work with researchers, urology and health care professionals to improve the management of urological disease and the nation's urology care. We are dedicated to beating all urology diseases through cutting-edge research and education and training to ensure fewer lives will be devastated.

We rely on donations from individuals, trusts and foundations, and from pharmaceutical and urological equipment companies to help fund our work. The money we raise is invested directly into

research to find better treatments and cures, and in educational training for urology professionals to care for and help people affected by urology conditions.

The Foundation is governed by the rules and regulations set down in its company memorandum and articles of association originally dated 12 February 2009 and last updated by a special resolution on 29 June 2009.

Our Values

In undertaking our remit we are:

- *Ambitious* to see UK urology care, treatment and practice is the best in the world.
- *Dedicated* to beating all urology diseases through cutting-edge research, training and education.
- *Proud* of working in urology and committed to transforming the lives of people with a urology condition.
- *Collaborative*; working with researchers, urology and health care professionals and other charities we are improving the nation's urology care.

Activities

In fulfilling our remit we fund the following programmes and awards:

<i>Research Scholarships</i>	Funding one, two or three years of full-time investigation in laboratory research of urological disease. Each scholarship is funded up to a maximum of £50,000 per annum.
<i>Smaller research projects</i>	Funding nurse or clinician-led, stand-alone small projects that seek to improve clinical services, treatments and/or communications with patients and carers. The projects must incorporate measures which evaluate and demonstrate the potential for improved care or well-being of patients. The maximum award value is £10,000.
<i>Clinical Visits & Longer Term Fellowships</i>	The ability to observe practice in international centres of excellence and bring pioneering techniques and technology to the UK is important to improving urology practice. Clinical Visits are for shorter observational visits. Longer Term Fellowships allow urologists to be embedded in a unit for 6 - 12 months and become a functioning part of the team.
<i>Investing in new technologies</i>	Since 2011 TUF has supported robotic surgery, funding surgeons and whole surgical teams to be trained and gain practice in the technique. In 2015, TUF created five 'The Urology Foundation Robotic Centres of Training'. The hospitals taking part were: Southmead Hospital, North Bristol NHS Trust; Freeman Hospital, Newcastle; Kent & Canterbury NHS Trust; Guy's & St Thomas' NHS Hospitals; and University College London Hospitals.
<i>Educational programmes</i>	To develop urologists' communications, influencing and presentation skills which will ensure safer interactions with patients and the clinical and administrative teams.
<i>Academic courses</i>	Sponsoring academic meetings to ensure more trainees can benefit from the exchange of information and knowledge. We also provide limited travel grant funding to allow urologists and nurses to travel overseas to attend academic courses or conferences.
<i>Keith Yeates Medal</i>	Awarded to the Urology Trainee who receives the highest marks in the Intercollegiate Specialist Exams in Urology. The successful candidate also receives a travelling fellowship grant of £2,000.
<i>BAUN/TUF Urology Nurse of the Year</i>	A competitive award given to the nurse who can demonstrate they have made a significant difference to patient treatment and care. The successful candidate receives a grant worth up to £1,750 to attend a conference or visit a nursing unit overseas.

<i>Awareness Campaigns</i>	To educate the public about urological matters and signs and symptoms of disease, we participate in or run campaigns to raise awareness; in particular, World Continence Week (June) and Urology Awareness Month (September).
<i>Strategic funding</i>	From time to time the trustees support projects that they believe fulfil the charity's remit but which sit outside The Foundation's normal grant programmes. Recent examples include: supporting an Urolink project to train urology professionals in Zambia; a two year Safer Urology pilot programme, involving urology trainees in London, the south east and the north west of England; and a social research project with Age UK into urinary incontinence.

Achievements and Performance

2016 grants and awards: the year in numbers

In 2016 TUF invested **£1,076,202** into funding urological research, education and training. This figure nearly matched that of 2015, which had been our record-breaking year (2015: £1,152,820.)

Research scholarships

Six research scholarships were awarded at a total cost of £329,649. (2015: 7 awards.) Two awards were for two year funding and one of those was part funded by the John Black Charitable Foundation.

The awards were for research in the following areas:

- Developing pelvic floor repair materials x 1
- Penile cancer x 1
- Prostate cancer x 3
- Bladder cancer x 1

Prostate cancer research

Thanks to the John Black Charitable Foundation, TUF awarded a further ~£350,000 worth of grants in 2016 into prostate cancer research. (2015 two grants totalling £500,000.) 2016 grants were awarded for:

- NAALADL2 funding extension to explore effect of TBL1XR1 gene on prostate cancer.
- Expression of androgen receptor splice variants in prostate cancer.

Small research project grants

2016 saw a marked increase in applications to this fund which has two calls for submissions per annum (May & October). We received nine applications and made five awards totalling £44,729. (2015: 3 awards.) 2016 awards were for the following projects:

- Mobile application technology to improve patient education and engagement in recovery from major urological cancer surgery.
- Development and Validation of a Flexible Ureterorenoscopy Training Curriculum.
- A digital application to help men with urological problems get the best care from the most appropriate source.
- Efficacy of a new innovative male urine sheath to manage incontinence and patient care.
- Supported progressive resistance exercise for countering the adverse side effects of prostate cancer treatment.

Clinical Visits & Longer Term Fellowships

Five clinical visits were awarded in 2016 at a total of £8,750. (2015: 0 awards.) One visit has still to be confirmed.

Three Longer Term Fellowships totalling £32,000 were awarded to:

- Vaibhav Mogdil to visit Fiona Stanley Hospital in Western Australia to broaden his skills in genito-urethral reconstruction and endourology.

- Ben Lamb to visit the Peter Macallum Centre, Melbourne, Australia, focusing on complex pelvic oncology including pelvic exenteration.
- Fiona McCaig to the L'Hôpital Européen Georges-Pompidou and Le Necker Hospital, Paris, focusing on renal transplantation.

Endourology Fellowships

Marco Bolgeri received an Endourology grant (£1,500) in 2016 to the Cleveland Clinic in the USA. (2015: 2 awards at total of £3,000.) BAUS had to cancel its Endourology residential course in 2016 owing to junior doctor strike action meaning that no further awards were issued in 2016.

TUF Centres of Robotic Surgery Training

No new funding was awarded to the TUF Centres of Robotic Surgery Training during 2016 (2015: £106,000). This was because 2016 was the initial year to evaluate and assess the programme and how it functioned. It is intended to make a further award to the programme in 2017, although the structure of the programme may differ slightly based on experience of what works.

Educational courses

TUF ran two educational courses for urologists in 2016:

- *Taking the Lead*, a leadership course aimed at consultants. TUF is very grateful to Astellas Pharma UK who kindly sponsored the course with an unconditional grant.
- *SpRUCE*, aimed at specialist registrars coming up to their consultancy exams and interviews.

Both courses scored extremely highly on the feedback forms, averaging 4.8 out of a maximum 5 points for course usefulness and value.

Strategic funding

In 2016 TUF made additional significant awards totalling £261,880 (2015: £189,623).

- £247,000 to fund a three year robotic bladder cancer surgical trial (due to start February 2017). TUF is grateful to the Champniss Foundation for funding this trial.
- £14,880 on social research into incontinence with Age UK.

Other sponsorship and educational awards

Awards totalling £11,196. (2015: £11,250.)

- Educational travel grants x 3 at a total of £1,446. (Includes USANZ travel grant for SURG.)
- RSM Urology Section programme sponsorship for 2016/17 of £5,000.
- Keith Yeates/Ralph Shackman prize - £2,000
- BAUN/TUF Nurse of the Year Award - £1,750
- Sponsoring SURG conference - £1,000. (NB: This award was subsequently withdrawn as it was no longer needed.)

Awareness raising

TUF took part in World Continence Week in June to raise awareness of urinary incontinence, how it affects sufferers and what people can do to mitigate its impact. We also ran Urology Awareness Month in September for the third year. Activities included undertaking a survey of 1000 members of the public into their knowledge of and attitude towards urological conditions, providing information leaflets for professionals to display and disseminate, a social media campaign on Twitter and Facebook, including a public 'Tweetchat' with a urologist, taking part in a number of radio interviews to spread awareness of signs and symptoms of urological cancers and issuing press releases to the media. We reached more than 1 million people through print and online articles (both national and regional), and up to 35 million through national and regional radio interviews.

Financial Review

Financial Results of Activities & Events

The total value of net assets held by The Urology Foundation on 31 December 2016 was £1,879,805. The Foundation's fundraising activities and other initiatives during the course of 2016 generated a

total of £1,126,957 of voluntary income and a further £44,908 from specific fundraising event income. £17,403 was generated in investment income.

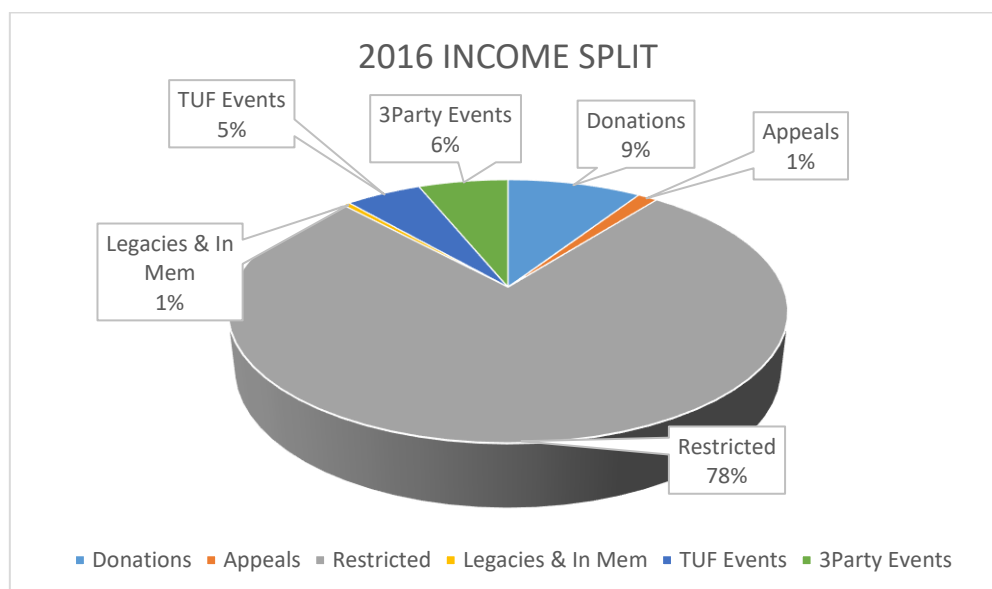

Fundraising

TUF continues to be wholly reliant on fundraised and donated income to fulfil its remit. The charity operates a mix of its own fundraising activities and those organised and undertaken by third parties on its behalf.

In 2016 TUF held a wine tasting dinner at Vintners' Hall, hosted by TUF Patron and wine connoisseur Jane MacQuitty. The evening raised over £31,000 and we are grateful to Jane for her ongoing and generous support.

In addition, there were a number of fundraising events hosted by donors and supporters and a number of individuals who undertook their own challenges to raise money for The Foundation. These included a team of cyclists under the leadership of consultant urologists Ben Eddy and Ben Challacombe, who cycled from the Royal College of Surgeons in London to the BAUS Conference in Liverpool, raising over £30,000; and consultant urologist Pete Cooke who scaled the Three Peaks with a team of friends and colleagues to raise over £30,000. We are immensely grateful to each and every one of these extraordinary people who did something amazing to raise funds for the cause.

The Foundation also received a number of donations from Trusts and Foundations towards its general fund and towards its robotic surgery training programme. (See Annex A.) It also received some in memoriam donations. A number of grants came in for restricted funding, and the pie chart below illustrates the balance between restricted and unrestricted income during the year.

Reserves Policy

The Foundation currently has "free reserves" of £1,216,761 (31 December 2015: £1,044,537).

The Foundation's policy is to maintain reserves sufficient to continue to fund its objectives on a long term basis. This is particularly important given its recent policy move towards awarding multi-year funding for research projects, such that sufficient reserves need to be available to fund three years' worth of projects. Accordingly, the amounts required to fully fund all multi-year commitments will be held in reserves, consistent with the Charities SORP, together with the initial start-up funding in 1995 of £500,000.

The trustees consider that reserves held in excess of the amounts required to fund all future commitments together with the initial fund of £500,000, will be available to increase its visibility and expand its operations including funding for further research and a wider range of projects.

The trustees plan levels of expenditure from unrestricted and restricted funds for the year ahead based upon the level of incoming resources for the current year as well as utilising restricted funds. The Foundation's unrestricted net funds generated in 2015 are judged to be sufficient to meet the requirements of the charity for charitable giving in the coming year.

Investments Policy

The trustees are empowered to invest any money that The Foundation does not immediately require in such a manner as they may determine. The Treasurer and the Chief Executive are responsible for managing the relationship with The Foundation's investment manager, Rothschild Bank (CI) Limited.

The trustees have delegated powers of investment to the investment manager but changes in investment strategy are subject to approval by the board of trustees. The investment manager is asked to attend at least one board meeting annually. The board continues to maintain a low risk approach of managing the investment portfolio for long-term growth assessing investment performance on a total return basis (income plus capital gains).

All other Foundation funds are held in accounts with the charity's bankers, National Westminster Bank plc, CCLA Investment Management Limited and Royal Bank of Scotland plc.

Remuneration policy

In setting salary levels, The Urology Foundation follows the National Council for Voluntary Organisation's advice that a charity's pay policy should be to offer fair pay to attract and keep appropriately-qualified staff to lead, manage, support and/or deliver the charity's aims. It also conducts online research of charity salaries and uses surveys to benchmark levels of pay. The Urology Foundation does not automatically award its staff with annual salary increases, either incremental or cost of living.

Grants policy

TUF advertises its grant programmes and awards on its website and through its monthly professional e-newsletter. Applications for Research Scholarship funding are assessed by the SEC and the Reviewing Panel. Other applications for funding are assessed by the SEC.

TUF is a member of the Association of Medical Research Charities (AMRC) and abides by its standards and guidelines for peer review and funding. It is also a National Institute for Health Research (NIHR) non-commercial Partner. Research studies funded through TUF's NIHR approved funding streams are automatically eligible for consideration for NIHR Clinical Research Network (CRN) support subject to meeting the standard study eligibility criteria.

Plans for the future

TUF's strategy is to continue to develop and implement medical research and education programmes that will lead to improved outcomes for patients, while also addressing the training needs of healthcare professionals specialising in urology.

The trustees are pleased to have opened up more funding opportunities for urologists and urology nurses. Looking ahead to the impact of the new Junior Doctor contract, TUF is aware that it may need to introduce a higher annual threshold for its research scholarship programme, in line with expected salary levels.

The board wishes to see greater awareness among urology professionals and the public of The Foundation's work and remit. As part of this, it supports TUF's engagement in awareness raising campaigns which are also intended to educate the public on urological matters. In line with its five-year plan, The Foundation will drive awareness of urology and its work in order to fund more research, training and education for urology professionals, and develop a community of urologists for information sharing that will benefit the patient, supported by an increase in income. In addition TUF will expand its supporter base to encourage different revenue streams and long-term advocates for the cause.

Public Benefit

The trustees have taken The Charity Commission's general guidance on public benefit into consideration in preparing their statements on public benefit contained within this trustees' annual report. In accordance with its charitable objectives, The Foundation gives grants to individuals and not-for-profit organisations within the specific area of benefit of The Foundation. The trustees use the following measures of success and gather evidence of public benefit accordingly:

- Written reports, oral presentations at medical conferences and publication of the scientific research programmes supported by TUF through its annual scientific scholarship programme. This programme supports the advancement of the understanding of the causes, treatment and management of a broad range of urological disease which, in time, will lead to improvements in patient care.
- Written reports from all healthcare professionals who receive grants from TUF on the impact that the training they have received has had on their clinical practice and their patients.
- Evaluation of the training programmes through the development of reports based on evaluation forms completed by the individual healthcare professionals attending the course(s).

As a result, the trustees are satisfied that The Foundation meets the public benefit test.

Principal risks and uncertainties

The trustees take the management of risks seriously. The Chairman of the board of trustees and the Chief Executive of The Foundation are charged with responsibility to ensure that the risks which have been identified are adequately assessed and properly mitigated on a regular basis. The potential risks have been discussed with the Chairman and the charity and a formal risk register is kept and brought before the board on at least an annual basis.

The key risks are assessed as follows:

Income Sources	TUF is wholly reliant upon voluntary income as an annual source of funding. It is the role of the trustees to manage risk exposure on fundraising activities and in doing so to accept an appropriate level of risk in order to raise income from a wide range of sources.
Key Person risk	The small staff base makes TUF heavily reliant on the Chief Executive and a few key trustees so the unexpected loss or departure of the Chief Executive or certain trustees is a risk. Succession planning processes have been identified as necessary going forward.
Investment Risk	TUF's success is directly related to the amount of resource it can devote to its objectives, so the key risk identified by trustees relates to the proper management of its funds. Imprudent or unprofessional decisions could majorly impact on the performance of those funds. In common with similar charities, TUF employs professional fund managers, whose performance is regularly reviewed by the Treasurer together with other trustees.
Risk to Employees	Employees are not subject to risks other than those likely to be associated with routine office work. Apart from obtaining statutory Employers Liability Insurance, TUF nonetheless treats the welfare of its staff as a priority. The Chief Executive is the Nominated Safety Officer for the purposes of the Health and Safety at Work Act. In addition the premises are checked both by the landlord and by the fire service to ensure appropriate mitigation of the risk of fire. Employees are aware of the location of fire extinguishers.
Loss of Records	To protect against the loss of records all files are backed up daily and the files stored remotely. The risk of any unsaved data being critical to TUF is regarded as insignificant. Other similar risks are dealt with by insurance.

Trustees' & Directors' Responsibilities in the Preparation of Financial Statements

The trustees (who are also the directors of The Urology Foundation for the purposes of company law) are responsible for preparing the trustees' Annual Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charitable company as at the balance sheet date, and of the incoming resources and application of resources, including income and expenditure, for that period. In preparing those financial statements, the trustees and directors are required to:

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charities SORP;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charitable company will continue in business.

The trustees are responsible for keeping proper accounting records, which disclose with reasonable accuracy at any time the financial position of the charitable company and enable them to ensure that the financial statements comply with Companies Acts 2006. They are also responsible for safeguarding the assets of the charitable company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The trustees are responsible for the maintenance and integrity of the corporate and financial information included on the charitable company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from the legislation in other jurisdictions.

Auditor

Mr Russel Byrd of Randall & Payne LLP has indicated his willingness to continue in office.

Statement as to disclosure of information to the auditor

The trustees and directors at the date of approval of this trustees' annual report confirm that so far as each of them is aware, there is no relevant information of which the charity's auditor is unaware, and the trustees and directors have taken all steps that they ought to have taken to make themselves aware of any relevant information and to establish that the auditor is aware of that information.

Annex A

The Urology Foundation is extremely grateful to the following Trusts & Foundations who kindly supported our work in 2016:

Anthony du Boulay Charitable Trust
Girdlers' Company Charitable Trust
The Hadley Trust
William & Christine Eynon Trust

To those who supported our Robotic Surgery training programme

Amelia Chadwick Trust
Chapman Charitable Trust
Cosaraf Charitable Foundation
Hospital Saturday Fund
Intuitive Surgical
J S F Pollitzer Charitable Trust
MJC Stone Charitable Trust
PF Charitable Trust
Roger Raymond Charitable Trust
The Atkin Foundation
The Catherine Cookson Charitable Trust
The Champriss Foundation
The Gamma Trust
The Mackie Foundation
The Rothley Trust
The Swire Charitable Trust

Our thanks also to:

Mr & Mrs A Miskin for their generous donation for research into Posterior Urethral Valves bladder dysfunction in foetal and new born boys.
The Champriss Foundation for their generous support of our Bladder Cancer Trial.
The John Black Charitable Foundation for their generous donation towards prostate cancer research.
The Schroder Foundation for their generous donation towards the Safer Urology Project.

REPORT OF THE INDEPENDENT AUDITORS TO THE MEMBERS AND TRUSTEES OF THE UROLOGY FOUNDATION

We have audited the financial statements of The Urology Foundation for the year ended 31st December 2016 on pages 17 to 31. The financial reporting framework that has been applied in their preparation is applicable law and the Financial Reporting Standard 102.

This report is made solely to the charitable company's members and trustees, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the charitable company's members and trustees those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charitable company and the charitable company's members and trustees as a body, for our audit work, for this report, or for the opinions we have formed.

RESPECTIVE RESPONSIBILITIES OF TRUSTEES AND AUDITORS

As explained more fully in the Statement of Trustees Responsibilities set out on page 13, the trustees (who are also the directors of the charitable company for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view.

Our responsibility is to audit and express an opinion on the financial statements in accordance with the applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

SCOPE OF THE AUDIT OF THE FINANCIAL STATEMENTS

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the charitable company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the trustees; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Report of the Trustees to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

OPINION ON THE FINANCIAL STATEMENTS

In our opinion, the financial statements:

- give a true and fair view of the state of the charitable company's affairs as at 31 December 2016 and of its Incoming resources and application of resources, including its result, for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the Companies Act 2006.

OPINION ON OTHER MATTERS PRESCRIBED BY THE COMPANIES ACT 2006

In our opinion the information given in the Trustees' Annual Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

**REPORT OF THE INDEPENDENT AUDITORS TO THE MEMBERS AND TRUSTEES OF THE
UROLOGY FOUNDATION (Continued)**

MATTERS ON WHICH WE ARE REQUIRED TO REPORT BY EXCEPTION

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of trustees' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit. or
- the trustees were not entitled to prepare the financial statements in accordance with the small companies

and take advantage of the small companies exemption in preparing the directors' report.

THE UROLOGY FOUNDATION

Financial statements for the year ended 31 December 2016

ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements have been prepared under the historical cost convention with items recognised at cost or transaction value unless otherwise stated in the relevant notes to these accounts. The financial statements have been prepared in accordance with the Statement of Recommended Practice: Accounting and Reporting by Charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) issued on 16 July 2014 and Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland (FRS 102) and Charities Act 2011. This is the first year in which the financial statements have been prepared under FRS 102. The trust constitutes a public benefit entity as defined by FRS 102.

INCOME

Grants, donations and other similar types of voluntary income are brought into account when it is probable that they will be received, except that donated income is included gross of any attributable tax recoverable, where relevant. Donations given for specific purposes are treated as restricted income. Tax recoverable is recognised when claims are submitted to HM Revenue and Customs. Legacy gifts are recognised in the period in which the Charity becomes entitled to receive the income.

Income receivable from activities for generating funds and from investment income is accounted for on an accruals basis. Deferred income represents revenues collected but not earned as of 31 December 2016. This is primarily composed of income collected in advance of a fundraising event taking place and deferred until the charity is entitled to that income as and when the event takes place.

EXPENDITURE

Resources expended are allocated to the costs of generating funds or to the charity's principal activity where the costs can be identified as being directly related. All other costs are categorised as either support costs or governance costs, and are allocated in proportions based upon a suitable ratio applicable to the nature of the cost involved.

Grants payable are recognised in full in the period in which the approved offer is conveyed to the recipient. Grants are recognised and deferred where there is a long term commitment for the Charity. Where grants are recognised and conditions for staged grant payments are not met in subsequent years, an adjustment to grants payable will be made in the relevant accounting period.

Expenditure includes irrecoverable VAT which is reported as part of the expenditure to which it relates.

TANGIBLE FIXED ASSETS

All tangible assets purchased that have an expected useful economic life that exceeds one year are capitalised and classified as fixed assets. Tangible fixed assets are stated at historical cost less depreciation. Depreciation is provided on all tangible fixed assets at rates calculated to write each asset down to its estimated residual value evenly over its expected useful life, as follows:

Office equipment	25% reducing balance
------------------	----------------------

OPERATING LEASES

Rentals under operating leases are charged to the Statement of financial activities on a straight line basis over the lease term.

THE UROLOGY FOUNDATION

Financial statements for the year ended 31 December 2016

ACCOUNTING POLICIES

INVESTMENTS

The charity's investments are included in the balance sheet at their market value. The gains or losses arising upon their annual revaluation are included in the statement of financial activities.

FUND ACCOUNTING

The general fund comprises the accumulated surpluses of unrestricted incoming resources over resources expended, which are available for use in the furtherance of the general objective of the charity.

Designated funds are a particular form of unrestricted funds consisting of amounts, which have been allocated or designated for specific purposes by the trustees. The use of designated funds remains at the discretion of the trustees.

Restricted funds are funds subject to specific conditions imposed by donors. The purpose and use of the restricted funds are set out in the notes to the accounts. Amounts unspent at the year end are carried forward in the balance sheet.

FOREIGN EXCHANGE

Receipts and payments which occur in foreign currencies are included in the accounts at the amount into which they are converted in sterling, using the exchange rate on the day in which the transaction occurs.

GOING CONCERN

The Trustees as Directors of the Charity believe that there are no material uncertainties that may cast significant doubt about the ability of the Charity to continue as a going concern, due to the significant unrestricted reserves as at 31st December and the forecast income expected in 2017.

FINANCIAL INSTRUMENTS

The charity only has financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value with the exception of bank loans which are subsequently measured at amortised cost using the effective interest method.

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 December 2016
7. GRANT MAKING (Continued)

The Charity's policy, in line with the Charities SORP 2015 is to recognise an expense and related liability for a research grant, at the point when the unconditional offer is conveyed to the recipient (see the accounting policy on page 21 for further details). However, recipients do not always take up their research grants in full. Where this happens, in subsequent years, in order that the correct movement in the Charity's liability is recognised, the expense as shown in the Statement of Financial Activities may not reflect the level of grant giving in the current year. A reconciliation to assist with users' understanding of the grants awarded in the year, to the expense in the Statement of Financial Activities is provided below:

	Grants awarded in the year ended 31 December 2016	Effects of outstanding grant payments	Expense recognised in the accounts for the year ended 31 December 2016
John Black Prostate Cancer Fund	349,506	-	349,506

One employee received total emoluments in excess of £60,000 per annum during the period ended 31 December 2016. The total emoluments of this employee during the year were in the following ranges:

	2016		2015	
	No.		No.	
£80,000 - £90,000	0		1	
£70,000 - £80,000	1		0	

The Charity considers its key management personnel comprise the Chief Executive. In setting salary levels, The Urology Foundation follows the National Council for Voluntary Organisation's advice that a charity's pay policy should be to offer fair pay to attract and keep appropriately-qualified staff to lead, manage, support and/or deliver the charity's aims. It also conducts online research of charity salaries and uses surveys to benchmark levels of pay. The Urology Foundation does not automatically award its staff with annual salary increases, either incremental or cost of living.

No Director received any remuneration from the Company during the year (2015: £nil).

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 December 2016

15. THE FUNDS OF THE CHARITY (Continued)

- The Robotic Surgery Training Fund was set up in 2009 following the receipt of restricted donation income from the British Urological Foundation and a generous private donation. The funds are mainly used to award grants towards robotically assisted surgery training, education, and research into robotic training techniques via the SIMULATE project.
- Included within the Restricted Funds are net unrealised gains arising on the revaluation of investments totalling £143,928 (2016: £119,900). Included within the General Fund are net unrealised gains arising on the revaluation of investments totalling £681,914 (2016: £490,538).
- The trustees of The Urology Foundation are concerned that bladder cancer remains one of the most expensive cancers to treat and that survival rates appear to have reached a plateau at 50%. In the UK, more than 10,000 new cases of bladder cancer are diagnosed every year and almost half that number die from it - nearly 14 people per day. The Foundation is determined to improve the diagnosis, treatment and outcomes of people with bladder cancer and so is taking steps via a dedicated fund to allocate resources to vital research into the diagnosis and pathology of bladder cancer and to funding training and education to improve patient treatment and care.
- The trustees have designated the original 1995 start-up funding for the BUF of £500,000 as the trustees feel strongly that The Foundation should seek to maintain reserves sufficient to continue to fund its objectives on a long term basis.
- Prostate Cancer Research - Thanks to another generous donation from the John Black Charitable Foundation of £349,505, TUF was able to fund two further, three-year prostate cancer research projects. These were for “Expression of androgen receptor splice variants in prostate cancer” run by Mr Prabhakar Rajan at Barts Cancer Institute, Queen Mary’s University London (value £299,999); and for further research into “NAALADL2 - to explore effect of TBL1XR1 gene” run by Dr Hayley Whitaker at University College, London (value £99,506).
- John Fitzpatrick Travel Fellowship - Following the sad demise of Professor John Fitzpatrick, one of the founders of The Urology Foundation, a fund was set up in his name. A significant donation was received and has been earmarked for a travel fellowship grant to Australia, which was taken up in 2016.
- Ralph Shackman Trust - The Ralph Shackman Trust’s aims were similar to TUF, being to advance the study of urology, which they did mainly through grants and awards and funding clinical visits. In 2012 they asked TUF to assist them in promoting and administering their clinical visit grants. In 2015 the trust wound down and transferred its remaining assets to TUF. In addition, the Ralph Shackman Trust passed on its responsibilities for administering the Keith Yeates Medal, an Award given to the Urology Trainee who receives the highest marks in the Intercollegiate Specialist Exams in Urology. TUF will continue to administer clinical visit grants and the Keith Yeates Medal.
- Congenital Bladder Defects Fund - In 2016 TUF received a donation of £25,000 (including gift aid) to fund research or training into congenital bladder conditions and dysfunction such as, for example, posterior urethral valves (PUV) which presents in the foetus and can cause severe kidney damage and/or mortality.
- Quality & Safety Skills Pilot - The trustees of The Urology Foundation are keen to deliver real improvements in patient care, while also developing urologists and equipping them to become leaders of the future. To that end TUF is supporting the development of a training programme that equips urology trainees with the reflective skills required to: analyse patient safety incidents or concerns that they may have; develop collaborative quality improvement work around these concerns, so they proactively address them; and share learning and best practices with their peers and urology departments initially regionally and subsequently nationally. The anticipated benefits will be improved patient safety and care that will reflect a culture that prioritises patient safety and fosters continuous improvement.

16. ANALYSIS OF NET ASSETS BETWEEN FUNDS

	Fixed Assets £	Net Assets/(Liabilities) £	Total £
Restricted income funds:			
Robotic Surgery Training Fund	426,492	(30,963)	395,529
Prostate Cancer Research Fund	209,090	(15,180)	193,910
Bladder Cancer Fund	40,849	(2,965)	37,884
Travel Fellowship Fund	669	(49)	620
Ralph Shackman Fund	-	-	-
Congenital Bladder Defects Fund	27,589	(2,003)	25,586
Quality & Safety Skills Pilot	10,260	(745)	9,515
Unrestricted income funds:			
General Fund	514,883	(73,678)	441,205
Designated Fund (Ralph Shackman)	297,127	(21,571)	275,556
Designated Fund (British Urology Foundation)	500,000	-	500,000
NET ASSETS	<u>2,026,959</u>	<u>(147,154)</u>	<u>1,879,805</u>

17. ULTIMATE CONTROLLING PARTY

The Charity is controlled by the board of Trustees.

18. COMMITMENTS UNDER OPERATING LEASES

As at 31st December 2016, the Charity had annualised operating commitments under non-cancellable operating leases expiring as follows:

	2016 £	2015 £
Expiring within one year		
- Land and Buildings	19,678	19,678
- Others	578	578
Expiring within two to five years		
- Land and Buildings	4,920	24,598
- Others	32	680
	<u>4,952</u>	<u>25,278</u>
