Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

We use sports activities as a vehicle to promote learning and training in order to improve confidence, improve social inclusion, increase knowledge & skills, enable cooperation among young people, with participation in sports & engagement in the wider community. We also deliver intergenerational activities that bring together both youth and adults, including parents to learn a skill together.

These enable both groups to interact and break the stereotypes barriers they hold of each other.

Positive adults (possibly parents) interacting together with young people helps the tendency to low their stereotype perception of themselves, while it also helps the adult's intention to augment and moderate their stereotype of young people without interaction.

Bring adult role models in the community to engage and facilitate positive learning that creates opportunities and feeling trust in the abilities qualities and judgement which is necessary for the mental health of young people

BSF engages, inspire and nurture young people's enthusiasm and ability in a way that enables them to become the sole drivers of their own success.

We have also developed workshop on youth Knife Crime Preventative Project, covering the following the topics

- Character development
- The danger of Gangs – History and Gang culture
- Testimonial from former gang members – the Good, the Bad and the Ugly
- Life in the Nick – Confession and stories behind the bars
- The purpose of life – Why am I here?
- Dealing with aggression and anger management
