### **Trustees report 2017/18**

The trustees meet on 27/04/18 and formalised the annual report for the year 2017/18

All the trustees were in attendance and the following was agreed

The financial situation of the charity is currently healthy and the accounts were presented and accepted.

The aims of the charity are currently being met and the work particularly in Uganda has increased in the last few months. The introduction of the child sponsorship scheme has resulted in children who were unable to receive an education because of financial restraints within their family situations has resulted in them being enabled to attend school. The trustees agreed that the expansion of this programme is essential.

The partnership with the schools in the poorer rural areas of Kiti and Luweero is progressing and links have been formed between two schools there and local schools in Flintshire. The schools work is an area where as trustees, it is felt that there is a possibility of making a significant change in the conditions within these rural schools and so during the coming year the charity will investigate where the assistance should be focused particularly with regard to Alpha school in Luweero.

The community work continues to progress with the introduction in Kiti village Uganda of a young peoples project offering practical training and mentoring, many young people are attending and during the coming year the trustees will examine the possibility of establishing a permanent training centre next to the Kiti community centre which the charity has its Ugandan office.

The trustees have set as priorities for 1028/2019 as

- 1) The expansion of the child sponsorship scheme.
- 2) The assessment on the condition of the Ugandan schools with which we have involvement.
- 3) The investigation of the potential for a Youth Training centre in Kit, Uganda.
