The Trustees present their report along with the audited financial statements of the charity for the year ended 31 December 2018.

The financial statements have been prepared in accordance with the accounting policies set out on pages 17 -19. They comply with the charity's Trust Deed, the Charities Act 2011, and the Statement of Recommended Practice – Accounting and Reporting by Charities published in 2015.

Structure, Governance and Management

The Sir Jules Thorn Charitable Trust is constituted under a Trust Deed dated 18th February 1964 and is a registered charity, number 233838. It was established with an endowment from Sir Jules Thorn. The Trust does not fundraise and seeks to continue the charitable work inspired by Sir Jules through the careful stewardship of its existing resources. The charity has no fundraising activities requiring disclosure under S162A of the Charities Act 2011.

Based in leased premises in London, the Trust is governed by a board of Trustees who are appointed for an indefinite period, as is the Chairman whom they elect. The Trustees oversee the Trust's governance, set the strategic direction and review the progress of its implementation. Normally they hold two meetings each year, but ad hoc meetings are arranged as required. A sub-committee of Trustees meets at least annually with the investment managers to discuss in detail the performance of the Trust's investments, and a full report is made to the board of Trustees.

The Trust Deed does not provide for a minimum or maximum number of Trustees. The composition of the Trustee board, both as regards numbers and the mix of skills, experience and diversity is kept under regular review. When vacancies arise, individuals are identified who fit the above profile and they are invited to a selection interview, which may lead to an appointment to the Trustee Board. New Trustees are given a detailed briefing about the Trust and all aspects of their responsibilities, including governance. Where appropriate, induction training with the Trust's professional advisors is offered. All Trustees are unpaid.

The effectiveness of the Trust's governance arrangements is kept under regular review, and following the publication of the new Governance Code for charities, published in July 2017, which was discussed at the May 2018 Board Meeting, a Governance Review Plan is being submitted to the Trustees for ratification in May 2019.

Assistance with the peer review of applications for medical research grants is provided by a Medical Advisory Committee, comprising eminent scientists who assess the scientific merit of research funding proposals and make recommendations to the Trustees. They also undertake progress reviews of research supported by the Trust as part of a post-audit process. The Chairman is Professor Douglas Higgs, Director of the Institute of Molecular Medicine at the University of Oxford, who retires from the chairmanship at the end of the current year. The board is enormously grateful to Professor Higgs for having undertaken this key role for three years, and for his willingness to remain as a member of the Committee during 2019. His successor as Chairman will be Professor Sharon Peacock, Professor of Clinical Microbiology, based at the University of Cambridge, who undertakes this responsibility with the warm appreciation of the board.

The Trust has in place a set of principles which are applied for identifying transactions and decisions in which individuals may have a personal interest, and a process for managing potential conflicts. These principles apply to individuals at all levels in the decision making process, including Trustees, Trust employees, and members of the Medical Advisory Committee.

The Trust operates with a small team of four people, including the Director, who provides the key management role within the definition of FRS 102, and is accountable to the Trustees for the implementation of their strategic plan, and for the day to day management of the Trust. The jobholder's remuneration is set by the Trustees to reflect and recognise:

- The size of the Trust's asset base and the scale of its activities.
- The value to the Trust of the wide range of skills, competencies and experience required to
 ensure that the Trust is managed most effectively to deliver its objectives despite its small
 staff complement.
- The importance to the Trust of being able to recruit and retain its key personnel in a competitive marketplace, requiring a continuing awareness of remuneration policies in the charity sector.
- The need to provide remuneration appropriate to the level of enhanced performance expected.

The Director's base salary may be augmented to protect the real value but currently no pension provision or other fringe benefits are included in the remuneration package. No defined bonus scheme applies but at the Trustees' discretion a non-pensionable bonus of not more than 5% p.a. may be paid.

Principal Risks and Uncertainties

The risks to which the charity is exposed are reviewed regularly by the Trustees. The major risks are considered to be:

- Financial where a reduction in the value of investment assets is sufficient to undermine the charity's strategic objectives.
- Operational where processing failures, fraud, or major incidents, impede the charity's ability to function effectively, and thus to deliver its charitable objectives.
- Compliance where a failure to comply with charity law, the general law, and the founding Trust Deed, compromises the charity's status and its future.

Ensuring that these, and other risks, are managed appropriately is central to the Trustees' governance, which is the subject of continuing attention. Systems and procedures for risk management are reviewed at Trustees' meetings. A risk register and a disaster recovery plan are updated regularly, and the performance of the professional managers employed to manage the charity's substantial investment assets is monitored closely.

The Trustees do not consider that they have a need to establish a separate Audit Committee from within their number in order to ensure effective control of the charity, but they keep this aspect of governance under regular review.

Objectives and Activities for the public benefit

The Trust Deed gives the Trustees absolute discretion to apply the capital and income of the Trust for charitable purposes generally but, in doing so, they take note of the wishes of the Founder, Sir Jules Thorn, who hoped that through its grant-making the Trust would be able to improve the quality of life for the sick and the disadvantaged. That remains the Trust's mission. In discharging their responsibilities, the Trustees confirm that they have due regard to the Charity Commission's published guidance on the Public Benefit requirement under the Charities Act 2011. This report details how the Trustees consider that the Trust provides such public benefit.

The Trust carries out its objectives by providing grants to registered charities, which themselves are subject to the legal requirement to provide public benefit. The major proportion of the Trust's income is committed to medical research and medically related purposes. Grants for other purposes are awarded where, in the Trustees' judgement, they will best facilitate the achievement by the applicants of objectives which have empathy with the Trust's mission. Grants are restricted normally to beneficiaries within the United Kingdom.

The Trust provides details of its grant programmes on its website and may advertise its major research award, but it has no need to undertake other advertising. The medical research community is well aware that the Trust is a potential source of funding, and most institutions maintain a database of charitable funders. The Trust also features on a number of other databases, including that of the Association of Medical Research Charities, of which it is a member. Fundraising charities have access to many other well-known databases; in which the Trust's grant-making activities are detailed.

Grant Making Policies

The Trust has established grant making policies to achieve its objectives for the public benefit. Its primary interest is in supporting medical research and medical science generally, while other grants assist charities whose work is relevant to the Trust's humanitarian objectives.

Medical research

The Trust's focus is on funding the highest quality translational research which seeks to bring benefit to patients through improved diagnosis and/or by the development of new therapies for important clinical problems. Funding is considered for all areas of clinical research.

Grants are provided under two schemes: -

The Sir Jules Thorn Award for Biomedical Research

This scheme supports the work of outstanding investigators who are in the early stages of a career in clinical research by offering, currently, a grant of up to £1.7million (previously £1.5million) to finance a programme of translational research extending for up to 5 years. The Award is made following a competition held annually among UK medical schools and NHS organisations. Applications are subjected to rigorous peer review, including detailed discussions with applicants who are short-listed. A winner is recommended for funding to the Trustees only if, in the opinion of the panel of expert judges, the proposed research is considered to be of the highest international quality.

• The Sir Jules Thorn PhD Scholarship Programme

This scheme supports the work of Clinical Senior Lecturers in UK medical schools, by enabling the recruitment of an outstanding young graduate to undertake a challenging four year research project under expert supervision, leading to the submission of a PhD thesis. It is hoped that the experience will encourage young scientists to pursue a career in clinical research. Over the past 11 years the Trust has committed over £1.855m to this scheme during which 23 PhD students have benefited from the Trust's scholarships. The scheme was not operated in 2018. It has been restructured and is now embedded directly within the Doctoral Training Programmes operated by the leading universities, and applications have been invited in 2019 for scholarships to be awarded in the 2019/2020 academic year.

The Trust does not provide partial funding for research (preferring to be the sole contributor to work which it supports), and it confines its grants directly to the institution where the work is undertaken, rather than by contributing to funds being raised for research by other charities.

Grants approved for medical research projects may be used by the host institution (in part) to cover the salary of one or more employed research workers, but the Trust does not provide such funding direct to individuals, nor does it have grant programmes for sponsoring elective studies.

The Trust supports the best practice guidelines of The Association of Medical Research Charities, including the use of peer review in selecting which research to fund. The Trust holds the Association's Certificate of Best Practice in Peer Review.

It is a requirement that intellectual property rights created as a result of the medical research funded by the Trust should, where commercially worthwhile, be protected and exploited. An Intellectual Property Agreement with each institution defines issues of protection and exploitation, and the arrangements for sharing income with the Trust in the event that commercial income is generated. Any such income would be allocated for new grants.

Medically-related grants

The Trust receives many appeals from universities, hospitals and other charitable organisations to assist with capital projects related to medical science or to the care and treatment of people suffering from severe clinical conditions. It considers these on their merits, and in competition, depending on the funds available. From 2018 the programme was re-focussed to attract innovative proposals in support of infrastructure for medical research, and for the care of the severely disabled, the latter theme to apply initially for a period of three years. The scheme operates competitively, with a triage of short preliminary applications, followed by the submission of detailed applications, and, where appropriate, site visits. The Trust may be the sole funder, or one of a number of contributors. Its support will be pledged until such time as the viability of the project is assured. The Trust does not consider more than one appeal from a successful applicant in any period of three years. An unsuccessful applicant may re-apply with a new proposal after a lapse of two years.

Hospice Fund

The Trustees introduced this scheme for the first time in 2018. The Trust has always been a supporter of the hospice movement, mainly through its Ann Rylands Small Donations Programme,

but a reduced turnover criterion for the latter took many hospices outside of its auspices. This new programme enables all hospices to apply for grants of up to £5,000 for core funding, and up to £10,000 for capital purposes, all assessed on a competitive basis.

The Ann Rylands Small Donations Programme

The Trust receives many requests for assistance from fundraising charities. The Trustees have limited resources to distribute and their policy is to spread these as widely as possible by making grants (usually for amounts of up to £1,500) from its Small Grants Programme, which is named after a former Chairman of the Trust (and daughter of Sir Jules) who was so closely identified with this humanitarian programme. Donations may be for core funding, which charities often find more difficult to raise, or a contribution may be made towards a specific project. Demand is such that the Trustees currently restrict applications to charities with a turnover of £5m per annum or less, and they limit the number of appeals to not more than one in any period of twelve months. Nonetheless, there are many charities which the Trust has assisted over a number of years. Cumulatively, therefore, the support can be significant.

Applications are assessed on their merits, taking into account the perceived public benefit arising from the applicants' charitable work as evidenced by the case presented, supported by other information searches (such as the charity's website and the Charity Commission register), and analysis of the financial statements. A track record of successful delivery is an encouraging feature, although not all of the charities supported are long established. It is not cost-effective for the Trust to maintain more than an arms-length relationship with the recipients of small grants, but a pattern of giving over a number of years, coupled with scrutiny of published reports, enables the Trust to monitor the value achieved from this grant scheme.

How our grant programmes delivered public benefit – a review of achievements and performance

The benefits of the Trust's work are many and varied. In the field of medical science its grants enable:

- the outcomes from research to be disseminated worldwide in scientific journals;
- research findings to be translated into new therapies for patients, or to improve the diagnosis
 of clinical conditions;
- young clinical researchers to develop their knowledge and skills under expert supervision;
- new research, assessment, and treatment facilities to be provided;

The Trust's humanitarian grants assist with:

- the provision of facilities and care for the sick and disadvantaged;
- the work of carers;
- community projects;
- · support for those with disabilities; and
- aiding those in distress.

The 402 grants which the Trust made during the year are specified in the schedules to the accompanying financial statements. They are indicative of its focus on supporting charitable organisations whose work provides public benefit in areas such as those indicated above.

Medical research grants

The competition for **The Sir Jules Thorn Award for Biomedical Research** was won this year by University of Birmingham, whose successful bid for a grant of £1,693,848 over 5 years will fund a study "Regulatory T cells immunotherapy for treatment of autoimmune Primary Biliary Cholangitis surgery".

This was the seventeenth such award under this grant scheme, bringing the Trust's total commitment to £18.673 million since its inception in 2001. The progress of research is monitored regularly by the Trust's Medical Advisory Committee, with progress reports, including presentations by investigators. These are long term programmes whose outcomes will become apparent over time but those which have been concluded have produced some excellent results which have been published and have enabled other funding to be obtained to continue the investigations.

Medically- related grants

Five major awards totalling £1.1m were made following the re-focusing of this scheme, as described earlier. 22 preliminary submissions were received, of which six were shortlisted. The successful applicants were selected on the basis of the perceived originality and innovative quality of their proposals. The details are given in Schedule B to the financial statements.

The Trust monitors the progress of all projects for which it provides substantial grants and undertakes site visits. Impact and evaluation reports will normally be part of the reporting process.

Hospice Fund

The Trustees allocated resources of £200,000 specifically to support the work of the hospice sector. This was distributed fully between 32 hospices, with grants of either up to £5,000 for core funding, or up to £10,000 towards capital projects. The details are given in Schedule C to the financial statements.

Small Donations Scheme

The Trust responded to numerous other charitable appeals by providing small grants totalling £307,854 shown in Schedule D to the financial statements.

The Trust's experience over many years, evidenced by letters received and by personal visits is that, whilst the grants made under the Ann Rylands Small Grants Programme are modest, they are important to the recipients. Many are small charities for whom fundraising is often difficult. The Trust's support provides an important contribution to their income and it provides a morale boost for those working or volunteering for the charities. Anecdotal evidence suggests also that the Trust's support can act as an encouragement to other potential donors during fundraising.

Financial Review

The endowment provided by Sir Jules Thorn remains the source of the Trust's funding of its grant-making activities, and of its day to day operations.

As explained below, the Trust operates a total return approach which enables a prudent amount of investment gains made in previous years to be used to augment distributions. Thus the Trust is not reliant solely on the level of its investment income in determining how much it is able to distribute in any one year.

Income of £ 1,487,166 was received during the year from the investment portfolios managed by Cazenove Capital Management and Ruffer. (The Trust's funds managed by Investec Asset Management were held in Accumulation Units in their Diversified Growth Fund which does not make income distributions.) Total expenditure commitments of £ 4,092,389, which included net grants of £ 3,087,057 and Investment Managers' Costs of £572,291, resulted in a deficit of £ 2,605,223 which was augmented by net Investment losses of £ 9,204,090, from all three Investment Funds, making an overall deficit for the year of £11,809,313 (2017 Surplus £ 3,855,406) which decreased total funds held as at 31st December 2018 to £112,506,908 (2017 - £124,316,221). Details of transfers between general and endowment funds are detailed below.

Reserves Policy

Under the terms of the Trust Deed the Endowment Fund is expendable at the Trustees' discretion and provides the resources to finance all of the Trust's activities, including its administration. It is the Trustees' intention that the Trust's grant-making should continue for the foreseeable future, and, as a consequence, the investments in the Fund are managed on a long term basis, as described below. The Trustees aim to have a sustainable distribution policy which maintains the level of charitable giving provided it is prudent to do so. They have adopted a total return approach designed to ensure that a sustainable level of investment gains is distributed as grants. Investment income is reinvested in the Fund and expenditure is financed by cash withdrawn according to a formula which recognises that some past capital gains may safely be distributed, provided that the ability of the Fund to generate adequate returns into the future is not compromised. The current formula provides for up to 3.5% of the market value of the Fund, averaged over the previous three years, to be withdrawn, subject to the three year average being not less than £90 million, adjusted for inflation since the formula was set.

In 2018, the Trustees have authorised an additional transfer from endowment funds to cover the shortfall in unrestricted funds needed to finance the grants awarded in the year. This is presented as a transfer between funds of £2,032,932 in the statement of financial activities.

The Trust does not need to retain unrestricted income funds as reserves although in some years such funds can remain due to the timing of commitments. There were no such balances extant at 31 December 2018.

At the year end the value of the Endowment Fund was £112.5 million which the Trustees consider appropriate in the context of the above policy.

Investment Policy

The Trust Deed does not impose any restriction on the Trustees' power to invest. The endowment funds are invested fully in the stock markets for the long term under the professional guidance of its Fund Managers, who operate with discretionary mandates but subject to guidelines defined in the Trustees' Statement of Investment Principles.

The Trust's investment policy has a target return objective of 3.5% above the Consumer Prices Index, net of fees, measured over a rolling three year period. Investment performance is now judged against that objective. In 2018 the Trust's target return was set at 5.7%. The returns achieved during the year by the three firms of investment managers, on the assets for which they are responsible were; Cazenove -4.7%, Ruffer -3.7% and Investec -10%. After several years of positive performance, these disappointing returns reflected the difficult stock market conditions referred to earlier, with the final quarter of the year proving to be particularly challenging.

In addition to the negative screening for direct investment in UK tobacco manufacturing stocks, the Trustees expect that the Investment Managers will adopt an active policy on the exercise of voting rights in accordance with the principles of good corporate governance published by the Institutional Shareholders' Committee. Details of such voting activities are required to be reported in the regular reports which the Managers make to the Trustees.

The Fund Managers provide the Trustees with a written valuation and performance report each quarter and make a personal presentation to them on the performance of the funds which they manage at least once per annum.

The Trust's cash resources - £8.8 million at the year-end - are managed so as to optimise the return, while ensuring that funds are readily available to meet grant payments and other obligations as they fall due. In the current low interest rate environment, the income yield on cash balances is modest but the Trustees regard the present 60% cash cover for outstanding grant commitments to be appropriate, when coupled with the Trust's substantial £112.5m of expendable endowment funds.

The Trustees consider that their responsibility for the safety and performance of the Trust's investments is discharged appropriately by the aforementioned arrangements, when combined with the Trust's own monitoring of portfolio activity, and the annual audit procedures.

Plans for future periods

The Trustees intend to maintain the Trust's grant-making in line with the policies described above, which are reviewed and confirmed regularly.

2018 saw the full implementation of new online application processes for both the Medically Related donations scheme and the new Hospice Fund. Along with the Ann Rylands scheme all programmes which can be applied for by registered Charites must now be applied for online.

The Trustees consider that the Trust has very adequate capacity to meet its obligations and to fund its planned activities.

Trustees' responsibilities in relation to the financial statements

The Trustees are responsible for preparing the Trustees' Annual Report and the financial statements in accordance with applicable law and United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards).

The law applicable to charities in England and Wales requires the Trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charity and of the incoming resources and application of resources of the charity for that period. In preparing these financial statements, the Trustees are required to:

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charities SORP;
- · make judgments and estimates that are reasonable and prudent;
- follow applicable UK Accounting Standards and the Charities SORP, disclosing and explaining any departures in the accounts; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue in business.

The Trustees are responsible for keeping adequate accounting records that are sufficient to show and explain the charity's transactions, disclose with reasonable accuracy at any time the financial position of the charity and enable them to ensure that the financial statements comply with the Charities Act 2011, the Charities (Accounts and Reports) Regulations 2008 and the provisions of the charity's constitution. They are also responsible for safeguarding the assets of the charity and hence for taking reasonable steps for the prevention and detection of fraud and other irregularity.

Auditor

Crowe U.K. LLP has indicated its willingness to be reappointed as statutory auditor for the next financial year.

Approved by the Trustees and signed on their behalf by:

Elizabeth S Charal, Chairman Class al

Date: May 15 2019

Independent Auditor's Report to the Trustees of Sir Jules Thorn Charitable Trust

Opinion

We have audited the financial statements of Sir Jules Thorn Charitable Trust for the year ended 31 December 2018 which comprise the Statement of Financial Activities, the Balance Sheet and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the charity's affairs as at 31 December 2018 and of its incoming resources and application of resources, for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Charities Act 2011.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the charity in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the trustees' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the trustees have not disclosed in the financial statements any identified material uncertainties that may
 cast significant doubt about the charity's ability to continue to adopt the going concern basis of accounting
 for a period of at least twelve months from the date when the financial statements are authorised for issue.

Other information

The trustees are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters in relation to which the Charities (Accounts and Reports) Regulations 2008 require us to report to you if, in our opinion:

- the information given in the financial statements is inconsistent in any material respect with the trustees' report; or
- sufficient accounting records have not been kept; or
- · the financial statements are not in agreement with the accounting records and returns; or
- · we have not received all the information and explanations we require for our audit

Responsibilities of trustees

As explained more fully in the trustees' responsibilities statement the trustees are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the charity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the charity or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

We have been appointed as auditor under section 144 of the Charities Act 2011 and report in accordance with the Act and relevant regulations made or having effect thereunder.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the charity's trustees, as a body, in accordance with Part 4 of the Charities (Accounts and Reports) Regulations 2008. Our audit work has been undertaken so that we might state to the charity's trustees those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charity and the charity's trustees as a body, for our audit work, for this report, or for the opinions we have formed.

Crowe U.K. LLP Statutory Auditor

London

Date 15 May 2019

we D.K. UP

Crowe U.K. LLP is eligible for appointment as auditor of the charity by virtue of its eligibility for appointment as auditor of a company under section 1212 of the Companies Act 2006.

The notes on pages 17 to 26 form part of these financial statements

1. PRINCIPAL ACCOUNTING POLICIES

a) Basis of accounting

The Trust is a registered charity in England and Wales and as such is a Public Benefit entity. Governed by its Trust Deed, dated 18 February 1964.

The Trust's Charity Commission registration number is 233838 and its registered address is 24, Manchester Square, London, W1U 3TH.

The financial statements have been prepared under the historical cost convention as modified by the revaluation of investments and in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS102) and the Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) - effective 1 January 2015.

The functional currency of the Trust is considered to be GBP because that is the currency of the primary economic environment in which the charity operates.

The financial statements have been prepared to give a 'true and fair' view and have departed from the Charities (Accounts and Reports) Regulations 2008 only to the extent required to provide a 'true and fair view'. The departure has arisen because charities are now required to prepare their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) effective 1.1.15 for the Sir Jules Thorn Charitable Trust.

After making enquiries, the Trustees have a reasonable expectation that the charity has adequate resources to continue its activities for the foreseeable future. The trustees are not aware of any material uncertainties about the charity's ability to continue and accordingly, they consider it appropriate to adopt the going concern basis in preparing the financial statements as outlined in the Statement of Trustees' Responsibilities on page 11.

b) Critical accounting judgements and key sources of estimation uncertainty

In the application of the charity's accounting policies, which are described in this note, Trustees are required to make judgements, estimates and assumptions about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods.

In the view of the Trustees, no assumptions concerning the future or estimation uncertainty affecting assets and liabilities at the balance sheet date are likely to result in a material adjustment to their carrying amounts in the next financial year.

The principal accounting policies adopted, judgements and key sources of estimation uncertainty in the presentation of the financial statements are as follows:

c) Income from investments

Dividend, interest and other income is accounted for on an accruals basis and is shown gross of any associated tax credits recoverable.

d) Grants and donations payable

Grants and donations are recognised in the Statement of Financial Activities on the basis of the commitments made during the year. Because most projects last for more than one year the total of amounts committed but not yet paid is shown split between current and long-term liabilities.

e) Fixed assets and depreciation

Fixed assets over £500 are capitalised. Depreciation is provided on fixed assets, in order to write off the cost of the assets over their expected useful lives estimated residual values, at the following rates:

Office equipment Fixtures and fittings

20% p.a. straight line 20% p.a. straight line

f) Investments

Investments are stated at mid-market value at the year end. The Statement of Financial Activities includes the aggregate of realised and unrealised gains and losses during the year.

g) Basis of allocation of costs

Cost of generating funds

The cost of generating funds represents amounts paid to the Trust's external investment managers.

Support costs

These costs are incurred directly in the delivery of the Trust's charitable activities. These costs are based on the percentage of time that a resource is used in the application of grants administration and associated activities together with the overhead costs of the charity.

Governance costs

Governance costs comprise costs incurred in Trust administration and compliance with regulatory requirements. Staff costs are calculated as a percentage of time committed.

h) Portfolio management fees

The cost of managing the Trust's investment portfolio is met from Endowment Funds. Portfolio management fees are recognised on an accruals basis.

i) Pensions

Contributions were made to three employees' personal pension schemes in accordance with their employment contracts. All such contributions are expensed through the Statement of Financial Activities in the year in which they are due.

j) Funds

Endowment funds represent the investment assets derived from the original gift from Sir Jules Thorn. The endowment is expendable at the discretion of the Trustees.

k) Financial instruments

Financial assets and financial liabilities are recognised when the Trust becomes a party to the contractual provisions of the instrument. Additionally, all financial assets and liabilities are classified according to the substance of the contractual arrangements entered into.

Financial assets, comprised of cash, other debtors and accrued income, and financial liabilities, comprised of grants payable, other creditors and accruals, are initially measured at transaction price (including transaction costs) and are subsequently re-measured where applicable at amortised cost except for investments which are measured at fair value with gains and losses recognised in the statement of financial activities

The Trust's investment managers enter into forward rate currency contracts to manage its exposure to fluctuations in exchange rates within the investment portfolio throughout the year. These contracts are recognised at fair value within the overall valuation of the investment portfolio with gains or losses recognised in the Statement of Financial Activities.

Assets and liabilities held in foreign currency are translated to GBP at the balance sheet date at an appropriate year end exchange rate.
