The Trustees present their report for the first period of trading together with the financial statements of Combat Cancer (the CIO).

Introduction

Combat Cancer (The Charity) is a Charitable Incorporated Organisation (CIO) whose members are involved in raising funds to sponsor relevant cancer research programmes . The Charity's charitable object

The Charities activities aim to advance and promote the highest quality research in this area with the ultimate aim of providing breakthrough research in the battle against all forms of cancer

Structure and Governance

The Charity is a CIO which was registered on the 8th May 2018

It is governed by a board of Trustees. All new Trustees are given sufficient training and induction programmes to obtain enough knowledge to understand the responsibilities of governance. The Trustees are responsible for the business of the Charity and may form subcommittees as appropriate to better discharge their duties

There must be at least three charity trustees. If the number falls below this minimum, the remaining trustee or trustees may act only to call a meeting of the charity trustees, or appoint a new charity trustee.

The maximum number of charity trustees is 12. The charity trustees may not appoint any charity trustee if as a result the number of charity trustees would exceed the maximum.

First charity trustees the first charity trustees are as follows, and are appointed for the following terms –

Mrs Irina Astley	for 3 Years
Ms Sharon Stanley	for 3 years
Mrs Jane Prior	for 3 Years

The Trustees confirm that they have referred to the guidance contained in the Charity Commission's guidance on public benefit when reviewing the Charity's aims and objectives.

The Charity is currently fundraising for

Newcastle University [Wolfson Childhood Cancer Research Centre](#) where clinical and research teams come together to advance their understanding of how to treat childhood cancers, developing less toxic therapies with fewer side-effects, more effective treatment options for youngsters with advanced cancer and those whose illness has returned

The Wolfson Childhood Cancer Research Centre at Newcastle University is a facility where clinical and research teams from across the city can come together to advance their understanding of how to treat childhood cancers. It brings together over 90 scientists and clinicians in state-of-the-art facilities, including the NECCR Research Laboratories.

Approximately 1,600 children are diagnosed with cancer each year in the UK and the illness remains one of the main reasons why children die prematurely. Many long-term survivors suffer from chronic health problems related to their original therapy. With one in 700 young adults now a survivor of childhood cancer, debilitating side-effects are a concern.

Work at the Wolfson Childhood Cancer Research Centre will focus on developing less toxic therapies with fewer side-effects, more effective treatment options for youngsters with advanced cancer and those whose illness has returned.

Although £5.5m was raised to build the facility, it is not the end as fundraising continues at pace to raise at least £300,000 each year to support the new life-saving research conducted by the centre.

Combat Cancer charity mission is to contribute £30K annually to the Wolfson Centre's activities, through your generous donations.

Combat Cancer

Fundraising Activities

The Income arises from marketing and information dissemination of the Charity's objects in combatting cancer and is reliant on online donations which in turn are forwarded to our principal beneficiary The Wolfson Childhood Cancer Research Centre

Financial Review

The charity had incoming resources of £17707 during its first period of trading resulting in a surplus of £xxx. It is anticipated that this income is expected to grow once the Charity's profile is raised by the Trustees.

Reserves Policy

It is the Charity's aim to ensure that unrestricted funds not presently committed to future projects be maintained in accordance with the Charity's Commission guidelines of 6 months operating costs. For the first year of trading this has not been achieved but it is anticipated this objective be realised within the next two years

Investment Policy

It is anticipated that excess cash not immediately required for research be placed on short term deposit to minimise the loss to the Charity whilst trying to achieve the best returns available for its funds.

Risk Management

The Trustees are aware of their duty to review manage and mitigate risks to which the Charity is potentially exposed and to provide reasonable internal controls to prevent fraud and error.

Plans for future periods

It is intended to increase donations via a series of promotional campaigns
