# Who we are and what we do

Cancer52 is a national organisation which has been in existence since 2007 and was registered as a charity in England and Wales in September 2017. It acts as a unifying body for charitable and not-for-profit organisations working in the field of rare and less common cancers.

Cancer52 currently represents nearly 100 predominantly small patient support group cancer charities united by their vision of seeing a better future for everyone affected by the rare and less common cancers, which account for more than half of all cancer deaths in England.

Current data show that 47% of cancers which are diagnosed in England are rare and less common cancers, yet they account for 55% of cancer deaths. (Source PHE/NCRAS May 2019).

# Our Aim

Our aim is to promote improved diagnosis, treatment and support for those affected by rare and less common cancers.

# Our vision

Our vision is to see an end to the inequalities in diagnosis, treatment and patient experience outcomes experienced by those with a rare or less common cancer compared with the four most common cancers of breast, bowel, lung and prostate.

# Our mission

Our mission is to provide a strong, unified, voice for rare and less common cancer organisations by representing, speaking, informing, sharing and involving our members in work to achieve our vision.

# Our values

All our work is underpinned by our values. To be:

- Ambitious
- Outcomes-focused
- Collaborative
- Evidence-based
- Influential

And to act:

- Honestly, and with
- Integrity

# **Our achievements**

Our work in the year to March 2019 initially focused on the three key policy objectives of input to the Cancer Strategy and National Cancer Advisory Group, and working to gain increased access to data and to medicines.

In early 2018 it became clear that there was to be an NHS Long Term Plan covering the next ten years, and that cancer was to be a key stream within that Plan. Accordingly, our role evolved from input to existing structures to ensuring that we would have a significant voice and presence within the new NHS Long Term Plan.

In order to do ensure our voice was recognised and heard we undertook a major consultation exercise throughout the summer of 2018 and generated input from 58 charities, 671 patients and one on one input from 14 key stakeholders.

The resultant report 'Getting a Better Deal for People with Rare and Less Common Cancers, the next ten years' and the three key asks we launched alongside the report were well received.

Most significantly we asked for a target that affected the whole system that included rare and less common cancers as a critical element. There are two key targets for the cancer programme – one is that 75% of all cancers be diagnosed at an early stage by 2028 (it's currently 54%). We were delighted to see this target as it cannot be achieved without improving early diagnosis rates for rare and less common cancers.

Our other asks of the long term plan were a presence within the new Cancer Alliance structure and a task and finish group specifically dedicated to rare and less common cancers. Accordingly, we were again delighted to be given a seat on the National Cancer Board; and a place on task and finish groups focusing on rapid diagnosis, workforce and patient experience.

Other highlights of our work included making our patient voice film. We produced this to keep attention focused on people with rare and less common cancers at a critical time. It featured the then Cancer Minister, was filmed at Britain Against Cancer 2018 and was launched alongside the NHS Long Term Plan in January 2019.

We welcomed the NHS Long Term Plan and are working with the newly emerging NHS governance structures for the cancer programme to ensure the voice of people with rare and less common cancers continues to be heard.

Throughout the year we continued with our ongoing programmes of member briefings and workshops, ebulletins for members, and engagement with the wider stakeholder community.

# **Future plans**

The prevention, diagnosis, treatment and patient aftercare of those affected by rare and less common cancers is at a key juncture in the UK. With NHS cancer strategy and plans at different stages of development there is a clear understanding that cancer targets will only be met if there is significant reform and improvement to the way we deal with rare and less common cancer diagnoses. In its 10 years as an organisation, latterly as a charity, Cancer52 has played an important role in raising awareness of the need for national policy to pay equal attention to rare and less common cancers, alongside the four common cancers of breast, lung, bowel and prostate.

We are now well placed to continue our work for people with rare and less common cancers because of the published long term target that will increase early diagnosis. We are also continuing to build our links with the Cancer Alliances who are charged with delivering and implementing the NHS Long Term Plan for Cancer.

We are the only campaigning and influencing organisation solely focused on rare and less common cancers. We are passionate about addressing the inequalities faced by people with a rare and less common cancer diagnosis and improving cancer outcomes. We intend to build on our work so far and take the next steps in developing the organisation so that it can achieve its vision and strategic objectives.

Following a period of review and planning, the trustees approved a new strategy plan in early 2018 covering the next three years of our work. Underpinning the whole of our three year strategy is the following ambitious objective:

"By 2030 everyone with a cancer diagnosis will have the same life chances."

This means improving prevention, diagnosis, treatment and patient experience processes within rare and less common cancer so that they match those in common cancers, to bring an end to the current inequality whereby rare and less common cancers account for 55% of cancer mortality but only 47% of cancer incidence (a disparity that has worsened in the last 10 years).

Key to achieving this objective are the following key indicators or markers of step changes, based on existing patient experience measures and/or data on cancer practice:

- Ensuring access to Rapid Diagnostic Centres (ensuring that rare and less common cancer cases make up an appropriate proportion of referrals and diagnoses)
- The 28-day Faster Diagnosis Standard (being introduced from April 2020 in England) ensure rare and less common cancers are not disadvantaged
- Access to a clinical nurse specialist (CNS) All rare and less common cancer patients should be given the name of a CNS who will support them through their treatment (2016 NCPES levels: 90% for all cancer patients)
- Research funding spending on research into rare and less common cancers should match that for the four common cancers
- Taking part in cancer research at least 40% of patients with rare or less common cancer should be given the opportunity to participate in research (2016 NCPES levels: 27% for all cancer patients).
- Genetic screening/molecular analysis currently there is no standard access to genetic screening for the purposes of cancer diagnosis.

We have then identified a number of workstreams and related activities that will help us bring about the change we need to see if outcomes are to be dramatically improved for those with a rare or less common cancer diagnosis.

### Governance, structure and management Constitution

Cancer52 is incorporated as a charitable company limited by guarantee and is a registered charity in England and Wales. It is governed by its Memorandum and Articles of Association, and the work, management, finances and strategy of the charity are overseen by a board of trustees, who are also the company directors. The trustees who held office during the financial year and at the date of the report are set out on page 25.

Under the Articles of Association, a minimum of three trustees and a maximum of twelve trustees can be in office. At Annual General Meetings, one-third of the existing directors must retire by rotation based on the longest serving directors retiring first. Retiring directors may be re-appointed at Annual General Meetings by the vote of existing directors. New directors may only be appointed at Annual General Meetings where the notice and approval requirements set out in the Articles of Association have been satisfied.

The Board has agreed that the usual term of tenure for trustees should be a maximum of two terms of three years each (ie, six years in total), with review and approval by the Board at the end of each term of tenure. In exceptional circumstances, and in order not to lose important or valuable skills, experience and expertise, trustees may serve for a third term of tenure, subject to the approval of the Board. Trustees do not receive remuneration for their duties.

## Purpose

The charity's purposes are set out in its Memorandum of Association as follows:

"To promote and protect the health of sufferers of rare and less common cancers for the public benefit

by: (a) advancing and promoting the understanding, awareness, research and learning about rare and less common cancers;

(b) acting as a collective voice and advocating for the needs of individuals affected by a rare or less common cancer in order to improve the outcomes of diagnosis, treatment and long-term support; and

(c) supporting, representing and empowering not-for-profit organisations working in the field of rare and less common cancer."

### **Public benefit**

Our work delivers public benefit by providing information and support to people diagnosed with, treated for or living with a rare or less common cancer via the services, interactions and collaboration that we facilitate between our members. The influencing work we carry out to drive change and improvements in the cancer system provides public benefit through improving outcomes for people affected by a rare or less common cancer.

As part of our business planning processes, we review our aims and objectives each year, which includes looking at what we have achieved in previous years, and how our activities have benefited those groups of people we were set up to help. We have referred to the Charity Commission's general guidance on public benefit when reviewing our aims and objectives, and in planning our work for the future.

### Board and management operations and structure

#### Board of trustees

The board of trustees meets at least four times a year to review the organisation's work, finances and services, and to agree the strategic goals for the charity. The chief executive attends all meetings. The board is also establishing a process to review its own operation, effectiveness and governance.

The chair and another trustee with financial expertise also meet separately with the chief executive and the charity's accountant on a quarterly basis to monitor and scrutinise the charity's financial strategy and operations, and make any necessary recommendations to the full board of trustees.

#### Recruitment and appointment of new trustees

An annual review of the recruitment needs of the board of trustees is carried out under the leadership of the chair, including an audit of the current knowledge, experience, skills and abilities, and how they will be affected by any trustee departures in the future. Any trustee vacancies are advertised nationally, and via relevant professional and organisational networks, including the charity's own member organisations, depending upon the expertise and specialisms required. Applicants are shortlisted against the criteria in the person specification for the role of trustee, including any specific qualities highlighted during the above audit. Shortlisted applicants are invited for interview by at least two trustees, one of whom will be the chair. Shortlisted applicants are only appointed where they have the necessary skills and qualities to contribute effectively to the charity's governance and development.

All new trustees receive thorough induction and training, which includes detailed information about the Association, including its memorandum and articles, accounts, financial reports and minutes of previous trustees' meetings.

#### Management and organisation

Day-to-day operation of the charity, and strategy implementation, is delegated to the chief executive.

### **Related Parties**

The only related parties are considered to be the trustees and those connected with the trustees including their close family, business and other charity interests. There have been no transactions with related parties, other than the reimbursement of reasonable travel expenses for the purposes of attendance at board meetings and other relevant organisational activities.

### **Risk assessment and management**

The board of trustees and the chief executive maintain a risk register and assess risks on an annual basis. The trustees are satisfied that the major risks to the organisation have been accurately identified and that appropriate systems and procedures for managing those risks are in place. The main areas of identified risk are in relation to:

- · Lack of investment in the organisation's capacity and staffing.
- Income generation, namely, failing to secure existing funding streams, as well as failing to develop a more diverse range of income streams.
- External reputation, namely that a policy position or external statement damages the organisation's profile with key stakeholders, including member organisations, NHS policy-makers or funders/supporters.

To address these risks, effective management and controls have been put in place by the trustees, including:

- Strong and regular review of income generation activity by the board of trustees.
- The development and approval of a new strategic plan covering the period from 2018 to 2020 focusing on growth and sustainability for Cancer52 as an organisation, with an allied ambition to be at the forefront of developing a new rare and less common cancer strategy within the NHS.
- Running a Policy and Public Affairs Steering Group (reporting into the CEO and Board of Trustees), which brings together key policy/public affairs staff from a number of cancer support/campaigning organisations, so that they can develop and advise on Cancer52's external policy positions.
- Appropriate insurance cover and associated measures.

### **Financial review**

#### Financial overview and review

As shown in the statement of financial activities on page 9, in 2018:

- Reserves brought forward from 2017/18 were £77,899.
- Income for the current financial year was £98,491.
- Expenditure for the current financial year was £107,998, resulting in a small anticipated deficit of £9,497.
- Reserves of £68,402 were available at the end of the 2018/19 financial year.

## **Our reserves policy**

The board of trustees' strategy on reserves is for the organisation to maintain sufficient funds to cover the operational running costs in the event of a major setback. This means that we aim to hold approximately six months' annual expenditure in reserves.

At the end of the 2018/19 financial year, our reserves stood at £68,402 which adequately covers the six months required.

The Company has taken advantage of the small companies exemption in preparing the report above.

The trustees declare that they have approved the trustees' report (including directors' report) above.

Signed on behalf of the charity's trustees/directors

### Independent examiners' report to the members of Cancer52

#### Respective responsibilities of trustees and examiner

The charity's trustees are responsible for the preparation of the accounts. The charity's trustees consider that an audit is not required for this year under section 144 of the Charities Act 2011 ("the Charities Act") and that an independent examination is needed.

It is my responsibility to:

- examine the accounts under section 145 of the Charities Act,
- to follow the procedures laid down in the general Directions given by the Charity Commission (under section 145(5)(b) of the Charities Act, and
- to state whether particular matters have come to my attention.

#### Basis of independent examiner's statement

My examination was carried out in accordance with general Directions given by the Charity Commission. An examination includes a review of the accounting records kept by the charity and a comparison of the accounts presented with those records. It also includes consideration of any unusual items or disclosures in the accounts, and seeking explanations from the trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit, and consequently no opinion is given as to whether the accounts present a 'true and fair' view and the report is limited to those matters set out in the statement below.

#### Independent examiner's statement

In connection with my examination, no material matters have come to my attention (other than that disclosed below\*) which gives me cause to believe that in, any material respect:

- the accounting records were not kept in accordance with section 130 of the Charities Act; or
- · the accounts did not accord with the accounting records; or
- the accounts did not comply with the applicable requirements concerning the form and content of accounts set out in the Charities (Accounts and Reports) Regulations 2008 other than any requirement that the accounts give a 'true and fair' view which is not a matter considered as part of an independent examination.

I have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

royalties and dividends	be measured reliably.	~
Income from membership subscriptions	Membership subscriptions received in the nature of a gift are recognised in Donations and Legacies.	Yes* ✓
	Membership subscriptions which gives a member the right to buy services or other benefits are recognised as income earned from the provision of goods and services as income from charitable activities.	Yes*
Settlement of insurance claims	Insurance claims are only included in the SoFA when the general income recognition criteria are met (5.10 to 5.12 FRS102 SORP) and are included as an item of other income in the SoFA.	Yes*
Investment gains and losses	This includes any realised or unrealised gains or losses on the sale of investments and any gain or loss resulting from revaluing investments to market value at the end of the year.	Yes*
2.3 EXPENDITURE	AND LIABILITIES	
Liability recognition	Liabilities are recognised where it is more likely than not that there is a legal or constructive obligation committing the charity to pay out resources and the amount of the obligation can be measured with reasonable certainty.	Yes* ✓
Governance and support costs	Support costs have been allocated between governance costs and other support. Governance costs comprise all costs involving public accountability of the charity and its compliance with regulation and good practice.	Yes*
	Support costs include central functions and have been allocated to activity cost categories on a basis consistent with the use of resources, eg allocating property costs by floor areas, or per capita, staff costs by the time spent and other costs by their usage.	Yes*
Grants with performance conditions	Where the charity gives a grant with conditions for its payment being a specific level of service or output to be provided, such grants are only recognised in the SoFA once the recipient of the grant has provided the specified service or output.	Yes*
Grants payable without performance conditions	Where there are no conditions attaching to the grant that enables the donor charity to realistically avoid the commitment, a liability for the full funding obligation must be recognised.	Yes*
Redundancy cost	The charity made no redundancy payments during the reporting period.	Yes*
Deferred income	No material item of deferred income has been included in the accounts.	Yes*
Creditors	The charity has creditors which are measured at settlement amounts less any trade discounts	Yes*
Provisions for liabilities	A liability is measured on recognition at its historical cost and then subsequently measured at the best estimate of the amount required to settle the obligation at the reporting date	Yes*
Basic financial instruments	The charity accounts for basic financial instruments on initial recognition as per paragraph 10.7 FRS102 SORP. Subsequent measurement is as per paragraphs 11.17 to 11.19, FRS102 SORP.	Yes*
2.4 ASSETS Tangible fixed assets for use by charity	These are capitalised if they can be used for more than one year, and cost at least	£1,500
	They are valued at cost.	Yes*
	The depreciation rates and methods used are disclosed in note 14.	
Intangible fixed assets	The charity has intangible fixed assets, that is, non-monetary assets that do not have physical substance but are identifiable and are controlled by the charity through custody or legal rights. The amortisation rates and methods used are disclosed in note 15.	Yes*
	They are valued at cost.	Yes*
Heritage assets	The charity has heritage assets, that is, non-monetary assets with historic, artistic, scientific, technological, geophysical or environmental qualities that are held and maintained principally for their contribution to knowledge and culture. The depreciation rates and methods used as disclosed in note 16.	Yes*
	They are valued at cost.	Yes*
Investments	Fixed asset investments in quoted shares, traded bonds and similar investments are valued at initially at cost and subsequently at fair value (their market value) at the year end. The same treatment is applied to unlisted investments unless fair value cannot be measured reliably in which case it is measured at cost less impairment.	Yes*
	Investments held for resale or pending their sale and cash and cash equivalents with a	Yes*

	maturity date of less than 1 year are treated as current asset investments			✓
Stocks and work in progress	Stocks held for sale as part of non-charitable trade are measured at the lower or cost or net realisable value.	Yes*	No*	N/a* ✓
	Goods or services provided as part of a charitable activity are measured at net realisable value based on the service potential provided by items of stock.	Yes*	No*	N/a* ✓
	Work in progress is valued at cost less any foreseeable loss that is likely to occur on the contract.	Yes*	No*	N/a* ✓
Debtors	Debtors (including trade debtors and loans receivable) are measured on initial recognition at settlement amount after any trade discounts or amount advanced by the charity. Subsequently, they are measured at the cash or other consideration expected to be received.	Yes*	No*	N/a* ✓
Current asset investments	The charity has investments which it holds for resale or pending their sale and cash and cash equivalents with a maturity date less than one year. These include cash on deposit and cash equivalents with a maturity of loss than one year held for investment purposes rather than to meet short-term cash commitments as they fall due.	Yes*	No*	N/a* ✓
	They are valued at fair value except where they qualify as basic financial instruments.	Yes*	No*	N/a* ✓

#### Note 8 Fair value of assets and liabilities

8.1 Please provide details of the charity's exposure to credit risk (the risk of incurring a loss due to a debtor not paying what is owed), liquidity risk (the risk of not being able to meet short term financial demands) and market risk (the risk that the value of an investment will fall due to changes in the market) arising from financial instruments to which the charity is exposed at the end of the reporting period and explain how the charity manages those risks.

8.2 Please give details of the amount of change in the fair value of basic financial instruments (debtors, creditors, investments (see section 11, FRS102 SORP)) measured at fair value through the SoFA that is attributable to changes in credit risk.

Credit risk is low due to income being in the form of donations. Cash is the only investment so market risk is low on investment values falling. Liquidity risk is low as costs are managed in relation to income received.

Not applicable
