REPORT TO TRUSTEES

The year in question was disappointing with serious operational difficulties. We were unable to sustain our bounce back loan payments and this debt was written off however activities were somewhat reduced again for operational reasons. The Foundation managed to attract one educational group which contributed funds, its main effort was working with FE students across the country to help them with projects of their own choice. Funds were raised for this purpose.

The situation for the next year (2025/26) is even more difficult with much reduced capacity. This being said we are formulating plans for 2027 now.
